Nathaniel:

And my message today stands from something to God spoken to me but that change out of an experience that he set to share because it will hopefully open and change the mentality. I want to ask my wife to come up because it really began with something that she experienced. So, I have to hop up the step so you can understand why. Right now, we're on television. Many of you have heard when we talked about Puddin but a lot of folk have never even seen my wife. It's just Puddin. As you can see, Puddin is a little pregnant. Now she's not much pregnant just a little pregnant. And sometimes there's no such a thing as being just a little for you even pregnant or you're not.

Sometimes it's like that way in the spirit. There's no such thing is with you a little see. You can't get a little beat in the hip. You either going to heaven or you're going to hell. Some things are just couldn't right you know a little bit, you know half way here and there. You even eat or you're not just as simple as that. And it came out of a revelation that Puddin had dealing with pregnancy -- just have some sit I don't want you to stand up straight. I like you too. I just like to do (00:01:25) to do any kind of heavy work and I said, don't said that in front of the people Puddin. But it came from an experienced that Puddin had. And you see as she was getting more and more pregnant. Puddin will constantly really be complaining about the size of her stomach and the child that was growing in and then she was "Oh, my goodness. I got to carry this big stomach around and kicking and moving and it's hurting and it's just hard. I just put all on my leg and I can't see it I was just all and just the stomach and I came fitting in my clothes and I got to lose weight in the stomach.

Until one day, Puddin was over a young lady's house and the two of them will dance and she had her shirt off because sometimes she would just pull her shirt and get that little stomach get some air. Some of these things I can't understand but some of these stuffs man just can't understand. You see you haven't pregnant, you can't understand why you need to let your stomach get some air. So, I couldn't even understand this stuff. So, Puddin was over to young lady's house and she just had her shirt off with just stomach. Oh I'm just letting her stomach getting some air. And the young lady saw Puddin sitting there with her stomach exposed and she looked at her and she said, "Wow!" She said "Wow!" She said, "Look at that." And Puddin said, "What?" She said look at your stomach. And Puddin said,

“What?” She said, “It’s so pretty!” She said you don’t have a stretchmark on your stomach. It’s just as smooth. It’s that your skin is just as even toned. She said, “When I have my baby I had stretchmarks all over and they’re like somebody took a cup of bottled milk and pour on it.” She said, “I just had a stretchmark. I just had a big dog land going on. Your stomach is just perfect and when Puddin got home that day, Puddin changed mind and she said “No.” They said it just about my stomach and I had never saw that in that way. All I was thinking about was this big stomach that I had to endure and had to waddle with. I never even thought about the fact that I don’t have any stretchmarks on stomach.

I’ve never thought about so many of these things until it was pointed out and when someone else was seeing my stomach and the thing that I was complaining about they were talking about how beautiful it is. And I speak to you today from the subject of what Puddin concluded from that experienced of simply is relative. Is relative. You see all of the things in the material world. Everything that we see, touch, feels, smell, hear, all of that stuff is relative.

00:05:00

And even your situation if relative to someone’s else is situation. The way that you’ll think about and you think about that way because you compare it with someone else. In oftentimes, we don’t understand that things we have until someone else has to point it out to us and when they point it out to us then we can see the beauty of it but sometimes when our old self we don’t understand it because we look at certain point and not to see the beauty of what we have and Puddin changed the whole beauty and after that and after she experienced that she no longer had her shirt up with her stomach (00:05:44). She acts to see a whole difference in her expression around the house with her stomach. No longer was the thing off blowing out and sitting there, it was beautiful.

Now, it had no stretchmark only. It had no lines in. it was a perfectly shaped beautiful belly. And I told Puddin, I said Puddin have always me kissing on your stomach all along. Yep, it was prettier than me all along. Puddin said but you didn’t have to care or anything. It’s relative and you see when God created the world he introduced into the material plain

relativity. Beginning with just the first verse in the bible, “in the beginning, God created the heaven and the Earth and the Earth was without form and void and darkness was upon the face of the deep and the spirit of God moved upon the faith of the water then God said, let there be light and there was light and God saw the light that it was good and God divided the light from the darkness and God called the light day and the dark he called night and the evening in the morning were the first day.” Everything that God created was comparative. In the beginning it was nothing so he created the heaven and the earth but when he made it it was all about form and it was void. So, he took it without form and he took it from without form to form.

