Nathaniel Bronner: Turn your Bible to Matthew Chapter 26. Matthew Chapter 26. And today is the Easter and the last Sunday, not last Sunday, but last Easter of last year, I preached the message entitled Pilates' Six Questions, which in the beginning part of that is, it dealt with the origin and the history of Easter and how it came about, and how it even got related and translated and mixed in with Christianity.

So, if you want to know all about that, go and get the tape from the tape room called Pilates' Six Questions. And in Matthew Chapter 28, beginning at the 16th verse, of the King James Version. This verse picks up immediately after the crucifixion. And these are the first words to the disciples of Jesus after the crucifixion. It is what we celebrate, not just the death, but the resurrection, because it was in the power of man to bring death, but it is only within the power of God to bring resurrection.

So, we celebrate the power of that resurrection and hear of the first words of Jesus that he gave to His disciples after His resurrection. Matthew 28 Chapter, beginning at the 16th verse. "Then the eleven disciples went away into Galilee, into a mountain where Jesus had appointed them. And when they saw Him, they worshipped Him: but some doubted. And Jesus came and spoke unto them saying, "All power is given unto me in heaven and in earth. Go ye therefore, and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Ghost: Teaching them to observe all things whatsoever I have commanded you: and, lo, I am with you always, even unto the end of the world."

And I speak to you today simply from the two words of all (00:02:16). Now the first thing, there were 11 disciples, not 12, because one of the disciples was gone. That disciple that betrayed Him, that disciple that didn't teach the faith, that disciple that went astray, that disciple that did not do the right thing. There were only 11 disciples when Jesus arose. Everybody, people, at the time of resurrection not going to be there. Even among his closest, even among those who followed Him dearest, everybody in the end was not there.

There were 11 and they said they went away into Galilee; they went into a mountain where Jesus had appointed them. Jesus didn't send them to Galilee, He actually sent them to a mountain. He doesn't give the name of a mountain, but He said it was a

particular mountain and in that -- I've got two things that I want to deal with today. The first, is in the natural and the second is in the supernatural.

Jesus' first words to His disciples, He sent them to a mountain. Most of you here know then at the beginning of the year, this ministry began an email ministry called MountainWings. This was a thing that was unusual that it is virtually unheard of in ministry and frankly, some doubted. Some people questioned and they said, "Why in the world are you beginning an email ministry called 'MountainWings?'" Where in the world has that got to do with the church? What in the world has that got to do with the Ark of Salvation? Why are you even starting that project? Why are you even beginning? You see, it began first of all -- out of my communication with God first of all, and one of the things God told me not to do.

And even as I began, He would pass us, the normal natural thing was to focus on trying to pack the church up, to deal memberships of -- that was what I was gearing up to do to see what programs could be instituted, what mechanisms could be enforced, what could we do to bring people into the house of God and to build the Church. And as I was there early one morning praying, God asked me the question, He said, "Why are you trying to fill up the Ark?"

And when He asked me the question, it startled me. I said, well, I -- that's what I'm supposed to do. And He said, "Why?"

00:05:02

I said, "That's what is expected." He said, "Why?" And He kept asking me again after that I would come up with you and He would ask me, why? And as I begin to understand what it really boils down, when I really did have a solid reason of it and that's just what was traditional to do.

God had never directed me to do that. It just looked like, it was the right thing, because I asked for it after I had gone through all of my answers, then I saw that none of my answers were truly pleasing God. I asked God, I said, "Well Lord, what do you want me to do?" And he told me this, He said, "Don't worry about trying to fill up the Ark, fill the people." And it changed my whole focus

and my whole thought pattern and I no longer worry about numbers of people, or trying to fill up the church.

And you see, that He told me well over a year ago, it didn't really start manifesting and some of the meaning of what that thing was, until MountainWings came along. And it is an unusual thing, because it is a new thing, it is not a typical thing. But yet, the minute the idea would burst into my spirit, I knew that it was of God, He sent me to a mountain. And even the name of the thing is now acted in the first, He sent the disciples, was to a mountain. And you can see from the result of what has happened, the first issue went out on January 1, 2001 of the new millennium, the first date of a third millennium.

And during that first month, we had an average of about two people per day that signed up for Mountain. And MountainWings is an email that I write and it is then sent out every day for all of the subscribers. The first month, we had an average of two people per day that subscribed. The second month, February, an average of four people per day subscribed, seven days a week, every day of the month, an average of four people per day.

The third month, the Ark had an average of 15 people per day subscribed. For this month, the month of April, for the first two weeks of April, an average of 30 people a day signed up to MountainWings. MountainWings now has subscribers in 47 states. It has reached beyond that and the command of Jesus gave the people, He said, "Go ye therefore, and teach all nations," it has reached beyond the Ark. We've got 47 States that subscribed to MountainWings. I listed it down just to look and see how many different cities were the people from.

