PASTOR NATHANIEL: Welcome to Brothers of the Word, because, Brother, you need the Word.

(Applause.)

PASTOR NATHANIEL: Today I am going to show you, as I promised a few weeks ago, where we are in the Bible specifically. I am not talking about in just a general sense, but actually in a specific manner. So it is something that is particular, and it is relevant to this particular ministry. For those of you who are here, for those of you who watch on television, for those of you who listen through AirJesus.com or receive Mountain Wings every day, it is something that is particular to this ministry; but you need to know it and you need to know some of the prophetic destiny and utterances that are actually in the Book itself.

First of all, I'd like to ask those of you who are here today, how many of you are familiar with or have heard of or read the book called "The Bible Code"? Raise your hands, those of you who are familiar with it. Some of you are, and many of you are not.

"The Bible Code" is a book written by Michael Drosnin, and it deals with the discovery that within the Bible is written virtually all of the major modern events, comprising of events, as well as people; and the code within the Bible consists primarily of the first five books of the Bible, which are the called the Pentateuch or the Torah. The first five books of the Bible contain within them a very complicated and difficult to decipher and pull out code that can only be pulled out with a computer. It is based upon with the spacing of a numerical sequences of lettering that if you can break the code, then you can understand some things that are actually physically written in the Bible. It can only be done with a computer; there is no way a human mind can do it.

As I read the book and began to understand some of the things that it was talking about, I became amazed at it, but yet not surprised, for God's level of intellect is beyond what we can even begin to imagine. Then I began to understand why He spoke that not one jot nor tittle of the Word could be altered. Even in the olden days when the Scribes would transcribe scrolls, if they just messed up one jot -- and a jot is the smallest mark that you can make it in the Hebrew lettering -- if they messed up on just one single jot, they had to tear up the scroll and start over again. So it had to copied absolutely flawlessly; there could be no errors, there could be no changes in the original text.

Then I began to understand as I read "The Bible Code" why God was so particular that not one jot nor tittle of His Word could change, because if a jot changed, it would change what was in the Bible code.

I just want to read the introduction of the book, so you will get some understanding of where this came from and what its basis is. "Reporting is the first rough take on history." The fellow who wrote this actually was a reporter. "This book is the first full account of a code in the Bible that reveals events that took place thousands of years after the Bible was written, so perhaps it is the first rough take on the future. We have just begun to understand the Bible code. It is like a jigsaw puzzle with an infinite number of pieces, and we only have a few hundred or a few thousand; we can only guess at the complete picture. The only thing I can state with certainty is that there is a code in the Bible, and in a few dramatic cases, it has foretold events that then happened exactly as predicted. There is no way to know if the code is also right about the more distant future. I have tried to deal with this story the way I have dealt with every other story as an investigative reporter. I've spent five years checking out the facts. Nothing is taken on faith."

This man is not a religious man; he is an investigative reporter.

"I have confirmed every discovery in the Bible code on my own computer using two different programs, the same one used by the Israeli mathematician who first found the code and the second program written independently of him. I also interviewed the scientists in the United States and Israel who investigated the code. Many of the events described in the book were witnessed by me. Accounts of other events are based on interviews with persons directly involved or were confirmed by published news reports. Detailed notes on each chapter, notes on all of the illustrations and a reprint of the original experiment that prove the reality of the Bible code appear at the end of the book. My goal has been to report what is encoded in the Bible exactly as I would have reported a story from the police blotter when I was at the *Washington Post*, exactly as I would have reported a story from a corporate boardroom when I was at the *Wall Street Journal*. I am not a rabbi or a priest, not a Bible scholar. I have no preconceived beliefs and only one test: the truth. This book is not the last word; it is the first report."

So here he goes into giving some basic background of his investigative insights and what he went through as he began to investigate the Bible code. I want to read you the first page just that of Chapter 1, and again it will give you a little bit different insight.

"On September 1, 1994, I flew to Israel and met in Jerusalem with a close friend of Prime Minister Yitzhak Rabin, the poet Chaim Guri. I gave him a letter, which he immediately gave to the Prime Minister. 'An Israeli mathematician has discovered a hidden code in the Bible that appears to reveal the details of the events that took place thousands of years after the Bible was written,' my letter to Rabin stated. 'The reason I'm telling you about this is that the only time your full name, Yitzhak Rabin, is encoded in the Bible, the words "assassin that will assassinate" cross your

name. That should not be ignored, because the assassinations of Anwar Sadat and both John and Robert Kennedy are also encoded in the Bible; in the case of Sadat with the first and last names of his killer and the date of the murder and the place and how it was done. I think that you are in real danger, but that danger can be averted.' On November 4, 1995 came the awful confirmation: a shot in the back from a man who believed he was on a mission from God. The murder that was encoded in the Bible 3,000 years ago. The assassination of Rabin is dramatic confirmation of the reality of the Bible code, the hidden text in the Old Testament that reveals the future."

