Nathaniel Bronner: And I ask you a question, first of all if my mother is American and if my father is American and if I don't renounce my citizenship, what does that make me? An American. And if my mother was white and if my father was white, for what would that make me? If my mother was black and if my father was black then what would that make me? What I am trying to show you is this, plain as I can so everyday example that is a characteristic of blood and position that carries down from parent to child and as a child unless he renounces or does something to change as a child but a parent is by simple virtue of birth. If my parent is God, then what does that make me? God told me to tell the people a simple thing upon this day.

As even since the revival, he has been leading us through one thing after another and he told me simply he said, "Tell me who they are." God knows that some of you may have forgotten or sometimes through all of the trials and tribulations and the stuff that you go through in the world. Sometimes, even when you look around and you see things that are missing, things that in different ways. Things that are not the way they should be. God knows that sometimes we have a tendency to forget who we are and if you can ever get a man away from the real knowledge of he is, you can always lead that man in any direction if you want to take him. That's why even when black people was brought into this country.

One of the things that the power struck your head to do, they had to make them forget and not know who they really were. Simply because if you understood that you were king and if you understood that you're queen and princess and prince there so you were in take certain stuff. But if you believe that you only came from the dust and dirt in part of Africa swinging to trees and that all you knew had to do is one bone through your nose and beat on drums and there's all that you thought you were, you would take them anything. So, the first thing that even as African-American were brought over on the ship. The first thing that had to be done they had to be strip off the knowledge of who they were.

And if you can take the knowledge of who you are or where your real destiny of who your parents were. If you can take that knowledge away from a person, you can give him a new background. You can give him a new destiny. You see, those the Bible and Jesus says, "You must be reborn so does the

world.” And the world will take away your natural birth right and give you a new mama and a new daddy and it will make you believe that you are something that you would never missed to be. There was something in this earth that God never intended for his children to be in the doom(ph) but we’ve been and we’re doing it because we don’t even know who we are and if we can get that knowledge and skill back into us of who we are, it will change what we are and it will change what we do.

John Chapter 1 Verse 11, he came unto his own and his own received him not. You don’t have to turn because you’ve burdened but as many has received him, to them gave him power to become the son of God. Even to them that believe on his name which were born not a blood nor the will of flesh nor of the will of man but of God. Romans 8:14 For as many as are led by the Spirit of God, they are the sons of God. It makes them different when you know who you are. It makes a difference when you know who your real daddy is. There are so many people in the earth, first of all, all of us had flawed earthly father, all of us did.

00:05:00

I had one of the greatest daddies in the world and there is -- I don’t know any greater father but my father has some has some flaws. That there was point of which I have struggles and not to repeat some of the things that he did he was the best that I have never seen. But yet, even in the midst of all of that greatness and everybody, everyone in the flesh in the Bible when you really know the story, everyone of them had flaws, the greatest of the kings, David and Solomon may have flaws. They have some things that even when their sons look at them, their sons have to say, “I want to do what daddy did and (00:05:40) because daddy got messed up doing that.”

Every single one of us and I had an awesome father, unusual and different in most. There are so many that had even no father or no good dad so many -- and it doesn’t matter what your color is, it doesn’t matter what your economic status is. It’s hard to found a good daddy these days and it is impossible to find the perfect daddy and even as we look upon our fleshly pounds. For so many that sometimes to see we base who we are based on who our daddy was in the earth or who our mama was in the earth and sometimes we look at them and will say, “My daddy

wants me (00:06:29).” My daddy went to jail. My daddy left my mom. My dad had never provided -- my daddy is just one anything it’s because my daddy was nothing.

And I look back and he’s dead and who are none. So, if my dad, he was nothing and his dad, he was nothing, automatically denying them. It’s the parent that the world has given you but that’s why God wanted me to tell you today who you are so that you understand something and I see it clear and clear of why Jesus said you must be born again. Being born again means you get a new parent. Because you’re born, you got to be born of Satan. It means you get the new parent and no matter how good or no matter how bad your parents were, God wants you to understand whose child you really are.