So, I took the date so they can sort it by city in alphabetical order and I started to count just the number of different cities and I got higher by the time I got to the end. I counted over 400 cities by the time I got to the end and I didn't go past end. So, we've got subscribers in MountainWings that now that are probably somewhere between 700 and 800 different cities across the U.S. He said, "Go ye therefore and teach all nations."

I got an email the other day from a lady that had subscribed and she said that, -- she subscribed to MountainWings and this lady was in Texas and Texas incidentally is our second largest state of subscribers. Georgia is number one, Texas is running a close

second, Florida is third and California is fourth. And the lady said, that she subscribed, she's in Texas, she subscribed because a friend of hers in Ireland emailed her and recommended that she subscribe to MountainWings. "Go ye into all nations." I can't even figure out where all of the people come, because foreign zip codes don't register in the database, and some people don't put a zip code in at all.

So, I don't even know how many additional. We may have somebody 56 -- I don't know because I can't track all of them and I can only tell the countries by sometime sorting and looking at the extension on the email addresses and see if I can recognize it. Go ye into all nations. We have just in MountainWings, we have subscribers in Canada, in Italy, in the United Kingdom which is England and all surrounding countries, in Australia, in Germany, in the Netherlands, in South Africa, in Samoa, in the Ascension Islands and in Pakistan and that is in three and a half months.

00:10:20

And by next month, it has occurred a growth rate continues every two days, enough people will subscribe to MountainWings to pack out the Ark, every two days. When Jesus comes upon you, He'll send you to a mountain. Now, there's one thing that's unique about mountains, mountains are not easy to climb. And I also "Why do you keep so many sermons on the mountain tops? We'll can't you just talk in the valley?" Mountains are never easy to climb. It's never easy and just even in the place that was indicated, and even to seek for Jesus all the way through wasn't easy. Most of the disciples got scared, even his closest disciples, some of them got scared, and ran away and did not -- a mountain is never easy.

You see, when God resurrected in you and gives you something to do, He will always send you to a mountain. The thing will never be easy to climb. You go through every kind of obstacles that you can possibly imagine, but when God has ordained it and if you are faithful to it, it shall rise and it shall not fall. I've seen and I have set a goal that by the end of the year, we'd have a minimum of 5,000 subscribers on MountainWings, we'll have that within the next two months.

And I had to re-adjust my goals. My goal is now by the end of the year, we'll have 100,000 subscribers to MountainWings in the

first year and will have a million by the second year. As you see, it becomes a part of ministry, that it reaches, it teaches, it touches people every single day. And I have people that sometimes don't email when something is going wrong with their email and their email is, "What happened to my MountainWings? I've gone to the point that if I don't get this thing every day, my day doesn't go right? Where is it?"

So, we've gotten to the point now, where people are hungry for the Word and I don't know where because I even now, I do 10 times more counseling through MountainWings than I do local, or on the telephone. I had to answer even today, a person that needed counseling and they were out of South Africa, and they have problems. But let me tell you something folks, the folks in South Africa got the same problem we've got here today. They got the same problems we got over in Atlanta, the same problems we have – problems are the same, I don't care where you're going.

Then they take on a slightly different flavor, they may have a slightly different accent, but problems are the same, all of the world over. And God even spoke to me this morning, He said, "It won't be long before you'll have more people visiting the Ark for MountainWings than from television. Because as people subscribe through it all over the world, they're going to -- whenever they visit Atlanta, they're going to say, "I want to go and see where MountainWings is written from." Actually, it's not written from the Ark, it's written from my kitchen table.

To tell you the truth, that they really can never see where the thing is written from, but they will come here, because of MountainWings and the same will become one of the greatest ministries of reaching people in the world. I didn't even understand how in the world that we would ever blast into where we were supposed to be, because it looks like, the ministry was too small. Sometimes when God tell you something, you can't see it. And if you remember the prophet saying that, when we brought the prophet in, he said, "I saved you going all the process."

Why am I seeing all these different countries? Now, he didn't understand how to go get there. He thought, it was television. And he may be right, because as we go in and when we hit those million subscribers, you'll never know what will come from that. And people, it's something right now, we're reaching people every

single day. The subscribers on MountainWings right now would pack out the Ark with aisles overflowing four times over.

And that every single day, people get a message, people get a link, people get a boost. Let me just read you today's MountainWings, of what goes out to those 47 states, 700 plus cities and 11 countries. "One day, a man went to visit a church, he arrived early, parked his car and got out.

