Nathaniel Bronner: Sometime we care a whole lot more by how we look on the outside, than what's going on the inside.

Female: You are listening to Brothersoftheworld.com. This is the message titled: The Miracle Lab, Miracle Lotion by Nathaniel Bronner. This message is number 4077. That's 4077. Listen to over a thousand free messages on Brothersoftheworld.com.

(Music Playing: 00:00:19 - 00:00:46)

Female: And now for 4077. The Miracle Lab, Miracle Lotion.

Nathaniel Bronner: Amen, Amen. Right now, I just want to tell you about another phase that the church is getting ready to move into. Actually, it's a product. It's the first product actually they go out into the retail world that the church has anything to do with. This is miracle lotion, heal quick, miracle lotion. Miracle lotion is a product that the company that James and I run. We've been manufacturing miracle lotion since 1993. So, it's been on the market for a long time. It is sold in stores all the cross the country. We sell thousands of bottles each month. But back in April, I begin working on a revised version of the product.

And God begin speaking and dealing with me about all of the changes: the formula is different, the packaging is different, the bottle is different, and one of things different about miracle lotion, it has got heals all in it. If you noticed on our banner with all of the programs of the church. God heals was a program that was actually began by a profit name, Reverend Luis Berry in 2006. And we've been holding God heals, it's a healing service all of you familiar with it, people come on the first Sunday of the biblical month, at 7 P.M. the doors are locked at 7 o'clock and we lay hands on him and God heals all with an oil the was developed for the God Heal service, for the people to take with them. And one of the rules God Heals is we can take no money, we take no money for the oil, we take no donations, or anything at the service that is a perpetual command.

So, the people are given a bottle of God Heals or to take with them. But when God begin instructing me with the formulation changes on miracle lotion, he said, "You going to air God Heals or to this lotion." He told me exactly how much to add and how to do it. So, it's here in the bookstore now. And one thing about all of the products that are company makes, they're always discounted for

the members of the church except this. And one of the reasons it's not going to be discounted just because God spoke to price. He says, "\$18.00 a bottle." So, it's going to cost \$18.00 a bottle. We even have a strong, what's called a math pricing policy that would putting in price on the lotion, because sometimes we have thousands of stores to sell our product, and some of them, they go into price wars and we haven't written up, nobody can sell this lotion less than \$18.00. If they sell it for \$17.99, we're going to write them a letter, and tell them, "If they don't pull that advertising down, the \$17.99, they would no longer be shipped any product."

Nathaniel Bronner: So, were going to be really strict about it, what God's says we're going to follow. Now the lotion is, honestly, the most phenomenal lotion I've ever run across. When He spoke the changes, and I made up the changes in the lab and used it, I say, "Whoa! This is just way better." And some of the stuff to be honest, I didn't even understand. There's only one thing that people don't like about the lotion, some people and is it on like the way it smelled. Half the people love it, half the folks don't.

The smell that's in the lotion is, actually from pure frankincense or there's no additional fragrance in it. And for those of you who've ever smelled pure frankincense, frankincense as you know, it's one of the materials that the wise men brought to Jesus. They brought Him gold, frankincense, and myrrh. And both frankincense and myrrh in the product, but its frankincense is in it, in a large quantity, that's what you smell.

Frankincense is, actually a tree resin. So, that's why it smells like, the deep woods. And some people love it, especially those who are nature-oriented. But other folks, they don't like the smell of trees. So, you got half who love the fragrance, half who don't. But the good thing about in this, when you rub it on, the fragrance is gone in about five minutes. So, it would not clash with any perfumes or colognes, but the effect of it lasts all day. So, miracle lotion, it will be for sale and it's going to be \$18.00 a bottle, but what we will do on your first bottle, we will give you a t-shirt. So, you can get a t-shirt with it, and the t-shirt simply says, "You deserve a miracle."

And I believe that, if sometime when I wear this shirt, I deserve a miracle. I don't know about you, but I feel like, "I deserve a miracle." So, the shirt will go with you for the first bottle that you

buy at \$18.00, and I had some of the product from the lab because I made up a lab batch.

Nathaniel Bronner: And we've been using back in the makeup room. So, one of the makeup artists is, Aphrodite. So, when she put the lotion on, she said, "Pastor." She said, "Can I take a little bottle of this with me?" I said, "Sure." She came back the next Sunday, and she begin talking about it. I'm going to ask Aphrodite to just come up and just tell you because you can tell you better in our own words and I can tell you, "She actually was one of the first people to know." There may have been some people at the office who hit the church, "Come on out, Aphrodite." But she was one of the first people here at the church to actually use the lotion. And I just want her to just tell you in her own words and with her own pictures exactly, come on up on the pulpit.

Aphrodite: I'm (00:06:16), see I'm forgiven. So, let me tell you about this product. I've been using it (00:06:20). So, every time I go to church, I'm not liable, I pass on this model lotions. This is what a lotion, this is what lotion. I've used no other lotion no more, period. I deal with dry skin and (00:06:32) dry skin. Sometimes, I have rash for me sweating so much. And when I had these rashes, I usually use an antibiotic cream in order for the rash to go away, we might say, by two three days, body rashes go away. If you would put the first itch up on the rash, that's the first pitch on my rash. I can't draw on that. And neither the rest of you don't feel too good. But 24 hours later, 24 hours later, 24 hours later, it's not, nothing else I've use, I threw all my antibiotics creams away. I don't even play with them no more.