It makes a difference on how you’re thinking, how you see and even on how you walk. I had privileges as a young child based on him who my grandmama was. When I was going stable on this country, grandmama had grown up to the little country (00:07:50) and grandmama has said, “Whatever my grandson wants, put it on my bill and I used to think that when I went into that store just become to whom my grandmama was, they had gave me whatever I want. I did not realize grandmama has to pay the bill. I just went in and get whatever I want but I won’t get with the mentality that I am the grandson of (00:08:19) and because I am her grandson, and because grandmama told you to give me whatever I want, I get whatever I want out of this store. I didn’t have a (00:08:30). Didn’t have a dime but I understood who my grandmama was.

My grandmama was not a rich person. My grandparents, they were struggling. My grandfather worked in the mill. My grandmama worked in the kitchen. They were not rich folks. Yet grandmama was able to give me the (00:09:02) that I could have whatever I want as supposed I had parents and owned it all. Say all, *[All]*. So, supposed I had parent that owned it all. If I had powers that owned it all and I was a child of such a parent, it would change my vision in the world. I was supposed to get out in this store. Some of you walked into store and you feel like you can have nothing in the store of life because your parents have not given you any kind of credit limit and they’ve left you nothing and as a result, you walked into the store and you look at all of the stuff on the shelves and feel that you are

not worthy because of who you think you are. God wants me to tell today who you really are.

00:10:00

And when you start understanding these things that I am a child of God that owns it all. It changes the way that you think about life and that you think about the world and if I begin to see some things on a spiritual light and understand all that God wants me to have. How many of you are parents? Raise your hand. Most of the Audience. If you are a parent and you have a child, you want your child to have the best of everything in the world. It's a natural part of being a parent. When I look at my two boys, I want them to have the best clothes, the best school, the best food. I want them to be happy. Do you know when my boys hurt it hurts me almost worse than it does them, when they cry, it hurts me worse than it does them.

I never understood when a parent used to have to punish their child and hit them as if they'll hurt me. Why it didn't hurt you? And I always used the word, (00:11:19) that still aching me. I don't see how to win and hurt you worst than it is me but I understand that now. And I see how evil when a parent has to let her child go from something and then improved some form of chastisement and punishment. I understand now why it really hurt the parent more. Don't you know that God wants the best for you in every -- don't you know God doesn't want you crying. God doesn't want you suffering. God doesn't want you sick anymore that I want my son crying, suffering and sick? Don't you understand that? Then, if I -- Jesus put it like this he saved you

Basically, in paraphrase, He said no good and you all gave only good gifts to your children. If I'm full of (00:12:14) will have to write, still walk down and left me impaired too many times. If I who mediate so much from the word of God. If I would only give my children good things, what do you think about our Heavenly Father. What do think he wants to give to you? He was the best that the world has to offer for his children but his children have to know who they are. Again, in I John 3, don't turn that as) movement thing. This is Behold, what matter of love the Father hath bestowed upon us, that we should be called the sons of God: Therefore, the world knoweth us not because it knew him not.

Beloved, now are we the sons of God, and it doth not yet appear, what we shall be. People, do you all know it let him appear what you shall be when you really a child of God. Don't you know you haven't reached your full potential yet. If you are really a child of God and it all get deeper (00:13:25) as I began to unfold this. It is not even appeared yet what you going to be, what you going to do. Some of the things that you have to accomplish and the goals and the blessings of God halfway but it's my children and I can tell you even in the natural so it is in the spiritual, I'm a compassionate man. But people let me tell you I don't have nearness(ph) of compassion. For someone else's child that I don't even know that I do my own.

That if something about it if you heard tragedy happened on a school buses and you heard that 25 kid got killed out of the 50 that were on the bus. If your child went to that school and you knew your child rode a bus, you won't even think about those 25, all that you would think about is one folk. Lord, don't let my child be one of the 25. No one would have the so much of heart and soul. Lord if the child has to be sacrificed, if they are 25 have gone then I would rather bear the pain, let mine be one of the -- that not those (00:14:37) parents mind. First thing that will go to you, "My Lord, don't let it be my child. I know I feel sorry for all the other parents but don't let it be my child." God feels the same way about his children but if some of us have renounced our citizenship.