Now, the book goes on for over 400 pages just dealing with events of the future and the encoding and showing you many of the events of the past and how all of that stuff was all encoded in the Bible thousands of years ago. It shows that God knew the future.

In Isaiah 46:9, it says: "Remember the former things of old for I am God, and there is none else. I am God, and there is none like Me. Declaring the end from the beginning, and from ancient times the things that are not yet done, saying, My counsel shall stand, and I will do all My pleasure."

God says, "I declare the end from the beginning." Now, much of the stuff dealing with the end is in Revelation, but it's encoded. You know just even in plain English, you can't understand a lot of the stuff in Revelation. God says: "Until it is time the seals cannot be opened," and no man can truly interpret this. So even when the stuff is in plain English, you can't understand it. So you can imagine when God wrapped it up in a mathematical code that only a computer can break; but yet even our best scientists, the best scholars, the best prophets, they have not been able to break truly the code of Revelation.

You know, every few years, you've got somebody else telling you the time is near and Jesus is coming back; He is going to be back next year. All of you have heard that. They have given dates and times; they have had folks standing out waiting under one big roof. None of the stuff has been accurate!

So people cannot even interpret the signs of Revelation yet; so what you think and how difficult do you think it is when you get to a mathematically encoded message that's in the first five books of the Bible? It even becomes sometimes more difficult and more cryptic, and even when this man found it with Rabin and he saw his assassination there and he went to try to tell him, they wouldn't listen to him; and because they wouldn't listen to him, he ended up getting assassinated.

So sometimes God can bring you revelation; but for one reason or another, I've seen people run from prophetic stuff, because they just didn't want to hear it, because they knew they were in the wrong. You know, when you know you're doing it, you

don't really want that. I have had people scared of me, and they've seen me operate in a prophetic realm and they are worried that I can just see through their lives.

(Laughter.)

PASTOR NATHANIEL: They are worried that all of the stuff that they are doing is just an open window to me and I can just see it. I can't see all that stuff!

(Laughter.)

PASTOR NATHANIEL: So, people, don't worry that I can see all that stuff. And some people literally will run. We have had prophets come, and when he spoke some true stuff, they were scared to come back. So oftentimes I've seen this happen. I've seen it happen with atheists who didn't believe in God. Yet when a prophet spoke something to them and they knew it was accurate, they ran like jackrabbits from it.

(Laughter.)

PASTOR NATHANIEL: So the prophetic word, sometimes we cast it aside because we don't believe it, and other times we cast it aside because we just don't want to hear it, because we know we are walking the wrong path and we don't want anybody to see into it. You know, it takes an extremely elevated spirit to be open to correction. Do you know that? I mean, it takes an extremely elevated spirit. Most folks if you correct them, some people just say, "Don't correct me."

(Laughter.)

PASTOR NATHANIEL: "Don't correct me." They are not saying that they know they are not wrong; they just don't want to be corrected. So it takes an extremely elevated spirit. Most people if you try to correct them, no matter how kind and tactful you try to do it, they get offended.

So it is difficult to bring a Word that people really don't want to hear, and when the man brought the Word, "Look, the Bible says you are going to be assassinated," that was not something that he wanted to hear.

So oftentimes when you're in that kind of position, first of all, you are going to get a thousand crackpots bringing you stuff. So how do you even separate the real from the crackpot? So I can understand in his position that you can't take everything someone brings to you. You can't even take 90% of the stuff people bring to you in that realm, especially the Prime Minister of Israel. So I know he had a whole lot of stuff coming to him, but he could not accept all of this.

So what does this have to do with us here in the Ark of Salvation? When we first read the book “The Bible Code”, I believe I first got the book and told James about it, and he went in and got a copy and read the book. When in the book it said that man who wrote it, the investigative reporter, had gotten the computer programs, he checked the stuff himself.

So James went searching to find the computer program, so we could put the stuff in “The Bible Code” program and see some of the stuff ourselves. So, now, if you were in ministry and had a whole lot of prophetic stuff on you and you had “The Bible Code” program, w the first thing you would check?

Exactly. See, the first thing you are going to check is you! So that is the first thing that we checked is, “Let’s see if the Bible has anything encoded in it about us.” We put every name that we could think of, every name of ours, I put Mountain Wings in because Mountain Wings was huge and going to over a million people every day. I said, “Surely, if Mountain Wings is this big and is touching people all over the world, it ought to pop up in the Bible code.” Nothing.