I'll go straight to my lotion, pass it an hour, use this lotion all the time, all the time. To the fact that my daughter deals eczema and some stuff, to the fact, I just told her, "We need to buy them." We did try almost everything in the market, no lie." We tried a whole lot of stuff even with the dermatologist they gave her, this is not really truly helping. I cannot use everything. My skin is very sensitive, my skin breaks out when I do crazy stuff, eat foolish things and just do whatever. Wait, I'm telling you, I cannot use no perfume anything.

The frankincense and myrrh do not bother my skin, it doesn't put any marks on my skin, it does nothing of the sort. This is like, the best freaking lotion that I have ever used. It's the best. And I'm telling you all, it's the best \$18.00 you'll ever spent in your life.

I'm not kidding you all, because I just been a model, I use FS Body Lotion all the time. To the point I'm like, "Where has your lotion come, where your lotion came?" I'm saying, "It's the best lotion ever." And those patches that just like, mere patches of like, bed rash, I'm even, sending it to all the people, because I can't even believe it. You know what I'm saying. Like, I just couldn't believe what is so true, is stay on you all day. I don't have to keep going back and back and back and I just do out of heavy, but it's not that you have to do it. Others got them cracked feet, they let your feet dry, takes the lotion.

Nathaniel Bronner: Amen, and when I just asked her this morning, I said "Aphrodite, would you mind just telling the church about this." Because she even talked about her daughter with the eggs about when how she put it on and nothing else had been working. So, I cannot take the credit for this. In some of the stuff, I don't even understand.

Miracle lotion has no added preservatives in it and the reason it has no preservatives, and I was working on trying find a preservative that was more natural that the health food stores would not reject. And I just heard God speak, "Send it off for a microbial challenge without any preservatives." And I said, "What you can't take stuff with water in it and active ingredients and botanicals, and send it and put no preservative in it. He said, "Send it to have a microbial challenge with no preservative."

Now, a microbial challenge is, when you send a product to a lab and virtually all cosmetics will go through this. You send it to a lab; they would dump germs in it to see if it kills the germs. And it's going to do one of three things: the germs will even grow, and they generally will dump yeast, mold, and bacteria and fungi in it. It will either grow, it will stay the same, or the level will go down. And they will test it, at day zero, when they first dump it in, they test it at day 14, and they test it at day 28. At day 14, Miracle lotion had killed every yeast, every fungus, and every bacteria and every mold, there was zero left in the product. And it came back from the lab, whatever preserve that you got in here, is totally effective. Ain't no preservative in there. It's just what God spoke, but God knows what preserves and he knows what destroys. So, it is truly a miraculous product and if you use it, and what we're saying, it has on the bottle, the best doggone lotion you've ever used. I didn't put freakin' on that, but it adds on the bottle, the best doggone lotion you've ever used or your money

back plus \$5.00. And that's a guarantee that we actually will honor. Anybody who sends it back, we'll send them all of their money back, all of the postage, plus an additional \$5.00. There has not been a single lotion, any of us has found that works as well as the newly reformulated Miracle lotion.

Nathaniel Bronner: So, for those of you, if you got any dry skin, and cracking skin, you know somebody with rash or eczema. And We don't publicly say that because those were actually kind of disease claims and you can't legally do that without a whole lot of clinical studies behind it. And the folks that have tried, just tried it, you see anybody with a messed-up skin, use them, just try it, and see if it works. And if didn't work, they give you all your money back, plus \$5.00. So, there's nothing to lose, but this is something that the church actually owns the trademark to God Heals oil. So, this is something that could literally transform the church, take us to an entirely different level while helping and healing people all around the world.

And see the thing about frankincense, I want you to just Google the benefits of frankincense. One of the things about frankincense and this is perhaps why the Wisemen knew to bring it to Jesus, the smell of frankincense removes stress and anxiety. So, just putting the lotion on just makes you feel better. See, if there's something about when you -- now, some people don't like the smell of the woods, but when you walk in the woods, there's something about it, you leave your cares and anxieties behind. So, when you smell that, smell the woodsy type, it somehow takes you deep into the forest. And it takes you away from all those rapid, digital stuff, and calms your mind.

So, there is a power and when you study the benefits of frankincense virtually, every one of those benefits has been clinically, and scientifically documented. So, it really does do a lot scientifically to just heal you, to help, to take your spirit and your skin. Because to be honest about it, even though we're in church to help our spirits, sometime we care a whole lot more by how we look on outside, than what's going on the inside. And we just want to look good on the outside.

God even did tell me a few days ago, you put that lotion on you every day from head to toe, in every inch of your skin. So, I put it on my hair, I closed my eyes, I put them on my eyelids. I go all

the way down from my hair to literally the bottom of my feet. So, I am covered right now, because I deserve a miracle.
