Welcome to a brothers of a words, because brother you need the words.

I want you to just stay with us a few minutes today; the title of this message is called "The Parable of Dracula". And I know the minute you heard that you said what in the world is the parable of Dracula? What in the world can be the message that would come from the Christian view in the parable of Dracula? Well hold on, I am going to show you seven things dealing with Dracula that you face the world with this. And there is no one who would pull you people to deal with some demons on this day. Demons that are present in the bible in the New Testament means keeping watch over the demons or devil were the ones the disciples were in charged to do and the goal was to force and cast out the demons now. If they will pull a demon back at me, do you not think there still is a demon present in people today? Do you think demons took a vacation? Do you think people believe in Angels but not Demons? You can not believe in angels without believing in demons. So if one of them exists, the other one exists. And Dracula has some story. It was a parable written to show up some ways to show the Jews and to show you how this thing parallels to some of us today when we deal with some robbing like some blood sucking creature that takes joy away, and you do not know how to deal with it. And so, the parable of Dracula is real. We still have to partner up and think of how to aim for avoiding Demonic influences. They are just as a friend today if not more so, than the word and the times of Jesus.

Dracula is really a modern day parable of our trouble with the devil. Luke was the one who said, "Then he called his 12 apostles and gave them power and authority over all devils and the cures of diseases and he sent them to preach the kingdom of God and to heal the sick. For Timothy 41 says, "Now the spirit speak it, so that in the latter some show the part on the faith giving him power to seduce the spirit for the induction of devils." The bible say that a lot of people is going to be influenced or seduced and will follow the doctrine of demons. Do you know some people right now are listening to someone reading demonic doctrines and they do not even know it?

In a latter days, and even in Revelation 16:14 the bibles says this, "For they are the spirit of devils working miracles which go forth until the king of the earth and of the whole world comes, and the end of the battle of that great day of God Almighty. These miracle working demons curse all the rulers of the world together for battle against the law, on that great day of God Almighty. It is the demon on the last days that were pretending to be miracle working demons, not even ordinary regular demons but miracle working demons. So, you have demonic forces that are always havocking here and until they are destroyed you see that the devil is ruling. But he is ruling right now, yes those work out stand and look around. Some of you have to look in the mirror if the devil is defeated in the world when he is ruling right now.

He has a power. He has an influence and has more people. The words say, there are always to help more people so you have to learn scripture, if not they would have influence on people a whole lot more. If not of His word the devil would have 51 percent of the people. No, that is how wide the pain is. Lead it under the word and while many arouse him, there area few who is in the right way of living even when devils have wide full pass of hope and Christ has a small narrowing of people.

Do you not know that the power and some influence of the devil would be in multiple that of the souls and the people of what God has? So, you need to know how to deal with somebody's stuff, and how to deal with some of the seducing spirits. Let us say anyone in the Mythological story of Dracula, Dracula fundamentally always had two things. And you could always tell if someone has been bitten because they had puncture marks on the neck. The first, Dracula was a representation, a literary and a mythological saint of the detection of the devil. It is very realistic when you go analyzing all the stuffs. Choose clues of how you can handle the demonic devilish influence of the things and the dark forces of the world. Is there anyone who has seen a Dracula movie? That popular Dracula movie out there and this Dracula is perhaps one of the most enduring of the horror things. You have Dracula, you have Frankenstein, and you have Wolf-men. But basically it is Dracula who is the most enduring of all of the horror creatures. There have been more movies about Dracula and more modern movies in particular about Dracula and Vampires than virtually any other Mythological creatures, because it has stories of the fight between good virtues and evil. If you confirm it in a Vampire story, the vampire cannot harm you and cannot damage you, and cannot bite you as long as you hold the cross of in front of you which you will see in the movie. That is why Jesus said in Matthew 13:38, "he who does not take his cross and follow after me is not worthy of me." He is not talking about in particular physical action. A Demon cannot bother you as long you bare with you the cross. It's a simple principle that in Dracula that too many of us have not taken up a cross. We would not choose to die and if you are going to take His cross, could you follow Jesus? Your sake is on the cross and we know whose cross it is. Any demon in hell cannot bother you. Take a cross up in front of you, you are holding up Jesus. He is not a cross and that is why we have too many problems. That is the first rule of fighting the demon. Put the cross in front of you.