I put AirJesus in to see if that was there. Nothing. None of the websites popped up anywhere at all in the Bible code.

We put thing after thing after thing in, just to see is there a hit. Is there something in the Bible Code? Is there something where God will speak and let us know that we have been written in this Book.”

Now, understand this. Actually, I put all the results of our findings on the website. You can just go to AirJesus.com, click on the sermon site, and there on the left-hand side you will see Handouts. If you just click Handouts you will see we are in the Bible; “The Bible Code”, click on that. It will print the name of the program, it will print the parameters, it will show you actual pictures of the screenshots. So everything that I’m saying, we actually have the documentation there online. You can go yourself, you can look at it, and you will be able to see it for yourself.

Now, today, I may not be as perky as I normally am, because we are on a fast and I am just about to complete the sixth day with just water. So normally, when you are going that long with no food, you are just not as perky. So I am not hopping up and down and talking real loud; but I feel today better than I have ever felt before on a fast.

Maybe perhaps we’ve done something a little bit different. We are taking a product called The Cleaner, and there are two things that I’ve noticed that it has done for me. First of all, I have felt good all through the fast. Sometimes after you go about three days, your energy is just shot; you are just dragging and can just barely make it; every piece of food you see just excites you; you know, you are just drained.

But I have not had hardly any of that, I have felt good the whole way through. You know, you don't go on a fast to lose weight; that's a wrong thing to do. But it does happen. You don't go on it because it will cause your metabolism to slow, because you'll gain more weight after you come off the fast. So you never go on a fast for the purpose of losing weight; it is for the purpose of cleansing.

But I've noticed I have lost a pound and a half per day when normally when I go on a fast I only lose a pound. So The Cleaner has kept me where I don't feel drained, and it has helped me even to clear out 50% more stuff than I normally would.

So for those of you who really need a fast and to go on a cleansing, just again go to the same website, AirJesus.com; click on Handouts and you'll see The Cleaner on it and you can read all about what we are doing.

But as we put all the parameters in the Bible to check ourselves to see what was there, none of the websites showed up. We put all of our names in, and we put the name "Bronner" in, and out of that we had two strong matches. The first match was when we put "Bronner" in, and the first occurrence that occurred in the Bible -- now, see, any time a word occurs in the Bible, it has to be in a verse somewhere because it's in the Hebrew; it is in the Pentateuch, the first five books of the Bible. So if it is there, sometimes it is going up and down, sometimes sideways, sometimes diagonally; but that's why it takes the computer program to find it and to see it. It has varying parameters that you can change the search tightness in, and all of that is on the website in the document that is created there for you to check this and see for yourself.

When it pulled up the name "Bronner" -- and some names it just didn't pull up at all; but when it pulled up the name "Bronner", it was in a particular verse that when we saw the verse, we knew God was speaking to us. The name "Bronner" is in Genesis 6:19, and this is what that verse says: "And of every living thing of all flesh, two of every sort shalt thou bring into the ark, to keep them alive with thee; they shall be male and female." That's what was written in the Bible itself in the Bible code corresponding to the name "Bronner": "They shall come into the ark, two by two, male and female of every living thing."

When we saw that, that just sent something through us to let us know that God has preordained; God knew the Ark was going to be here thousands of years before the first stone was ever laid.

(Applause.)

PASTOR NATHANIEL: The thing is, when you even look at the ark, the ark only had eight folks in it: it had Noah, his wife, his son Shem, his son Ham, his son

Japheth and their three wives. So what the ark had in it was daddy, mama, three brothers and their wives. So when I saw that ...

(Applause.)

PASTOR NATHANIEL: Now, mama is sitting out there in the audience; daddy is looking down from Heaven, the three brothers are sitting up here in the pulpit, and the three wives are out there. Now, my wife is not here today; she wasn't feeling well, but the other two wives are here. But the thing is, the Ark has within it mama, the spirit of my father, three brothers and three wives.

(Applause.)

PASTOR NATHANIEL: You know, I don't even know of a church, and it's not just three brothers in the church; it's actually three brothers sitting in the pulpit. There are three brothers in the Ark, because this pulpit is like an ark, and it was built like this long before we ever had it. We just found out about this stuff in "The Bible Code" about a year ago, and this has been here for 12 years.

So God knew that you would be here, that we would be here, thousands of years before we were ever here. And the thing about it that really shook us, He didn't put that in "The Bible Code" for what we have already done. The things that were in "The Bible Code" are serious. Now, there's a lot of big ministries that we couldn't find here, and it has nothing to do with the reflection of the great things that you are going to do for God. But for some reason, God felt it important that He wrote the Ark with "Bronner" in it with the three brothers and mama and daddy and the three wives in the book itself.