You see the only way that you can have from is to have some without form. Everything in the material world exist because it has its comparative opposite. You can't have some around unless you have something that is not around. You cannot have darkness unless you have light. The very definition of one is defined by the other. So, God introduced you see when he was just God and there was no relativity. There was no comparative. When he made things in the material place, he made stuff relative. And the darkness he called night and the light he called day. You can't have day without night. You cannot know true joy until you've known sadness. There is no comparison. You can't really know real joy I mean real joy. You can't know what is like to be up until you've been down. I mean not the real full understanding of the thing. You can't have one without the other. It's relative. And when God created the earth he introduced relative things because all things in the material relative and God solve it, it was good.

You can't have good without bad. You understand, you've got to have bad in order to have good. If you have no bad nothing would be good. You must have one in order – you can't have all the good. You cannot because the very definition of the word good is defined by man. You can't have beauty. You can. The very definition of beauty, you cannot have one without the other.

00:10:00

So, when God created the Earth he introduced into the material place relative things. And everything in this whole world, it is relative and we need to understand it. We need to see that it is all defined by another, we see everything is relative with God.

God stands alone without comparative. There is a portion in Isaiah which he talks about this. It's over and Isaiah the 40th chapter beginning at the 12th verse I'm going to read the NIV version of this, "but everything has a comparison. Everything is defined by its opposite. You see you got God and even though you have the devil, God was there before the devil was ever created. And he made it there so there are existed God before anything was. There was nothing to compare him with and Isaiah said this "Who has measured the water in the hollow of his hand or with the breadth of his hand marked off the heavens. Who has held the dust of the earth in a basket or weighed the mountains on the scales and the hills in a balance?" Who has understood the mind of the Lord or instructed him as his counselor? Whom did the Lord consult to enlighten him? And who taught him the right way? Who was it that taught him knowledge or showed him the path of understanding? Surely the nations are like are drop in a bucket; they are regarded as dust on the scales; he weighs the island as though they were fine dust. Lebanon is not sufficient for altar fires, nor its animals enough for burnt offerings. Before him all of the nations are as nothing; they are regarded by him as worthless and less than nothing. To whom, then, will you compare God? God is the only thing to which there is nothing relative to really compare with but everything that he created in the material world is relative. And when you understand that, and you begin to see that, it will oftentimes begin to change the way that you even think about things and the way that you appreciate things.

We sang the song before the message of simply thank you Lord and for the past few weeks there has been a great spirit of saint that has just come over me. And of course, I couldn't even understand. I was waking up in the morning. I was just saying, "Thank you Jesus, thank you." Sometime in life he would just hit me like a spirit just thank you Jesus. I mean in the middle of the day sitting on my desk think and after this thing went on for few weeks I had to stop. I said why in the way -- it will just come over me almost like this just the spirit just coiling over me, I said, why in the world am I -- what that just happened I'm just so thankful I said "What is this thing?" The more you move into God the firm that you'll move away from the relative things of this world. The firm that you'll move away from comparison and you'll start to see the absolute. There is a difference between the relative and the absolute.

Let me give you an example just in scientific terms. Right now, outside is perhaps, I don't know 55 to 60 degrees. If it was 32 degrees people would say that's cold and freezing. Yet, in scientific terms relatively that's not cold. So, what are you talking about Pastor 32 degree is freezing, the ice is freezing solid at 32 degrees. What do you mean "That's not cold? You see, there is scientifically a point at which there is no heat in a flame that point, technically is called absolute zero. You see there comes a point when you get so cold that you just can't any colder. All of the heat and some of you might think sometimes you'll gotten that cold now you haven't. But there comes a point when you can get that so cold all of the heat is going and you cannot get any colder. and that point, in a point of Physics is called absolute zero. Absolute zero it's 459 degrees below zero. That's absolute zero. You cannot get the 460 degrees below zero. Absolute zero is 459 degrees below zero.

00:15:00

So, if you cook in an oven and the directions tell you to preheat the oven to 425 degrees and do you know if you put your hand on a 425 degrees oven you'll burn it up really quick. At 32 degrees you have to add 427 degrees of heat to take you up to freeze. When you start seeing things in truth freezing and cold. It has 427 degrees of heat Puddin. You just a little chilly but you understand the things when you understand absolute truth and so it is with the things of this Earth.