00:15:00

Another car pulled up near him and the driver told him, "I always park there, you took my place." The man that went inside for Sunday school found an empty seat and sat down. A young lady from the church approached him and stated, "You took my place." The visitor was somewhat distressed by this rude remark, but said nothing.

After Sunday school, the visitor went into the Church Sanctuary and sat down. Another member walked up to him and said, "That's where I always sit, you took my place." The visitor was even more troubled by this treatment, but still said nothing. Later as the congregation was praying for Christ to dwell among them, the visitor stood and his appearance began to change. Horrible scars became visible on his hand, and on his sandal clad feet.

Someone from the congregation noticed him and called out, "What happened to you?" The visitor replied, "I took your places." And this is the kind of inspiration that goes out in 141 of each day to all of the subscribers of MountainWings. There has been no money from the Ark spent on MountainWings. So, you don't have to worry about where you're taking all my money. Nope, there's been not a dime from the Ark spent on MountainWings. I've done all of this myself. So, no money is going from the Ark into MountainWings, but yet the Ark by that time of the end of this year will have more money in our savings account than we've ever had.

Because we have to have a cushion and you see, the church has to be a leader. We have to have a cushion, and one of the things I said, "We need to have at least a minimum of three months of operating expenses saved up, put in the bank, because you don't even know what's happens to the church and needs to have a

reserve just like you do.” So, we will have that by the end of this year, but this is not the Ark’s money that is financing MountainWings.

That is a mission that God laid upon my heart. And to be honest, we didn’t have a budget within the church to do it. So, I got it done. But the Mountain is flying. And you see, that’s a practical thing that you can see in the natural. And whenever God comes to you, and when God tells you to do something, and He sends you to do something, 99 out of 100 times, it’s on a mountain and you got to climb and some struggle, just to get there.

And then there is the supernatural. I said on Friday that I had a message that was one of those controversial types of messages. And sometimes, when in the place that they go, they go to East and they hear the same old thing. Yes, it’s not going to be the same old thing this morning. But yet, still, there’s nothing wrong with the same old thing, because oftentimes, even in life, you don’t need, but one thing. You know, even in business, when you say, “You don’t need one hit product to really make it.” Sometimes, you don’t need one thing. Paul even said, “This one thing I do, forgetting the things of the past and keeping my own calling of Christ.”

So, these are one thing, there is nothing wrong with the same old thing as long as it’s the right thing. Too often, when you’re doing the same old thing, but it’s the wrong thing. If you got it and you’re doing the same old thing and it’s the right thing, then there’s nothing in the world wrong with that. So, even when I’m okay this morning, in reality, it’s the same old thing, it’s just a different twist.

And it came from an article that is in this month’s issue of Charisma Magazine. For those of you that know Charisma Magazine, it is the number one Christian magazine literally in the world. And they had on their front cover, a cover that struck me when I saw it, and this is the cover. And the cover reads, “Aliens Among Us.” And there in the picture on the front cover of Charisma Magazine of the traditional view of an alien. So, when I saw the issue, I said, “Good grace! What in the world does Charisma have and what are they doing with a front cover article entitled, “Aliens Among Us?”

So, I naturally had to read that article to understand where they were coming from and this is the introduction of what they said in the article.

00:20:02

And some of you now are wondering, and you say, “What in the world does aliens have to do with the resurrection of Jesus?” I’m getting that, just hold on. And the article begins by saying this, “Millions of intelligent people believe in alien life forms, and their fascination with UFOs typically leads them to new age beliefs. Is the church doing anything to reach this unusual mission (00:20:35)?”

And so, I read the article. I really began to see what they are talking about. Aliens are big news these days, and though, it’s not been talked about from the pulpit, everybody else talk about it everywhere else. And if you look at it, what is happening is that, I begin to look at it and as I begin to see, people, you all need to understand this alien business.

Now, let me say right off the bat, I do not know anything specifically and truthfully about aliens. So, don’t ask me after service. Don’t come up to me and ask me, “But Pastor, what about this alien?” I don’t know anything specifically about aliens. And anybody that does know, you can talk to him. So, I don’t know. I may have opinions, but I don’t know. But the key is this, and as I began to study into this article, and as I begin to even relate it to what I’m going to talk about upon this morning, just dealing with all powers.

There is a verse over in Second Thessalonians 2-8, you don’t have to turn, I’m going to read it right and quick. Second Thessalonians 2 verses 8 through 11. “And then shall that wicked be revealed, whom the Lord shall consume with the spirit of His mouth, and shall destroy with the brightness of His coming: Even Him, who’s coming is after the working of Satan with all power and signs and lying wonders. And with all deceivableness and unrighteousness in them that perish; because they received not the love of the truth, that they might be saved. And for this because God shall send them strong delusions, that they should believe a lie.”

