James Bronner: We praise God for His presence here. The same anointing that you see during the prayer and worship and during the prayer. We had to take that same anointing in our lives, in our jobs and families and communities. Because how many of you have battles in your life that you had to fight? And if you don't have any right now, you're going to have some even on yesterday, I had a battle in the (00:00:31).

I was in my first karate tournament and I saw a lot of spiritual significance in the tournament and we all have battles in life. While I was sliding last week, when my body got tired, I took notice and I noticed my legs again to shake even when I began praying and I realized that the presence of God was still with me even there to protect me and to be with me. And in the tournament, they placed me with some guys about 250 pounds over 6 feet tall, several of them and I'm only 4 feet 5, I had a great disadvantage but I knew the presence of the Lord was with me. You know, it makes a big difference who's with you on your team. It doesn't matter who your opponent is, it matters who's on your team and who is with you and actually they hit me in every place illegal that they could hit me. They hit me in the eye which was illegal and God showed me later that I had a devil and going to try to take your vision from you. The things that God have shown you and take away the vision for without a vision the people perish. The next is they kicked me in the throat which was illegal and He will try to give your testimony, He will try to take away your voice to keep you from telling people about the Lord Jesus Christ and what He's done. The third place they kicked me that was illegal was in the groin and the devil is after your children and death which is progeny out of your (00:02:22) which reproduces yourself. He'll attack that area in your life. But through it all, I had the presence of God on me and I was able to keep fighting even though he hit me in the eye, he was trying to blind me and even though they kicked me in the throat, I was able to still breathe and I kept going through it all and I came away with the first place trophy in the first time I'm on it.

So, just keep that in mind as you battle with the adversity through life that with God, you can make it, no matter how big your opponent is. No matter how big your (00:03:11) look. No matter how big your sickness looks. With God, you can make it.