Rich and poor those are relative. I never will forget one when I went to the Amazon and I stayed there for a week on a river and we went back to a little village and through the town and all of the people were talking about at the end of this tour we're going to the rich man house. We're going to see the rich man house. We're going to the rich man mansion and you see back in Amazon they gave a new definition to material poorness. The kids were fascinated over my ATM. To them this was more fascinating than all of our modern highspeed computers or the (00:16:29). They will absolutely amaze and fascinated. They had nothing material and yet they kept saying we're going to the rich man's house. When we got to the rich man's house at the end of the day. His house that over the river on stilt. It was a hut but what he had, he had a generator.

You see in the Amazon, there weren't any power. So, when night came everyone was in the dark but the rich man. The rich man had a little haunted generator that he put the crank on and started up. He had light when everyone else was in the dark and all of the people around in the Amazon from they were in the dark this man had light and just now the fact that he had light in his hut. He had the (00:17:38) to be able to buy a generator. Everyone knew this man as filthy rich.

See the things that you wouldn't even -- you weren't think about going home flicking on your light switch. You've got light, you've got TV not only that you have TV not as (00:18:00) got cable TV. You got light, cabled TV, microwave. You're busy but you got all these stuffs. Anyone of which would have made you the rich man in the Amazon. You got all these stuffs I mean you can go to the deepest Ghetto in the City of Atlantis. You can go to the deepest Ghetto. They got light. They got a TV and they have VCR. And I'm right you goes out of your way. When you go to lights then it may be about to be cut off but they got light, they got a television, used it with cable and the VCR. It's all relative and using not only to the (00:18:50) nine out of ten times they are little bit over a week. With me got plenty to eat.

So, for the things that we look at sometimes and we look at and we think our situation is so bad. All that stuff is relative and it is relative because we are comparing. We are comparing that which we don't have with what someone else you see. You see we never and I guess the spirit of faithfulness was just hitting on me so strong and James asked me this morning. He said, have you been feeling a stronger spirit of God around? It is some just been happening lately. At that time, I couldn't think about it but then as I began to think about the spirit of faith and it has been you know the more God gets on you the less to suffer around you matters. There's a more of a spirit of God starts infusing in you the more faithful you and it's a lot of folk have more stuff than I do. But then want to point when God start infusing into your spirit, you'll start being faithful for that which he is giving you when the devil start infusing into your spirit.

00:20:03

You'll start being discontent over the stuff you got and then you have loss and greed for the stuff that other folk had. The two opposite spirit but it's all relative and then first of all just to be

able to open up and to be able to see. That's what you do have and it's a way of viewing that God has given all of us in this room for we could go to the majority of the countries in the world and we would be considered rich. So, its relative. You can go to Mexico, you can go out in Guatemala, you can go out to Central America, you can go to most countries in Africa, you can go through 80% of the world and the vast majority of you in here right now, would be considered rich. I don't care what you may think you have. So, sort of the thing about it, if you would be considered rich in the Amazon, if you would be considered rich over in portions of Central and South America, if you would be considered rich there, if the people would look at you within the wishing they could have, just what you have. If the folk over there could view you like that, then that means they must be able to see something that you can't see.

So, what is this that they can't see, that you can see? What is it that you say, "Lord, I'm just such a bad, bad sheep." And in the heaven, you're not. You got most stuff, either when we went on the 40 days in Moscow, with the 40 days that they could have some cover, got too much stuff. This is what we got too much, most of you right now, you don't have enough quality space, you got stuff -- you just got most stuff, and yet, we look at sometimes our situation and the demonic have focus and all of that, if we don't get that you know, "I got no husband and got no wife." Paul, he had no wife. I got news for you, Jesus didn't have a wife, I had a man writing a prayer request on MountainWings and he said, "Please pray for me to find my Eve, I'm all alone." I wrote him back, I said, Adam, would had still been in paradise to see her and then had Eve. I said, that thing is relative. Be careful what you ask for, and I tell him, "Look, if you're not happy right now, you're not going to be happy with Eve, because Eve is not going to make you happy, because I got news for you, Eve, look it for (00:22:52).