Second thing is this; no Vampire can come into your home unless it is invited in. Dracula cannot come into your house unless you mean to invite it. No demon can come into your world unless you invite it. They do not grasp you and strap you down and stick a needle in your arm. You invited the demon in. You opened the door when he knocked. The demon may knock but you must open the door and you have the choice of opening the door to evil. You have

the choice of inviting him in and if you do not invite him into your world he cannot come in. People keep showing stuff and if you feel the evil in it, Dracula must be at the door waiting for you to be invited saying, you can kick the risk out but I am going to put my toe in and you have to invite me into your world. I want to put a spell on you. People should not let Dracula get his foot in and should kick the rest of him out. You do not have to understand what a demonic hears is to see that the demon is at the door step and we know we could live without it. The other thing about Dracula, he was always the pretty good looking man. He was never really ugly, and in the sky he was the black looking man. He was romantic, he was that seductive spirit. Even when he was going to be destroyed, he still always looked good. He always makes promises but never delivers. He always looked like he is something that he is really not. On the surface, he looks beautiful. So when you see the real person, he is a monster. Dracula had a whole lot of meaning and the right one was to tell all of the Christians how to fight the demonic influences. Dracula and all vampires are destroyed by the lights. Anytime they walked into the lights, they turn and burn into nothing but ashes. You can see it as getting the light on your situation. That's why the vampires could only operate and only have power in darkness. That is why the devil is called the "The Ruler of Darkness". That is why Jesus said, I am the light of the world. If you can ever get the light on your situation you will destroy some of the demons. Demons have to operate in darkness. So if you woke up and tell the truth, if you really knew; if you really could see; if you really have truth in your heart, mind, and spirit and act on the truth, the demon will have no choice but to burn. So that's the way the demon worked, he kept you on darkness and made you feel like the darkness was the light. He made you want the darkness and made you feel comfortable. That is why all of these messages use the dawn and the dark. If you turn to the light, you can get away from it because we cannot stand the light of God.

Fourth thing about Dracula is holy water burn them up. Water has always been a representation of a light of spirit. If you throw holy water on Dracula, it would burn him up. If you let the holly spirit in, the demonic spirit cannot reside in the same place, so one of them has to go. If you can get the Holy Spirit in, the demon will then go out, and I don't care how you get the Holy Spirit in. How it manifests whether you shake, whether you laugh. The demon cannot reside because holy water or Holy Spirit will force him to come out.

The fifth thing about demon, and the demonic spirit, and about Dracula is that they discuss them to you and you cannot tell whether they are a devil of the natural act. They look good not as some people think that they look dead. You cannot tell if they are devil with a natural act and you need the Holy Spirit to be able to think and tell. That is one of the gifts, the gift of the son.

One of the gifts is to be able to recognize the devil. Do you know that if we had the ability to recognize evil, it would keep you out of a lot of trouble? If you want to recognize evil, you are going to have the desire for the spirits. You need the spirits to be able to tell if anything is good or bad. Do you know that the sermon of spirit would not pass that one gift along? Do you know if you can just look and guess if the person before you is married before you date? Do you understand what I am talking about if even before you go to work on the place, if you could just look and deserve the spirit of the thing you are working on? Do you know that popular advertisement with a lot of hate that of the cigarettes and everything that they advertising with the cigarettes were dead? The heat of the storm was beads around the cigarette. And I remember the scene of the billboard. Let us not even discuss this anymore. Once the devil had so much power, he did not need to discuss. So he is the ash and you are hooked on it. Once I get hooked on the cigarettes, if ever I lose a pack I am going to kill you. That is the right of the fact. He knows the naked sky and even if he is going to kill you, you still are hooked.

