Thank you for tuning in to brothers of the word, because brother you need the word. And I just want to let you know the day before I begin that this may not be the best lesson to just shout on the day and make it quiet in here at times but I am not here today to make you shout and scream, I am here today to give you the word of the Lord; for this hour; for your life. And if you would listen and not be offended and take note of it and put it into practice, I can guarantee you that this message will take your life to a new level from where you are right now.

Two weeks ago, the pastor and I were talking about different spiritual things and we got on the subject talking about spiritual levels that one could attain and God begin to minister the pastor about some of the individuals on the earth that had attain very high spiritual levels and I told pastor to ask God if he or I would ever have future as we keep developing and growing in Him; if we would ever get to those levels in the spirit. And he instantly heard God, and God answered him and said, "That that is not the correct question." He said, "The right question is, are you willing to make the sacrifice?" And that is the question that everyone listening to the sound of my voice has class. One of the people God mentioned, we knew they had plenty of money and a lot of fame, and were selling books all over the world, and we say, well this person they have made it up to their high level and look like they have it pretty easy. They did not have to make as much sacrifice. God spoke to the pastor again, he said, "You do not know what this person is going through to get where they are, right now." He said, "Nobody knows when they look at them on the outside to know what they went through to get to where God has brought them.

And I ask you the same question that God has both of us and I speak to you today from that very question entitled: What are you willing to sacrifice? Turn to your neighbors seating next to you and ask them, "What are you willing to sacrifice?" Turn to the other side and ask them, "What are you willing to sacrifice?" And the book of John chapters 16 verse 21, and then he says, "A woman giving birth to a child has pain because her time has come, but when her baby is born she forgets the anguish because of her joy that a child is born into the world." And most mothers if you will talk to them and ask them about the pain they are going through in their life from pulling teeth, root canals just different things; hitting the funny bone and stuff when you talk; all through their life, most of the mothers if you ask them what was the worst pain you have been through in your life? Most of them will, if they are mothers they will tell you, "Child birth."

There is something about child birth that is the most painful experience of the entire lives and you ask them a second question; "When you think back all of your through your glory years and all of the fun things you did in life, what brings you the most joys out of life?" And if you listen to any mother long enough, she is going to go and talking about her children at some point. And it is no accident that that thing which has produced the most pain; the most sorrow; the most anguish in her

life is the very same thing that has produced the most joy; the most memories; the most smiles when she thinks back; the most conversation. No accident, it is the same thing. And I just want to reach something that I wrote that is published on the website prior to spirit.com; it is entitled: "It is worth it all" and it just gives you a feel of what I just mentioned. It reached; I dedicate this to my four month old daughter, Genesis.

When you lay on me this morning in bed and looked at me with those big brown eyes, I told myself that everything I go through for you, is worth it all. When I smell the sweet residue of milk on your breath, I knew that every diaper change is worth it all. When I smelled you and the scent of your hair with no perfume or shampoo, I smell the fragrance often known as baby scent. I knew that every bottle refill is worth it all. When you lay on my chest and I felt your little heartbeat against my big heartbeat, I knew there was no stronger love in all the world and realized that every day that I go to work to pay the bills and to provide for your future is worth it all. When I see you struggle with everything and you just crawl one foot, I know that you will be an achiever and will do whatever you put your mind too. It inspires me to do more and be more. The first time I hear you say, the ever so simple words, "dada" it will be the greatest speech I will ever hear; and the one that I will never forget when I look at you and see the features that came out of my DNA, I know that I will live on after I leave this earth. And I that every cry I sooth is worth it all.

When I am awakened that night because you are in discomfort, how can I sleep when you cannot sleep? If there was a way I would take the pain myself. I could sleep better with the pain than watching you in pain. Even though it will be years before you can read this, I feel that you understand it when I squeeze you, yes in my heart and hold you there until you get restless. I think that you understand when I sing to you even though you do not know what the words mean. I never thought sharing could be so easy as it is when I share my bed, food, and time with you. When I realize all of these, it is only then that I understand that we are God's children. And if He lifted me like I looked at you, then I know that He will always love me. And I finally understand the love, grace, and mercy that He shows me, my child I love you. And actually it has pictures and music and so full of mini movie, if you want to see it just goes to the website cryofthespirit.com, and watches it. How many of you can tell that came from the heart now?