So, you're looking for someone to make you happy, she's looking for somebody make her happy. Both of you will get together. Eve just have to wait and then make you up when happy, you all stand up and looking in each other, wait for the other well then it makes you happy then it won't love. But sometimes, if you -- and I've had counsel with so many single people like that, not understanding that the situation that you're in, it is not that horrible. Man, how to be happy with who you are -- when I was single I will not let put that on me. (00:23:30), you know, you

said to me that you are married. I divorced either. I have met but I divorced. I'm just as happy as I can be, and I'm not going to putting all stuff on me, telling me, I'm so (00:23:43) because that ain't stuff, because it has the folk out and that marriage is not happy.

So, it doesn't have anything to do with that. It's relative, and we got to learn how to understand and learn to see the bad you of all of the things that God has granted us with. I don't care what situation you have to people that – first of all, I'm a man that believe in your progressive. I'm not a man who preach you, you know you have dizzy(ph) phobias remain that way just, no, I wouldn't need that at all. But I do know this, if you don't learn to be content where you are, you'll never be content where you think you're going. Because it's irrelative. You get to a point and that hurt so many people that if you don't understand if I could just this, if I could just that. If I could just get this job, if I could just get a man, if I could just get a rapist, if I could just get some have. You got all kind of things that people see, and they think that this thing will solve all our problems. Not understanding that even when they get to the thing, it's still relative when they get that. You get a big house, but all the stuff, all this room is exciting at first that wants you been in the three or four months, same thing, same thing. And the same spirit that was in the little house, is named the big house, because now you've move to a different neighborhood, but you got different neighbors.

So now, when you go over to visit their house, there's got some Chip and Dale furniture, and who said that there was a blue light sessions. So, now, you got the big house but your neighbor that was Chip and Dale, so not a thing that relative thing that had you upset in the little house, now had you upset in the big house, because it never answer but I don't care what love were you asked to. There's a people called, there's a lot it that we compare not yourself with other, for that will always be those greater and lesser than yourself, but if you compare yourself with other, it will make you vain and bitter. Because if you compare yourself with other, you won't always have more and somebody has and that will make you vain. Look what I've got, look who I am, look what I'm driving, that will make you vain. But then, it would always be those who got more and you do and that will make you bitter. Look what they got, look what they driving, there will always be those higher and lower than

yourself because life is relative, and you can never get to the point where you got it all. You can get to the point where you're the richest man on America, and it's still can be when somebody got some other that are better than you do. Because some stuff most of money came back.

So, no matter where you go, you got to learn people it's relative and you've got to learn to understand the absolute joy, that's my policy in whatever situation I find myself even on the persecutions, I've been prosperous, I've been in wealth, I've been in health, I've been in sickness, I've been what people have adopt me, I've been what people have to start in, and whatever situation I find myself, I have to be content, because it was not -- his happiness was not based on relative stuff. And I will never really try to be happy, I tried to be joyous, because there's a different, because happiness really the root word of happiness is happy, and sometimes you know some folk are only happy if the right thing is happy, the wrong thing go in the happiness, and then the happiness goes out of the wind.

Let me see, let me guarantee you some, the wrong thing is going to happen, you going to have worst in your life what my uncle called and he sometimes spoke in English situations(ph) You don't understand? You going to ask and (00:28:20) Jason(ph). And when they see Jason here, (00:28:21) Jason gives you some sick, he can steal all of your joy, whenever your base on relative stuff, it's relative. And if you can view through the eyes of God, his creation and that which he has granted you. You start finding that -- and that's why start waking up and that's why I go to sleep every time I've eat, every time I sit in best it's the spirit of thing that I just couldn't stop just saying, "Thank you, Jesus. Thank you, Jesus." And I think what's the most important in that view is if you knew to say that. No, it's not, not it's not, it's not easy for me to say that in anyone else. That thing of a spirit it is not a condition. It's the spirit, I've got things I have to deal with, I have just as much stuff as most people to different thing, I've speak different, I speak different. I believe different and my mother will tell you, I just start and that just I thought that's are our thought, I'm always been like that.