The sixth thing is that vampires have the power to make the sky lumpier. Do you know once bitten, they become a vampire too. Matthew 23:15 is actually talking to describe a law in perverted hypocrites. You travel all over the sea to win a single convert and when he becomes one, you make him twice as much a son of hell as you are. He is calling you that son of the hell. What is this? If the son of the hell is not the demon, what is this? He describes the son of hell. And you strive to through and fro. Let us say the demons came out and he wants truth and faults in a rough place. He said he wants you to get a convert and when you get a convert you make him twice the son of hells so make him twice the devil and twice the demon as you are. A Vampire has the ability to make other vampires. So, when you get a person sealed with demons, if you get around and you get involved in the bad world, then you will become full of demons and it is possible that you will become a worse demon in the castle of whom you associate with.

Seventh thing about the vampire, a vampire cannot see his reflection in the mirror. One of the things is that how can we be locked in the mess if we can see ourselves? Do you know we got some stuff which the government is not doing? You know this city is like this? You know the world was doing this? My wife is not doing this? But if the vampire stands on the mirror, he cannot see himself. And it is part of the demonic influence when it gets you. You can see everyone else but yourself. And you are not able to improve yourself until you can see yourself. As long as all you can do is see everyone else in faults, then everyone has faults. I mean if looking at anyone who have faults as such, it may make just as so. Everyone has a thought and when we come out of the womb, a baby hears that thought. Everyone starts from a cradle to the grave and every human being has faults. The demonic influence will have you

focusing and looking at everybody else as with fault. You cannot change anyone but yourself. The demon will help you stand in front of the mirror looking at everyone else but casting no reflections upon yourself. And as you can see yourself, you were never improved. You will never be changed. As a matter of fact, you get worse. And the vampire has super natural strength no human can do anything about it. People, you can kill the demon with your own strength. Matthew 19:2, if you reach man at the end of the kingdom of heaven, his disciples was thinking who they can be safe with. The disciples said, Lord we cannot bunk this thing, and if we cannot bunk this thing who in the world can be safe? Who can be safe? You can wrestle with the vampire. The devil held the angel often in the air and said, you should fret because you cannot defeat me. But Jesus beheld them and spares them off. This is impossible, but with God all things are possible.

People, we see demons everyday through the television, through movies, through printed materials, through the radio, through the stuff in the news. Dracula is exactly hated Jesus. Jesus gave his life for your life, and Dracula could only suck your blood and take your life. The Dracula spirit has more people than the Jesus spirit, because we do not recognize what we are fighting. Dracula has a big house in town. He has a castle when everyone else has huts. Dracula had a castle, so he was royalty. He was the prince. That is why he is prince of the ash. He has plenty of money, he has plenty power he has plenty ability to deceive and he was super natural. You can bit it by yourself. You need help, you need the cross, you need some holy water. You need some Holy Spirit to improve you. You have to be able to deserve, and you have to be able to recognize what kind this spirit is.

Ladies and gentlemen, I hope that you heard the words that I spoke today. And that you are able to cuss the evil spirit out of your life. Thank you for joining us today as brothers of the word, because brother you need the word.

Amen.

I do not want you to be afraid, not of Dracula or devils. The bible effect is that you would not be afraid of anything. But the fear of the Lord is the beginning of when any Demon can do you no harm. Do you know that that is why I go anywhere with no fear what so ever. I have seen the divine protection and I know that the Holy Spirit can save me. That I am walking with someone through all that. But you have got be careful with evil and in inviting the wrong folk in the homeland. That you are going to cuss out and until you recognize that, you are cheated by Dracula, you only guess and think of what the world truly is. Until you cuss them out they will continually bring destruction and steal the life from you. And if they promise you eternal life, it is only a life in the darkness for a relatively short period of time. God is kind

to lead you now unto a light where no demons can live. I know you heard it many times in the word. But in the real world, demons are real, and you think they are real and you do not believe the bible as simple as the excellence. There are some times you may be able to cuss them out. Demons are real, they are real. And then after you and your children, and the less we recognize, the less we know. Even in the church they have that movie.

Amen.

Well stand on your feet and take a cross.

Lord we thank you for this masses offered today. We thank you father that as long as we have you with us then it is already at defeat for you are our light.