And you see, the alien phenomena are more and more inclusive and evasive into our society. When my mother was coming along, they didn't have hardly any talk or news of aliens. But our kids, are alienated with this. They watch aliens on every cartoon, they watch aliens in every movie, they're looking at the Teletubbies, they've got aliens everywhere.

And you see people, it looks innocent until you start to understand the thing and the spirituality behind it. I'm a scientist, and by air and nature, those of science are automatically thrown to science fiction. I had a voracious appetite when I was young. I read tremendously. I used to read a book a day, literally. My mother can tell you, I could take a book, I could start on that book, I can read it all the way through and I would read a book again. I used to read volumes of science fiction dealing with spaceships and technology and all types of futuristic stuff and all kind of other worlds.

I was a Star Trek fanatic. I watched every episode of Star Trek. The big thing now, is the X-Files. The X-Files is one of the top-rated shows on television, and even a large percentage of our movies have to do with aliens. You can look at television now and you'll see, 'Earth the Final Battlefield' and earth, among – and it all comes with incarnated evil. Every day with an alien, it's no accident. Your children are being soaked with it. And you go, "What does have to do with Easter?"

When you understand this one critical fact, that whenever you start watching any of the alien programs, any of the alien series, anything to do with aliens, even the movies, they all come to one conclusion, and the conclusion is this, even if you watch Star Trek, they have episodes on Star Trek that gave you this conclusion and planted this in your mind.

00:25:02

If you watch the X-files, the X-files have come right around to this conclusion, what's that episode with the Dawn with it? The alien with the bald head? What's the name of that – 'Earth: Final Conflict', you watch that. It comes down to the same conclusion, all of the alien stuff brings you to one conclusion and they flip it in, in one form or another, it boils down to one thing. And the one thing is this, "That the aliens put you here, not God." When you

study all of it, it takes you down to one conclusion, that the aliens put you here, not God.

And what that does, and that's why the church needs to address the issue, because when there is silence, when there is a voice, people start to go and start to seek answers elsewhere. And the answers that they find elsewhere is always going to move them away from the word of God and they will take anything, because you see the first line of the Bible says, "In the beginning, God created heaven and earth." That's not what the aliens are saying.

And that's what all of the alien folklore is doing, it leads us away and it have us believe that the aliens are our creators, not God. And it undermines the very fabric of your Holy Bible and you've got to understand this. And as I read through this article, and the light of understanding even came as I begin to see a lot of this and I saw where it was going. You know, the Bible even tells you about those last days and it even says that, in the last days, this is for false Christ and false prophets shall rise and shall show signs and wonders to seduce. If it were possible, even the very helix.

You see, all of the aliens are saying in a nutshell, we are God and we are the ones who created you, not a Divine Father. And that thing starts to enter into the spirit of nature. It's in your children, because they have watched so much of it and it is the deception that is engulfing the whole world, that the aliens put us in, and then the aliens built the pyramids, that alien technology did this and alien technology did that. And it undermines the very fabric of Christianity and the very fabric of a Divine God. It is a dangerous thing.

Now first of all, I am not saying that there's nothing here, because more than likely there is. More than likely there are some other creatures, more than likely there is some extra technology, but you have better understand at least, what's an ace even if you don't understand what it is.

You better understand that it was a Divine Creator, not aliens that's behind you being here, deception and the deceiver. You see, all of it that the deceiver does in the end, he substitutes that which is Christ for that which is false. He substitutes that, which is God for something else and he gives you and he makes you

think that this is God and that's the way to -- that's why Lucifer is an angel of light.

He makes you think that this is the truth and it sounds good if you don't know the truth. And it slowly turns you. And as you start looking in all of the alien stuff, it slowly turns us, because it slowly was introduced. And your children will be so steeped in it and that by the time they get 20 years old, they will be so steeped and believing in aliens, that they'll have a hard time believing in God. So, you better be careful about what you even letting your children be exposed to.

And as I read this article in Charisma, I read some things and saw some things that I have never known and never would have believed if I haven't read, but I saw some things here. Now see, first of all people, when they celebrated, they said that approximately 3 million people in the U.S. have had extraterrestrial experiences. That have even seen them or have been abducted by them in some form or another and they're real.

Well Scott, I know they're real because I got a friend of mine that had one.

00:30:00

And the first thing where you got friends, that you don't have to fake it. It makes sense the sun was shining, you just go outside and see, because they have a tendency to stretch stuff and you know what I'm talking about. Well, this friend of mine was a college friend of mine. Because all of the friends that I have, if I had to name, perhaps the most silent, he's been in that group. He is one of the most well-rounded, most silent man that I know. He is in corporate America, he's over a company, he's got about 3,000 people that work for him. He's one of the most silent man that I know.