00:15:00

We have disinherited the father. It's who we are. It's about natural birth right but we have disinherited you. You know you just disinherit your parents. Just like a parent in disinherited of child. All of these disinherit means is that you do not yet inherit the heritance that is naturally yours. Do you know what happens with parent and that God inherit and the child goes, "Hey, buddy" that you would call and write them out of the will. A will is nothing but a testament. You got old will and the new will. That's all the testimonies that's why if you ever go to sign a will, what it would say at the top? It would say last will and testament.

All of it is a will and you just fell down in the will. First of all, who get caught? Then, it is spelled out in the will. What you got to do to get what you naturally supposed to inherit. Me and

Eva will put in that will. They're put in that will and if I cut those then cut them out and he's literally abandoned. If a daddy got 50 million dollar, the three kids, one of the kids go on hay walk and he writes in his will. If this child didn't straighten up and do sudden search. I hereby disinherit him and he didn't get anything, let him do. Nothing he could do, he caught up, what else. This is the will. It's the will of God. You see God's word is his will, it's his will. And if I could tell us that which we are supposed to naturally inherit assured. But often times, we will miss it.

But I'll tell you people. Not only are you sons of God. Turn to John Chapter 2 and this is one that you will need to read so that you truly understand who you are and when you understand who you are, it will make a difference in how you relate and how you see the world and how we see what you're supposed to do and where you were supposed to be and the things around you. In John Chapter 13, beginning at the 32 verse and I'll be reading the NIV version. John 10:32 but Jesus said to them, "I have shown you many great miracles from the Father for which of these do you stone me?" "We are not stoning you for any of these." replied the Jews. "but for blasphemy, because you a mere man claimed to be God."

Jesus answered them, "is it not written in your Law, 'I have said you are gods?'" If he called them gods to whom the word of God came and the scripture cannot be broken, what about the one whom the Father set apart at his very own and send into the world." I tell you people that for those to whom the world came, if you're wondering what old testaments scripture this is referring to, it is referring to the 82nd Chapter Psalms if you want to go through and read and if the referring to specifically where God was talking to those that had been appointed judges and he was saying to the mind you set my word and he are God and Jesus would say if the word says that you are God to whom the word of God claim and the scripture cannot be broken. Jesus has said and asked this, if the word of God comes to you, you are God. And God said it and I can't change it and neither can you? If the Word of God comes unto you, you are God and I can't change it and neither can you? And it keep Jesus as we began to see some things upon who we are because I understand what they are about to stone Jesus for blasphemy is that

you're calling yourself the son of God, it's what the word saying. God said, if you're my child, if you're a son of mine and you see it's just like if my parents so I'm American. If they are American, and I am American, my children are American and it perpetuate that half is done not only are you sons of God, the Bible said you're god and let me go in and even begin to explain. First of all, when you tell a folk that he would hear it, but it never think clear because it is so strange and it is so far unto the way that we are used to thinking. The words said that in several places is as clean as this. But what if it is far unto the way that we are thinking that's why He told me to say who you are. They are sons of God and daughters of God and you got yourself and someone just saying it maybe I can accept this son of God.

Maybe I can accept it. But god, myself, I don't know about that, that get a little deep pass. I don't know about that. Let me make this real clear. As in the word says that he is God, not the key of God. That's a good difference and that's why we sometimes get a twisted up. Then let's say you are God, that's difference. Sometimes and some philosophies that taken and twisted it up and try to make it said that you are God, now they're different. That there's a big difference between the two of God. You said if only one God but he said he is God and let me even try to break it down and try to explain this first of all what is God. There was an earthly portion on an earthly definition. See, if God has dominion and power over son. Don't you have dominion and power over son? You sure do.