Sometimes, even my mother would said, some of my romantic situation, my mother will say, "Boy, you've been so sad." I said "No!" (00:29:34) I said "No, I always was felt like that, there's no

answers to nothing.” Now, let me tell you so, I would just been that the mess knocked out of me, I would tell my mother I have been through anything. Let me ask you, it’s been (00:29:55) mother? I have always see it there, no matter what the situation because even then,

00:30:00

before I have the word fully residing in me, I understood the absolute, and I could see something then even though I may have gone to a citation. Even though I may have had some trauma, I had to look at this thing after, “I’m still in good one piece. I still got my (00:30:22). I still got my right mind. I made it through the thing didn’t it? It’s like they say about with all of the cherish stuff that given all us advise about them, then they got the advice about the new killer bomb and one man, he said, “Look, if you can say what’s that, you’re in good shape. I see the way obvious, if I could just in my right mind, even look back on the situation I was in good shape, God had brought me through the thing, and he brought me through the thing with more wisdom so I start the beauty of it, but it’s all relative, some folk that go through some stuff and it just make them all bitter, it make a mess, I mean they have one man, have one woman do them wrong and he look at every way. All these women just ain’t no good. One woman had one man do them all. Me, I just don’t -- and because of one experience it hardens their whole view for the rest of their lives. But we got to get over some things, all these stuffs irrelative, it’s relative and we don’t understand that even though it may be 32 degrees, God has given us 427 degrees heat. And because the world will not tell you about the 427 degrees of heat, it only tells you about the 32 degrees and fact that it rains. But we will never tell you that above absolutely rope, you’ve got 427 degrees of heat, the world won’t tell you that. You have to have a spiritual revelation to understand something even when some things that prison in your life is not all that bad that’s why Apostle said heavenly food and rain. And the country of America, that’s why people view us so rich that was the two things that were not missing. We’ve got more food and we know what do with and we have more clothes, we know what to do with. We got abundance of the things that policies and Jesus is having these things barely content. The rest of the stuff is relative. Most of the stuff that we try to get, we do because we are in competition psychologically with somebody else. We don’t want a new car just to call it’s a new

car. Right, so good, we don't want to call folk and see who sign in. He got to do about the thing, you know clothes -- to be honest about it, the most expensive suit I have cost \$24,000. I got about three of those suits. There, I rarely wear them because to be honest about it, they don't really wear that good. My jeans in all honesty way a better than my most expensive suits. I'm more comfortable with them, they are more adorable you can do more with them but the thing about it, the expensive stuff, if folk knew the label, it makes you look better, but in reality, not really and I've always try to deal with absolute food not irrelative stuff. So, many of us have got hold up irrelative stuff, and that's why I begin with the story of my life, because it change to a view point of our situation, and the barely that she was looking at it, be in full bad, so horrible, so distended. Once you got another view with the same, what type she can, she can -- oh I mean she can, (00:33:59) I've done it just a smooth, it change the whole mentality. Now understand this, nothing about her barely changed. That is the same, not one -- in smoother way she got that then it was when she went over there, because barely was the same. Nothing changed. You see, what many of us are trying to do. See, we're trying to change that barely, instead of getting a new vision of a thing.

Sometimes when we try to change the barely, it kills what God is trying to birth us. Because there are some things in our lives we cannot get what I could barely, there are some situation in my life, I couldn't get wisdom without knowing those citation. You can't get wisdom and you got -- you don't have citation, you just can't get it. I'm sorry, you just cannot get win without situations, you got to go do some stuff. You got to have them barely. So, I viewed even my barely situation, all those things as a moment all things that train and all things about wisdom it's the same way in business. Most of my business didn't came from failures not for my successes. I'm doing a hundred time, most on a plop and I do it from the success, because in success it will put you up, blow you up, think all these kind of stuff, if you have a failure, you have to look in the stuff to -- I learned much more. So, they are from things that as we begin to understand some even right now you're walking around with barely that your cursing, and within this barely your salvation. God has put to see that God has -- you all have to read the story in the process and you know what they went through, everyone with the man of God. Everyone with their life are detailed, everyone of them went through hell. And only one that didn't go through