And he said, that at the age of 15 years old, he had an experience over in a country town where the sheep following him at tree top heights. He was 15 years old and when he talks about the thing, his eyes start watering up and a grown man saw him crying. It was just that compassion and he said, "I don't care what folks say. I've seen it." And you see, there's something that makes a difference when you've experienced it. First, when you are dealing with what's called in vitro type of knowledge when it's

something that you've read or you listened or somewhat else experienced, that's the difference, when you go through.

He's one of most trusted men that I know and he said, "He has experienced it and the statistics of it, 3,000,000 people, that's almost one out of every 100 people have some kind of encounter, some kind that we would with something, that's not quite normal.

And then, there's the other group that has gone through what they called "the abductions", where they claim that they have been abducted by aliens and experimented on and taken away and all these kind of things and some of them have had marks, scars and even in the Charisma article, there's one lady that has device planted in her brain as the doctor can't figure out where it came from and how it got there.

So, there are some strange things that go over and why I'm bringing all this out to you, it's for a conclusion, it's for you to understand something. First of all, people, you and your children are going through a deception that tries to take you away from the Word of God. And I would recommend that you get the article and read it, because there's a lot of stuff, I simply don't have time to go in. Some of the Christian writers, they have theories about what these movies are. Some say, they're not aliens, they're people from other spiritual dimensions of difference between demons and angels, they were part of the Nephilim.

And here's a whole lot of stuff in the Bible that's not fully explained. About when the sons of God, the fallen angels came and meet with the daughters of men and the preachers and the people that they produced. And these are simply some of the protests the article goes through. It says this, "If what these aliens say is true, then it denies the Creator". That's the bottom line. They're trying to destroy our relationship with the Creator. It's very important because what a person believes, alters his attitude about God. The origin of mankind and the possibility of a relationship between God and humanity.

So, whether UFO actually exists or not, it's not the main point. The main point is that millions of people believe that they exist. In their books, this writer and radio Bible teacher Chuck Missler, argued that the UFO world, is part of an elaborate satanic plot intended to set the stage for the final acts of world history. What better way with would there be to explain a way to rationally

suggest than have people believe their family members, friends and neighbors were taken away by aliens. Do you all remember Heaven's Gate? Heaven's Gate, do you remember all the people committed suicide, because they felt that there was a spaceship waiting out to take them all away as soon as they die. They were caught up.

You all don't know remember that it happened how many years ago was that then, maybe three years ago. All these people, all the folks killed themselves thinking that once they die, there was a spaceship, alien waiting to take them away to paradise. Or how effectively might the nations of the earth you persuaded to join together in some form of one world government than to unite against a formidable common foe, an advanced civilization from outer space. It is all a massive deception people, that the children of God need to understand.

00:35:00

And I told you all and that so, you could be aware of it, but the main thing and the thing that really came to light has brought a great revelation is, the thing that I am about to read now about the abduction.

Normally, you don't hear this in full, but this is strange and oh yeah, it's deep stuff that deal with Satan. But this is some stuff even about the people that claim to have gone through alien abduction, and there are people, thousands upon thousands upon thousands of these people, it's not a small number. And this is what a Christian researcher found. It's said a long part of this article, but you need to understand this. But then he came across what he called the real UFO cover-up, which drew him back into the world of sightings and the grays. That's the people that they got on the front cover, the gray alien with the big eyes.

When the Christian friend who had been a part of MUFON network, the MUFON network, Jordan discovered the astonishing case of a man who claimed to have faulted his abduction experience. It was the first time Jordan had ever heard such a thing. And it happened when the man called out the name of Jesus. No one had ever said you could escape an abduction. There was no mention of it in any of the literature he knows, but as he spoke with others.

More experienced MUFON researchers, they admitted to him privately that they have heard of similar instances. My question was why, I have never heard about them and their answer usually was, we didn't know what to make of it. Quite often, they said that they were concerned about how it might affect their credibility in the UFO research realm. Since then, Jordan and his colleagues have traced about 100 abduction cases that had been stopped by the name of Jesus.

Some will say they've been abducted and have physical phenomena at the back up their claim such as strange bruises, marks of pain or others, there are no marks whether they encountered that in the material, or metaphysical world, they have been marked. "I don't know whether it's real or not to be honest" Jordan said. What matters is that these people's lives are being affected in every part. And he goes on to talk about the thing, but this is the amazing thing that I saw, that in the midst of all of this stuff dealing with the aliens and all the technology.

Do you remember the massive movie that we had called Independence Day, that Will Smith starred, and it was a box office bloodbath where man has to depend on alien shooter, they're trying to infect the molecule with a virus and to save the earth and here, all of the researchers have found that all these things had stopped. The aliens, no matter what they are, whether they're demons or disembodied spirits, and we don't know who or what they are, but we do know this, one thing stopped them in their tracks. And that's why the message today was entitled, "All Power" simply to let you know that the nations and the Word of Jesus will protect you on this earth and beyond. And people, He's brought a new revelation to me.