So when we saw that, it just sent something through us. So you know that you are not just in a Divine place; you are in a Divine place that God divined and orchestrated and set in His Word thousands of years ago. And He knew that it would only be now that we would be able to decipher and pull out the code.

The second incident that occurred was, one name out of all of us popped up in the Bible code, and that name was "James Bronner". He has had prophecies on him where people have seen and they've pointed him out and said he is going to be the greatest one of us all; he is going to do some things, he is going to be in world leadership. So I am perhaps closer to him, perhaps closer than anyone other than his wife, and I can see within him that kernel, that potential of leadership, of analytical ability, of drive, of energy and the obedience to God's Word. I can see that in his name.

The verse where his name is written, that verse is Genesis 30:19, and it says this: “And Leah conceived again, and bare Jacob the sixth son.” For those of you who don’t know, there were six brothers of us; James is son number six.

So the thing in the Bible Code is deep and it is specific. God has written this into the code itself, into the Bible itself, that not one jot, not one tittle of the stuff, can be changed. So we see much of this, and this is what has really kept us. It hasn’t kept us going, because we were going before then; but it gives us an additional shot of inspiration to let us know that God has seen, God has ordained and God has already foretold. He didn’t tell us what we are going to do; all He did was put it there to let us know, “You are going to do something.”

Turn to the person next to you and tell them, “You’re going to do something.”

CONGREGATION: You’re going to do something.”

PASTOR NATHANIEL: That’s all He told us. There have been some prophecies spoken over this ministry that I just can’t even see how all this stuff is going to come to pass. But God already knows what we are going to do. He already can see the future. He already can see the destiny, and that’s the same way it is for some of you. Some of you can’t see how in the world you are going to fulfill some of the stuff that God has laid upon you and laid it in your heart, but God already knows, God already sees, and in many cases He has already spoken it. If you can learn to hear, if you can learn to decipher the code, if you can learn to understand it, then you will be able to move in God’s destiny.

As I prayed to God, I said, “Lord, is there anything else you want me to tell them?” He gave me one verse. The verse is Matthew 13:5. Along with prophecy, when you read the prophets in the Bible, actually about three-fourths of what they said wasn’t real good; you know what I’m saying? They brought some stuff. That’s why Jesus said, “You kill all the prophets before Me,” because a lot of the stuff they had to say just wasn’t real good. But this is what Matthew 13:5 says; I’ll read the New King James Version: “Some fell upon stony places, where they had not much Earth: and they immediately sprung up, because they had no depth of Earth.” Then it goes on to say: “But when the sun was up, they were scorched, and because they had no root, they withered away.”

Some of this revelation and some of the Word is going to fall on Earth that has not much depth, and the minutes trial and tribulation comes, that Word is burned up and scorched away. That was the Word He told me, so I just had to tell you exactly. I can’t change it; that’s what He said.

I can understand what God meant with that. He means that when you get ready to go where the true ultimate destiny is going to be, some are going to be with you and some are going to fall away. It is the way it was in the old with the prophets.

I am out of time. If you would like to hear this message again, simply go to AirJesus.com. You can hear here it in its entirety or forward it to a friend absolutely free. This is Message No. 5332. You can email it free of charge, Message No. 5332, "We Are In The Bible."

We thank you for joining us today at Brothers of the Word, because, Brother, you need the Word.

(Applause.)

(Music.)

PASTOR NATHANIEL: Amen, amen, amen. For those of you haven't read the book,, it really is fascinating reading. You might need to read it so that you'll understand that your church and your pastors are written in the Bible code.

I am going to let C. Elijah close us out today. He is a part of the three brothers who were in the ark, and each of us has a destiny. Each of us has greater things that we will do for God. We just have to be diligent and follow through, because the greater the stuff is you have to do for God, the greater are the attacks that come against you and the more difficult it is oftentimes to follow it. So I just want C. Elijah to close us out today. He was the one who actually piloted the ark for the first five years. He was the Noah. So I want the original Noah to just come and just close us out for today.

(Applause.)

PASTOR C. ELIJAH: Praise God! Give God a hand for a wonderful Word.

(Applause.)

PASTOR C. ELIJAH: Praise God. We thank God for the tremendous insight into the Bible code and showing us where we are in the Bible and the great destiny that is ahead of all of us. So we are just grateful to God that we are part of His Plan, His Divine Plan. I don't believe that we are named the Ark by accident or coincidence; but I believe that this will be a shelter for the end times ...

(Applause.)

PASTOR C. ELIJAH: ... and that it will be a place of refuge. So we are just grateful to be a part. This place is rich with destiny; it is rich with dreams; it is rich with the deposit of God and just a bright and glorious future for us all.