it, it just not much in (00:36:09) the owner. So, whenever you got some way there's a whole lot in that written about them, every single one of them went through a whole life. It's not circumstances, all circumstances are relative and even your worst circumstance. If you have the divine wisdom to see the absolute food, you'll see that you're still which and sometimes you don't realize that until you start losing something. Every one of you right now I have not heard a single cult in this church, since church day. That mean all of you breath and fan of (00:36:12) I had visited folk in the hospital that couldn't breathe. You don't understand what it's like, and not to be able to take your breath, you got to have two breadthening machine, popping you up and down, and you got ooh, ooh, you don't understand what it's like to be able to sit in and breathe freely, and in that situation you would say, "Lord, if you would just let me breath freely, what kind of calls is that? And what (00:37:18)." Lord, if you just let me breath freely, what I'm wearing for something or leave out would matter? You see when you thought absolute (00:37:30) because relative stuff of thing.

Every one of you breathe and just as clean and clear. But sometimes we let all of this relative stuff, make the gift that God has given us has appear ugly or it did not, that irrelative people and relative. All of the stuff, in the material plan, it's relative. I never will forget when I moved into my office where I am now, I had -- I purchase then I had to decorate to put a mirror up on my wall, it's a big mirror that cover the entire wall, and when I came into the office, first of all, the first thing that happened, several of the people in the building, they're going into my office because they will working on it building it, putting in the carpet and all that stuff, and the mirror was there, and they call me up, and they said, "Mr. Bronner, across your wall in your office was a rainbow." I said, what do you mean, what you know it. They said, it was a rainbow landed across the wall on the mirror in your office. So, when I got back to the office I went, I went and look at the window, I look at the angle, it's fine, I said, "How in the world did a rainbow come across the wall in my office? I didn't see it, but two of the people did? The rainbow has never re-appeared and I've been in that office five years, the rainbow has never come back, but when they decorate and put the mirror left, it's in sections and some of the air just on the section didn't line up, she had missed put it up straight and when I pointed it out towards the wall, I see it and she looks, she's obviously taken all down, I go buy another one. I put it all back up and I

put it up straight, and later that day, God spoke to me. He said, “don’t touch that mirror.” He said for two reasons, first of all, I have spent the rainbow a promise across it blessed, he said, “Second is this.” He said “Nothing in the material plan is perfect.” Nothing. Nothing in the material plan is perfect, everything material, as even got some flows I’ll go and get some, nothing in the material plan is perfect.

00:40:00

And God wanted me to see and he wanted to me to understand it’s the blessing that was important not the perfection of the materials. And people when we can see the blessings, see sometimes we -- it’s not even that with cursed, we just don’t see the blessings and when you don’t see you blessing, that is a curse. Because all of the demon has to do is blind you to the blessing and then you view the thing as a curse because you all know know good in the way and you can have two things and one person has this great appreciation for it, and the other one has the same for it’s not in the thing. It’s been how we view it, all that is drop in the material. Some of you married right now. And the person that you marry to, some of you got some problems with the person, yet somebody else is looking at that person. And saying, “Wooh, they’re so lucky. Oh my goodness, if I (00:41:04).” No, it’s much if I just had the man that she got. If I just had a wife, he got lot of mess.

It’s in the view and all of us have the imperfections, just like that mirror in that wall, none of us free. All of us have the imperfection, but yet, we’re blessed people and the devil wants to blind you to your blessings and he will do this by all – you don’t understand it, I am a man like I said that believe in progress. I don’t think you all to be next to you where you are right now. You had a constant to be moving up in spirit and in the world, you are the progress, but no matter where you are, you got to be to see your blessing right around you and want it be to understand it, and all the stuff and then the only thing that is absolutely God, there is no comparison, there is not, everything else, people have birth we have to have. And whenever God place (00:42:23). It will number one stretch you out of wet. Whenever God places something in you, for something for you to do and for a destiny, it’s the number one, it will stretch you to an uncomfortable position, it’s the nature of what God always do. He then that, you were (00:42:43) some and it get so easy. You’ll be annoyed if you do it, but it will