You see, I always knew that the blood of Jesus will protect Him and a lot of folks. And again, demons, but it went deeper than that My Star Trek mind and always thought that if we came up against some extraterrestrial civilization, if we were only love us and save us and Photon torpedoes. We going to need all that kind of stuff. All you need folks is, the name of Jesus, the blood of Jesus' cup. If you can understand that simple principle from the natural from the supernatural, no matter what you face. And that's why Jesus said, "I have all the power in heaven and in earth."

He was covering all realms, because you see, people sometimes will put Jesus in a certain corner, Jesus in half of everything, in this world and out of this world. He can handle everything on earth or whether it's from Mars, whether it's Alpha Centauri or whether it is from the galaxy or making life here in the week. If it is somewhere out there and I don't know where it is, and I don't know what it is but I do know this, if it is somebody in the name of Jesus, it can happen.

00:39:57

And as we know that everything in my life if I could learn to get my stuff covered with that blood, He died for our salvation throughout all eternity. People, it's something that we need to understand and sometimes we put limits on God, and you don't think God can do certain things. We don't think God can handle our situation. God can handle it all people. There's no problem that you have.

I remember back in my younger years when I just read all of the science fiction stuff and I said if I ever read across the spaceship, I wanted to see the technology. I wanted to know what its king and science is my natural curiosity, but would get a better view and I wanted to know. But now, I got a different view of what it is, and now, I know that no matter what it is, no matter who it is or no matter how many arms these guys, and no matter how many people, I've got stuff to deal with or just keep it on another sermon.

Let me tell you something, and it came when my mother was reading me a scripture once and she was talking about how all of the people in heaven were just standing around, just praising God, just praising to God. As I read the verse over in Revelation, it talks about how the folks will be covered with several and eyes everywhere. I said, "Father, these folks can use them." See, because I had been exposed to so much of the scientific world with extraterrestrial, that's the first thing I know. If they're covered with (00:41:39) if they got eyes all in the back of their heads and I'll say, "They're not humans."

They prayed to God, but they're not human and we don't know what it means when Jesus said, "I got it, we'll make a flame for you." We are called none of the folks that would describe in and around and the throne of God, none of them were human. The

name of Jesus covers all the humans and the non-humans. All of the demons that are manifested in the flesh and all of the demons that are manifested in the spirit. And if we can learn that power, and if we can learn to call and to trust upon that name and the power, Jesus.

My brother James said, that he got a great revelation even during the play when the character says that all of the disciples, but one ran away from Jesus when the crucifixion came. Only one stayed and all of the disciples, but that one was killed. Only that one went off to the aisle of Patmos and didn't die. Jesus said, "If you lose your life upon Me, you gain it." If you follow Jesus, if you follow the leading of the Holy Spirit, He will take you into places and it will take you into protection and it will take you up on mountain tops that you can never get in on your own.

It gave me a whole new revelation and know that the blood of Jesus, just -- because you see, sometimes, to be honest about it, people, folks is enough all by themselves. Folks are enough to deal with, but then you got all these other stuffs and sometimes you got forces then you've got spirits in high places that you have to deal with. The name of Jesus covers it all.

I don't know whether anybody in here will ever have to deal with direct spirit from another world, or another dimension or another plane or whatever it may be. But people, whatever you have to deal with, you need to be confident that the name of Jesus can handle it. And I'm glad that I got that information, because if I ever had run across that situation, if I had been like my friend riding along that country road, how in the world to call upon for the name of Jesus, because I would assume it was a shepherds and they were from another world. Now, I know that beyond the shadow of a doubt no matter what I deal with.

Call on the name of Jesus. He died and He was resurrected with all power in heaven and in earth. Call on the name of Jesus, you got to understand people, it's more than just a story, it is a thing that will get you out of some unusual situations. Because an alien abduction, whatever that was, it an unusual situation,

00:44:59

And I don't know whether any abductions are real, I don't know whether they're fabrication of people's minds. But I do know this

demonic possession is real. Folks, do have demons on them. And whether or not you're dealing with that kind of force or this kind of force, we've got to learn to please His to call and to learn to be covered in blood. You see, He died for us and He died for our salvation. But unfortunately, the majority will not fully partake of the blood. The blood is not just for over there, it's for here.

You need to please the blood of Jesus over your situations right now, but you also have to follow what Jesus told you to do. And that's why even when Jesus gave the disciples those command, Jesus said that when they met In Galilee on a certain mountain and said go there for teaching all nations, baptizing them in the name of the Father, the Son and the Holy Ghost, changing them to observe all things whatsoever I have commanded you.