In your own word and your own thought process. There are so many of the things that God has given you dominion and power. You got evil when Jesus left. He told us for he said, "Greater things than less can you do" but we often have never done them because we haven't recognized who we really are. He told you could do it, he told you who you are but difficult things the sons have been in twist and had been so long, it is hard to even see the things. You see, Adam was given dominion over all the things in the earth. So, what you would -- we have reversed to another earth that dominion over us. We conceived. Do you know how many folks just we have dominion over? I mean literal we. From some cocaine make you with literal weed. You know all that's cocaine and heroin and Marijuana. You know all these stuff are (00:23:26) weed and on that time you know that marijuana to Mary Jane, we call them weed.

Some folks -- we even have dominion over and they came and make the weed, don't tell us what to do. The weed will make them give up their Divine birthright and now they are slave unto the weed. We don't see. That's all cocaine and then all that stuffs come from the prophecy. Can you imagine as he ruling over you? I came today without a cigarette. I have got to have less smoke and I can't make it. Nothing but (00:24:15). God gave you dominion of all of the things of the earth and now that stuff got dominion over you because you forgot who you are. If you remember that God gave me dominion over these stuff. Someone you lift who got dominion over. And you know all look (00:24:39) sour grape whereas one is actually sour grape. Mostly, you're not drinking wine, you're drinking liquor. They're not drinking wine it's really liquor and you know most of the liquor that stuff is fermented grapes.

00:25:00

It's rotten brand, it is all of it. Yet, the rotten grape, the sour grapes has taken dominion over us. God gave us dominion of all the earth but because we have forgotten who we are, the things of the earth have taken dominion over us and sometimes people update to see the earth got to stop it but it takes a control level because we forget who we are. Sometimes even when I'm in diet, pork chop got (00:25:34) over me. Change stuff eating all these (00:25:40) and you know it's chili. Without a shadow of that you don't need the knowledge about the chili, you know it. It got dominion over you because you have forgotten who you are.

You forgot that God gave you dominion over the things in the earth and you have given up your dominion unto the things and now the things rule you. They become master because it must first make you forget who you are and wants you to know that you supposed to be in charge. You give up yourself. Once you forget that you are supposed to be God over the pork chop and the pork chop is the God over you. Because anytime, something controls you and makes you do something against your better knowledge that thing has you enslave is your master. Okay, how you put it it's your master? God wants you to know who you are and when we understand some of these things. You changed the way we view life.

I want you to turn to Genesis third Chapter. You could find that very quick. First book of the Bible, Genesis third chapter. I want to just show you some things about really that you are God and to show you what Jesus meant and what God meant in that old testament and show you something and Genesis Chapter 3, now, I want you to listen to what the serpent said. You all know the serpent the God of the serpent want to deceive. The serpent was a liar. He makes the untruth and falsity. But I want you to first see what the serpent said in Genesis Chapter 3 beginning at the first verse. Now, the serpent was more subtle than any beast of the field which the Lord God had made.

He took control of them because he was subtle. He did realize what was going on and he said unto the woman, “Ye, have God said you shall not eat of every tree of the garden,” and the woman said unto the serpent, “we may eat of the fruit of the trees of the garden but of the fruit of the tree which is in the midst of the garden God have said you shall not eat of it neither shall you touch it unless you die,” and the serpent said unto the woman, “you shall not surely die.” That was a lie. For God does know that in the day he eat thereof then your eyes shall be open and you shall be a God knowing good and evil. Now that was the truth. The serpent said, “for God does know that in the day ye eat thereof then your eyes shall be opened and you shall be as God knowing good and evil.”

What is the serpent says the definition of a God, what? Of being that no good and evil but you said “that was what the serpent said”. You can’t base life on what the serpent say. Some of us based life on what the serpent say. You came in this life for anything that is in heavenly evil. So, let’s go down and let’s confirm and see what God see. Same third chapter of Genesis in the 22nd verse. And the Lord God say, “Turn to your neighbor and said, the Lord God say it. This is not the serpent. This is what the Lord God say, and the Lord God say it behold the man. Who? The man has become as one of us to know good and evil. Did you see that? He said, “Behold, the man has become as one of us.”