stretch you out of that. Delivering the thing, is a painful process, whenever God burst something in you, I don't care whether it is a ministry, I don't care whether it is a mission, I don't care whether it is even something within your family that God who's directed you to bring in and bring change, whenever the thing come, it's pain for the burst that thing. Always see it, don't focus on the thing, God even told me, he said, he said, I'm going to send you to a Joe experience as no Lord. I said, "I spoke that in the pulpit when I was talking about Joe." I said, "Lord, do not look down and said you see the Nathaniel there? You see myself in that, don't you take no and have it around me, don't you send me to any of these. I don't want any that kind of stuff, but God said, "Son I got to send you through some things so you can even be related to the folk on something, because sometimes you can't even properly teach unless you had gone through a little bit of stuff. Sometimes, God is even preparing you for greater mission, I don't want that, I'll be honest with you right now. You know what God told me? He said, "Don't focus on the experience, focus on the reward of what Joe got." Joe went through some stuff and he didn't go through it but nine months after the nine months he got twice as much stuff as he had before and then he got a hundred and forty years which was too normalized me as to enjoy this stuff, if you got pregnant and ignore to, don't focus on the pregnancy. Even if you do have stretchmarks, so what?

Even if you do, so what? Don't focus on the negative, look at the blessings, because it's all ready and do you know how many prayer request I get in on MountainWings, dealing with people that are trying to have children? That is the praying that have gone through all kind of fertility clinic, taken all kind of fertility book --

00:45:02

-- trying to get, who see that God is blessed us, it's all relative, and when we understand absolute food, tells that we get to God the more we will understand absolute food, then the more real start seeing our blessings and behalf in this people it's not about getting stuff that you want, is what you've got, that's the key to happiness, it's not getting what you want but it's wanting what you got, because even after you get what you want is still some (00:45:40). It never ends. And we got to learn how to be content, how to see the blessing, and there's another spiritual

principle that goes with that, happiness grows more happiness. Misery draws more miserably. It's the same as in the material world, money draws (00:46:01). The easiest way to get money is to have money. Thanking the spirit, the easiest way to get happiness, same thing just into romantic world.

The easiest way for you to get somebody is to have somebody. I don't know why I work (00:46:15) you like somebody then get nobody, it's not the way like that, it was always that way one even one --. If you got somebody, it's a hundred times easier to get somebody else, when you can't get anybody. Well, all things work that way. Happiness works that way too, and it begins would you be able to see the blessings where you are. For those of you that are married, look over your spouse right now. Just look at your spouse. I mean just look at Puddin. I mean just look at your spouse, I mean, I mean, did you know she is a blessing to me? I mean, this woman is a blessing, this child is a blessing, do you understand that? She is a blessing to me. Is Puddin perfect and then I told Puddin on a date, I said, "Puddin." I said, "You are the prettiest woman in the world." But I would trust you than I did. I said, "Tell him what you want say. Go ahead and tell him."

Puddin: You tell them.

Nathaniel: I said, Puddin, you're the prettiest woman in the world. I said, Puddin, maybe you're not the prettiest woman in the world but I'm sure you're the prettiest woman in Georgia. This boy is a (00:47:39). The most beauty is what? It validates and it is in the eye of the beholder. So, we got to start learning to appreciate that quick we have. That is God has blessed us with, not wishing for something we don't have. And some of us, and so many of us we've got good stuffs, good situation, good job, good homes, good children, good stuff, good relatives. We got good stuff but the enemy has clattered our eyes and made us think it was quiet when is not. It's relative people and you have got to be able to see, absolute true.

Bow your head. Dear Heavenly Father, we thank you this day for this word, and we hope that after this word, that the people will be able to see that you have already blessed them with, and that would move out of this mode of God give me this and God give me that, and God make me this and raise me up for this, and Lord bring this to me, and remove to the lone of where we

simply says, thank you Jesus for all you've already done, for all you've already brought me through, for you carrying me through, you protected me, you see me through this, you see me through that. Lord, I'm breathing. I thank you for just having sent I'm not to be able to thank you, I got a thousand times, a thousand things to thank you for. Help us to be able to see the absolute and not the worst relative, but the absolute food. And the absolute food is that you are Lord and those that abide in you, abide unto the shadow with the almighty, enjoy and peace and fulfilment and all that they do, stay in touch. Help us to be able to see absolute. Help us to be able to feel the warmth that you granted the 427 degrees of warmth that you given us, not the 32 that may have us today. Let us see your (00:50:17) father, let us see your (00:50:19). And thy son Jesus' name, we pray, Amen.

00:50:25