He said, "Baptize them but teach them to do. Baptize them but teach them to do. Baptize them, but teach them to do." And that's the thing and that's why even when people come up for salvation, it's the baptism but the main thing is the new thing. Because once you leave this church, you have got to observe to do. And He said teaching them to do that, which I have shown. And if we do that people, so many of the things in our lives that we're having so much difficulty, that we're having so much struggle whether that sometimes, we're not abducted by aliens, but we are held hostage. We're held in chambers. We're held in a rope we don't even understand. The name of Jesus can break it.

And then we need to learn how to plead the blood of Jesus. We need to get that thing where it's on the inside of them. So even automatically when something happens, then you know really when (00:47:34) keeps you that which is inside of you comes out, that's why sometimes when people slammed their foot or finger in something, a curse word will come out because that's what's in them. You need to have it with the Spirit of God is flowing in you that any time something happens, or it comes out of you is, "Jesus!" Instantly, that we think they're in sin, and that's why brother Ivan is heavily into karate and that's one of the first things they'll tell you, is that, whatever you're really going, ever be in an effective fire and you have no time to think.

You have no time to say, "Well, I'm going to get in this thing and I'm going to throw this block. I'm going to block it like this, and I'm going to stick. You don't have time. Man, will have to beat you all up inside you and while you try to figure that out. You

don't have time. If you're ever going to meet an effective warrior, the thing must be instinctive into you where you automatically fall and you automatically do it instinctively without even a thought. And even when something comes against you, you'll need to call in the name of Jesus where it's an instinct.

To where you have the Word is so engraved in you that when you're slapped, or you're hit or knocked unconscious where you can't see a good fight. You can beat it inside your head and he could still keep going, because it's instinctual, because he's trained and he's practiced it so much, that even when he can't see, in his brain, he can still fight. You got to be like that. Because you got some things that are coming out of you and they're going to come against you, that's out of this world.

You got to stop it. And also, my brother James, he was telling me and he we went to the bank the other day and he was cashing and depositing our check and he said, a teller looked at him at the teller, he just looked on and turned around, he said, "You know it's a new age every day." Every day, something comes against you. Every day, you've got something new to deal with. Jesus went into hell itself and conquered that too. So, if you've got new age coming to get you every day, you need to need to (00:49:47) age. Because it'll come back you people, I don't care who you are. I don't care where you are, I don't care what you've got. You're going to have some coming against you.

00:50:00

But if you got them-- You see, in Star Trek, it was what they called a hand me your shield. And you know if the shield is wearing up and the enemy is firing at him and damaged the ship because the shield is wearing up, Jesus is your shield and that's why even the Bible gives you the image of the honor of God. You've got to have the shield up, because the life will send stuff against you and not just one time, but every single day.

Jesus said, "I've got all power." Now, people, what does all lead out? He said, "I've got all power." He said, "I've got all power in heaven and in earth." Where else will you going to be? He said, "I've got everything, everywhere." And that's when He said, "I've got everything, everywhere. I've got all power in all places and that's all you need." And you need to understand that and you need to understand that no matter what comes against you from

higher -- Some of you sometimes will help stuff coming at you from piling up. You'll be on the job and you got stuff coming at you from piling up at corporate office, well that another (00:51:16) don't mess with you, Coming from higher up. So, I'm down there, it will come from low down. You made me the man of the year, you cast them devils, focus, talking about taking me all kind of problems then it comes from the high up, from way down, it will come from you on the same level. Stuff will come and you got to have a shield. And Jesus said, "I've got all the power in heaven and in earth."

And that's all I need to know. See, all I need to know is, He's got all power everywhere. Then if a man has all the power everywhere, just let me know. I need to get hooked up for someone that's got all power. It's like, a power landed into a man that had all money. You see, if you get pumped up with Bill Gates, now the stock market is going down somewhat, it will take 45 or 95 billion, he's only worth about 60 billion net. What if Bill Gates was your best friend, you wouldn't have any real money problems. Because you see, he may not have all of the money, but he got enough money to help what you need. You know what I'm saying. You can all the money, but he has enough to handle what you need. Don't you think Jesus has enough power to handle what you need?

See, I only need a part of all Bill Gates' money. I mean, I only need 1% of 65 billion. How much is that, about six and a half million, 1% of whole (00:52:49) I would need -- I just need a token or piece. That's all, you see the power that's in heaven and in earth that Jesus holds in his hand is just the principal of what you need.