00:30:03

Nathaniel:

The man has become as a God”. Because he now knows good and evil. That’s why when the word of God which has many see but most importantly embodied in this Word, is the knowledge

of good and evil. Once you know the Word, you know right from wrong. My grandmother has very simple philosophy of religion. She's boiled it all down in just one little (00:30:36). She said religion ain't nothing but just doing what's right. Just as when you distill all of it down, the Word of God is the knowledge of good and evil. To accept Jesus into your life as your Lord and Savior -- that's good. To deny Him -- that's evil. So, it all boils down to the knowledge of good and evil. He says the host of men has become as one of us, knowing good and evil, because once you know good and evil, you are ever god and you have the power to walk down the evil path or walk down the good path.

You see, God even took some of his sovereignty and gave it to you. He made you a god because you got the choice. Do you know God will not make you walk down the right hand path? You got the choice to that. That's why most of the folks are going to hell. That's why in the ark only eight people were saved. That's why Jesus said, "Broad is the path that leadeth unto destruction and many thereof shall enter, and narrow is the gate that leadeth, and few find it, that's why He said it, because you got a choice. He gave you the knowledge of good and evil through His Word and when you get the Word, you become not only a son and daughter of God but you are gods, because you know good and evil.

That's a default, and you see so many times and so many of the issues of our lives. They are one way or another because of what we have done as gods. And not because of what God has done, the "big G", but what we have done, the "little g". He gave you the power to be god in your own life, to make a decision. The right way or the wrong way. The knowledge of good and evil. And you know sometimes I can't understand even how in the garden of Eden when you don't know right from wrong it's kind of almost a blissful situation to a certain degree. It is like a child and they just don't know any better. But once your eyes are opened, you'll see you'll make it. Do you know a child is like that?

My two-year-old rolled up and have all day long naked. Ring the doorbell, he'll open the door, naked. Yes, they are naked. Now a five-year-old is different. Not only would he not open the door to me. If he goes to the bathroom and I take him out of the public place and he said, "Daddy, take me around 'cause I don't want anybody to see me." You see once the knowledge of good and

evil, once their eyes are opened, we no longer are comfortable in nakedness.

God has said, "Clothe yourself with my righteousness." We are no longer comfortable in nakedness, but if we are blind and don't know His Words, we're comfortable in the midst of all the mess and all of the nakedness. You see, God gave me dominion over my life. Now, I know without a shadow of a doubt I've got supernatural influences and God still manipulates things in my life with it, you know that final thing he left up to me and God even told me that sometimes you got destinies that are unavoidable. God told me in no uncertain terms. He said, "You have a destiny to fulfill." And He gave me a choice though. He said, "You can do it the easy way, or you can do it the hard way".

00:35:00

I don't have a choice about where I am going, but He said, "You can do it the easy way, or you can do it the hard way." The hard way is rough. The easy way is not easy, but it's a lot easier than the hard way. See, some of you have destinies, and just as I do, God has ordained that you go into to a certain place. You can do it the easy way, or the hard way. And too often, we choose the hard way to learn the lesson of life. We choose to find out that the stove is hot. Not by listening to the easy way that our parents told us. "Son, don't touch that red hot stove." The destiny is for us to gain the knowledge that the stove is hot.

Some folks do it the easy way and they said because leadership has told me that the stove is hot, I shall not touch it. I believe it. I have faith I trust and therefore I shall do. Well, folk, "It's red, I know it's red. But my bicycle is red, it ain't hot, and we rationalize and intellectualize and come up with all that stuff and then the only way for them to get the same knowledge that the person that got it the easy way by faith, is to -- let me just see it. You see, I learned a lesson like that from my grandfather. When he was alive, I was down in the country, and we were back in the backyard and I was walking with my grandfather and he pointed to me, "Son", he said, "that's poison ivy". He said, "Don't touch that poison ivy". And I was an old fellow but I have never really seen poison ivy and in the back of my mind I wonder to myself. First of all, is this really poison ivy? Second, if it is poison ivy, would it bother me?

Because I know it all, things some folks are just naturally resistant to the thing. And into my mind is my intellectual scientific wheels(ph) went to grind and I spoke to myself. I'm in real good shape. Poison ivy is probably just affecting folks with a weak immune system. Folks that sneezed at the first draught. I went up to the poison ivy and I touched the poison ivy and I waited a couple of minutes, nothing happened. I went up and then I -- I rub the poison ivy, stood back and I waited. This time by five minutes. Nothing happened. And I said, (00:38:22) that was exactly what I did. And nothing happens, until about two days later, I remember I was sitting in a chair, two days later, now, my immune system -- I was correct on the theories, and my immune system was stronger than most, because it was two days later -- two days later, I started noticing just a little something, just a little tingle.

But three or four hours after that, I mean, I was just -- somewhat everything -- my skin had just broken out and all there's rash, little like. At first it was just a little spot, just a little like -- just went all over in places where I hadn't even touched the poison ivy, and then I remember my grandfather's voice. See, sometimes people when we hear the voice of God, I will go ahead and touch the unclean things anyway. Then sometimes a few days later and sometimes a few weeks later or sometimes a few months later, may be sometimes even a few years later, when we're itching all over, the voice that told us to come back so I remembered and I heard my grandfather's voice telling me just as clear, "Son, don't touch that."

00:40:00

Because he talked slowly. "Don't touch that, that's poison ivy." I got the knowledge. I knew about poison ivy. No one could tell me -- nobody just could give me any kind of visitation, (00:40:21), but I had to get it. God would much rather you get the knowledge of good and evil the easy way. He would much rather you go through life without having to go to all of the issues and all of the pain and He would rather you go that way but some of us (00:40:47). We just gotta go the hard way. Is just our nature, we just not going to listen to stop the itchiness and (00:40:53). We won't listen. We just learn to see if you are a child of God and if you are a good child, you got to learn the lesson from God.

I was talking with James the other day and James called me about an investment to make, so I stopped by and he asked me, he said, "What do you want to do? What happened? You tell me." "You know why?" I said that, "Let me tell you why." I told him myself, "Whatever you tell me about -- whatever you tell me to do, I will do it." Let me tell you why. It's been about two to three years ago and I was praying one morning and God spoke to me just this clear. He said, "In your investments", He said, "Do whatever James tells you to do." He said, "Anything that you even receive spiritually," He said, "Do only what James tells you to do because you cannot handle the investment market on your own." (00:42:10).

Well, I'm a smart man. I can understand charts and graphs and portfolios and performance and price value ratio just as good as James could. Matter of fact, I got just as heavy as a mathematical background. I'm an intelligent man. I can look and see my old stuff. Then, I even had a dream on top of it all. I've dreamed that wheat(ph) thing -- wheat from 37 cents to \$37, and I told James, I said, "James, I have this dream that wheat from 37 cents to \$37. I said, (00:43:08). James said, "I wouldn't recommend that." I said, "But I have the dream, he said, "Didn't God tell you?" I said, but I'm looking at him and I said this thing takes off, he can do also." He said, "I wouldn't recommend that." He said, "If you go in (00:43:32) and he told me this. He said, "If it does, what your dreams said it would do," He said, "Just put \$3,000 in it and you still can make a million dollars." He said, "If the daddy does what he says he's gonna do, you have longed for that much amount of money." Did I listen? Sure didn't.

Absolutely, that's why I'm telling you -- most preachers they will change to the old stuff. I just -- they done it. They won't tell you. They won't tell you I can speak to you out of experience because I have rubbed the poison ivy and I have touched the hot stove so I can teach you -- that's why we sometimes -- that's why when James called me with our stock -- and he asked me "What you wanna do?" I said, "Whatever you say." And you see in the midst of all the stock market crash when it went from the last couple of years from the NASDAQ was super hot, do you know James and the stock he invested in, he made money in the midst of all that crash? I was naked. Lost it all. I was naked. How many of you all have seen it? If God has told you to do stand up again and all stand up and be myself (00:44:59).