But you need to understand and you need to be weary of the delusion that the world will change. It's going to come and these last day's approaching -- and you see, the people that are more fooled by it, that's why it says, "the very edge." Those who've got the testament and they're looking into the alien world and to understand -- the aliens aren't going to be fooled. Those that speak so much about are part of intelligencia that the aliens are going to be fooled. And he's going to start to smoking all kind of areas right now and I don't understand the new age will real good and what it does and I want to see an age of enlightenment, it's sending folks into all kinds of areas in its sending them

everywhere away from God and they're ultimately, is making folks believe their God. That's what happened in Lucifer.

That's what happened to him, he's the devil that's following men, that's what happened to the angel of light. He came under the deception that he was god. So, as we understand the technique, the satanic voice, I'm going to start using against your children, because they're being brought up in this society. That is teaching them more and more and more that God did do this. Some gray skin, big eyes, bald head, this would really do this and it sounds funny, but you'll be surprised how deep the roots have gotten, and you'll be surprised how this whole movement and you will see more and more and more and more of it. And there's no common movement, it will take you great number of Christians away from the faith.

00:55:01

When you see that stuff, you know that that's already preached on there and I plead the blood of Jesus over family that we're shielded from all that nonsense.

He died for us people. But unfortunately, most will not drink the blood. Even his own disciples, Jesus said when he told them, "You must drink my blood and eat my flesh." They said, "Lord, it's a hard teaching." And He said many of His disciples left Him. Sometimes the things where God wants you to go and the places, he wants you to take, it involves climbing the mountains, and if you've ever climbed a mountain, it's not an easy thing, but there's protection there on the mountain of God. All power.

Now ask your selves just go through the run down and list of problems that you have. If you just itemize them in your head and act, what do I have, that all power won't solve? What money problems do I have that Bill Gates' money wouldn't solve? God has more money than Bill Gates. God lets me know, maybe I need to tap into something. What problem do I have that all power won't solve, all love? And see, when you learn and you follow His teaching, everything running your world will flee no matter what their origin.

The Bible was not really -- God didn't necessarily -- his purpose wasn't for His Son that died and be raised. His purpose was to save you. That's the bottom line, that's the purpose. And that's

why He returned and that's why He's saving again all power. It was for you. So, as you see these things and God may give you a mountain, it won't be easy and some of you have been given visions within this church and some mountain. I'm so thrilled when I and my brother -- (00:57:10), would you just stand? I'm so thrilled when I saw him standing in the door where he is the biggest man in the church. And as he stood there, it feels like an angel standing there at the doors of the church.

Do you ever wonder to see things that what they say about angels, and say, "Angels are always about eight or nine feet tall?" They're very statute, and very tall beings. And it was just like that and then brother Shorter and his wife, they've been given a vision within the church of even working with the youth. But don't you know that's a mountain. There's so much to be done, there's so many obstacles to overcome, it's a mountain. But God will always see you. Whenever He calls His disciples, He's going to send you to an appointed mountain.

He will send you in not in uphill, He will send you to a mountain. So, whenever you got to struggle with, whenever you got to deal with it and the same thing occurred with a mountain, he's going great now. I can see the manifestations of it, it's growing by leaps and bounds every day. But it started off the thing was a mountain. That no one else could understand and see the vision. It was a mountain and it will be that way in your world.

What is the mountain God has given you? There are several people right now that's hitting to you, because they say, "Lord, I know you put it on my heart, but it's too hard to climb." It's just too tough. And even sometimes, even with mountain, some of the people will ride in for advice, of a prayer of God will instantly tell me something about this situation and I'll send it back to him and tell them what God told them. And sometimes, they're going one way. Our number one person wrote in about they were having difficulties with the job and finance and God spoke that person never finished school like, I told him to.

I told him God didn't finish school and that's what he wants you to do. And then that will be your guide. But do you know that was a mountain for that person to go back and try finish school because first of all, you're comfortable in the valley. It's always a difficult thing to go and pick your climb, but whatever God has to

teach you what he has to teach you, and He'll take you in the mountain top. And now all, bow your heads.

Dear heavenly Father, upon this Easter Sunday, we pray dear Father, that the people understand the destiny that you have for them,

(Music Playing)

that you did not send your Son to die for nothing, but to die for them. And that all power is available for the Name of Jesus, for every sins they have on this earth, and beyond, if they could just grab that.

01:00:00

And dear Father, I pray right now that You bless them to see, that You let them understand it is also the mountain where they have to go with the waters (01:00:10) and Christians climb. But if You told them to go, "Go and see the mountain there will be path." Dear Father, I pray that you help them see the path, that they will (01:00:26) and that they'll have the strength and the sincerity and the dexterity to make it to the top.

And Dear Father, give them resurrection power (01:00:45) to resurrect the things in their lives that are dead. Please, let's rejoice in much power. (01:01:08) to all of the hard things. (01:01:14) Jesus. Amen

01:01:24