00:45:00

If I had just done what God told me to do in the beginning, I would not only would not have lost all that money, I would have made money. But, I had to learn the hard way. The hard way focused wrath. If we learn to listen to our Father. If we learn to listen to the Wisdom of the Power. It would save us so much pain. So much pain. In most marriages, that really have major, major problems, you ask them one question, "What did your parent --" "My mama didn't tell me that (00:45:59)." The hard way and we go through life because we fail to recognize who we are. I knew I was a child of God but I didn't listen. See, even if you know who your parents are, if you don't listen to the parent - -. That's why it says, they are really gods, to those to whom the Word of God came. It's more than just hearing the thing.

Most of the Christians weren't heard, it's more than just hearing the Word. It is doing the Word. That's why we always see this - - we quote Jesus when He said, "Know the truth and the truth shall make you free." In his fullness is not what He is saying. He said, "If you do my Word, then you are My disciples indeed." Feel(ph) the truth and you shall know the truth and it was about doing the truth. So, we've got to hear it and do it and then - that's why I said, those who do the will of God are the sons of God. Don't get disinherited. Don't get disinherited. Know who you are and see because I know who I am. I've known that I am a child of God. And I believe that with all of my heart, I have made some errant ways. I just told you two or three of it and more than that, (00:47:16) all of them. But I know who I am. I am a child of God and you see I wouldn't trade places to be honest with you with any human being on the face of the earth and I really mean that.

Even if I could trade places, I wouldn't trade places with anybody. No one of the face of the earth, because there is a part of us knowing your relationship with God. Knowing your destiny. Knowing your present. Knowing that God has His hand on you and there's god in you, even when you don't listen. He is protecting you. Even when you messed up, see, because, let me tell you, I lost all that money when I see I'll make money. And you know what? Because fortunately, I have taken half of my money and put it where James said to put it. Fortunately, I have. And because I have taken that half of my money and put

it to where James said to put it, that has made enough to make up for the parts I have messed up myself. So I was beating myself over the head. Supposed I have done what James told me to do a hundred percent. See, some of us did half of what God said. But you know, even that half is a blessing. You know even if you don't do all of what God said, if you just do half of what God said you will be blessed because you do it just half. So I was blessed fortunately in the half that I obeyed. And sometimes God did not tell me to listen to what I said. He said, "Do what your youngest brother tells you to do with your money." But you can rest assured – now, let me tell you something folks, I was disobedient the first time. If I had to get back up here and tell you all again that I have disobeyed, I was not just disobedient, I will be what my daddy used to call a "stark (00:49:17)" Now, I don't even know fully what (00:49:21) mean, but I know that's a deeper fool than normal. And if I go up here and I will violate that again, I'm black, my daddy said I'm a stark (00:49:31). I will not do that again, because the hard way is just too hard. Know who you are.

My final Verses again in Genesis is in the first Chapter of Genesis. And we've all heard this Genesis First Chapters, the 26th Verse, "And God said let us make man in Our image after Our likeness." God said, and you can put your name in there. He said, "Let us make Nathaniel Bronner just like God. That's what He said. So I am made just like God, in God's image. Turn to your neighbor and tell them and say, "I am made in God's image." So if you look into the mirror you are looking into the image of God. God looks just like you. If you're made in His image and you look in the mirror after our likeness and let them have dominion over the fish of the sea and over the fowl of the air and over the cattle and over all the Earth. What did God give me dominion over? How much is all? What part of the Earth did God leave out, that He gave me dominion over? All. He gave me dominion that's what He said, for those that you got the stuff is ruining over you? You forgot who you are? God gave you dominion over it all. People, you've got to know who you are and once you wake up and understand your real, real roots, not a country, not even a flesh in bloodline, but your divines.

Once you wake up and really understand your real roots. I'm not just -- sometimes we like to use the term you know we descended from kings and queens. I didn't just descend from kings and queens. I have descended from the One that made the

kings and queens. It makes a difference. It's who I am and who you are. Some of you just don't know it and that's why God sent me here today to tell you who you are. You are sons and daughters of God. And you are gods yourselves. Obey the Path. Obey what God tells you. Go now on the right path. Do it the easy way. Listen to the experiences of your past. Do it the easy way and do what God tells you and what His testament has instructed us to do and you'll receive inheritance beyond your imagination. Bow your heads.