What are you willing to sacrifice? Even if you will never get to the highest levels of spiritual attainment in your life, you at least have the ability within you right now to move to a higher level than what you currently own. But in order to do so, you are going to have to make some sacrifices, and I am not talking about spilling the blood of an animal believe or not, that kind of sacrifice back in the old testament most sacrifices that they did was for the purpose of trying to remove some kind of disobedience or sin that they had done against the law of God. And that is why the

bible says, in 1 Samuel 15 and 22: "To obey is better than sacrifice." God is glad to have you obeying His commandments than to disobey them and try to kill something else to make up for it. And we no longer have to do these animal sacrifices because Jesus has paid it all. He wants us today to make unto Him the sacrifice over obedience.

And everyone in the church cries out to the Lord, "Lord I just want to hear your voice. Lord I just want to know your will for my life. Lord you just speak to me just guides my path Lord everything will be alright then if I just knew your will." But I am here to tell you today that what He really tells you His will is not going to be what you want to hear, it is going to involve some sacrifice of our own will. What we really mean when we make that cry out to God is, "To Lord please confirm what I already want to do, please Lord confirm to me the things that I already want out of life. That is what we really mean.

And this is a generation that does not want to sacrifice. We want to use the microwave instead of the oven. We do not want to sacrifice the time it takes to cook. We want to play the lottery instead of investing; keep our tide instead of give God what is already his; and we do not want to sacrifice our life. We want to eat what we want to eat. We do not want to sacrifice our appetite. We want to watch TV instead of read; we do not want to sacrifice our entertainment. Kids, they want to play video game nowadays instead of go outside and play like we did when we were growing up.

They no longer want to sacrifice the energy it takes anymore to play baseball, and basketball, and football, and jump rope and hula hoop outside. They do not want to make the sacrifice; they would rather see a tarot on the TV do the same thing and expand the energy. Most sacrifice they want to do is just work in the thumb on the left, so I say, I may have heard some kids now they were so lame they took my big thumb I need a break from the gang. They are taking time out so give a thumb a break. Some other thumb is out of energy. I would tell you, sacrifice. We do not want to pay the price that is required.

Brother Gary Randall he can tell you about me as much work as he puts in that class to help take people to a new financial level; he reads all kind of books and all kind of counseling and experience. He wants to have a handful of people that will show up for the class each month. But if we are now saying that this church that God is saying we are going to have this money magnet anointing service, and you are coming out and we are just going to leave here and money is just going to flow into you. I tell you this place had been packed out if that was all that was required if you could give a touch and the money just flow in, but Brother Randall is teaching the ways of them on how to manage and have more resources and only a handful come and goes. We do not want to make the sacrifice.

So out of three of our marriages even in the church are ending in divorce today because people do not want to sacrifice for the other person. Everybody is only concerned about their own little needs; and couples do not really want to listen to each other because they do not want to sacrifice their own opinions. Most people never start a business not because they are working so much or because they just do not want any more money, not because they just do not want a business, but they are not willing to make the sacrifice.

It requires you saving your money, for save money. Figuring out how to write a business plan; going to get a loan from the bank; doing all kind of research and putting in all hours with little pay. It is just too much sacrifice so we do not take the risks and the sacrifice, the church is; and I hope I just do not step on any toe but I am not here to preach to make you shout today, I am here to take you to another level in your life.

The church is the most overweight segment of society today. Every church I go everywhere and everywhere and every church in the country knows that exercise and better diet will help them to lose weight. They do not need anybody else to tell them that. They do not need to read a book or watch a documentary on weight to know that, everybody knows that. But they also know that exercise and change in their diet, it takes sacrifice. And raise your hands in here if you want to go to a higher level in your life either spiritually, physically, financially, or relationship wise. Let me just see a hand.

I think that every hand is here; alright you can put your hands down. Now listen on this next part; now you already raised your hands. Now tell yourself, just take a moment and think about; listen carefully, what you could do in your life that would have the greatest chances of taking you to that level that you just raised your hands for. Think about what you could do in your life that will have the greatest chances of taking you to that level. Now be honest, I did not say, that think about that just where it will take you to that level. I said that you could do, because somebody would think I could hit the lotto that would take me to the level. I said, that has the greatest chances that you could do, that would take you to that level.

Now raise your hands again if that thing that you just thought of that you could do, would require some sacrifice to do it. Again 99% of the hands are up, hands here. Now the real reason we do not take actions and we just thought about it because we are not really ready to make the sacrifice. When you are really honest with yourself that is the real reason in the majorities of chases; and if you want to go to another level in your life it is going to take some sacrifice.

Turn to your neighbor and I do not just want you to speak to him this time, but even though we were taught by our parents that it is rude to point at, just in this one special exception, I want you to take your index finger, lift this finger right here,

look at your neighbor and point at him and ask him that question again, "What are you willing to sacrifice?" Turn to the other side and point at him and look him in the eye and ask him, I want you that you point at him because I do not want him to think that you are talking to somebody else asking him that question. So that thing, they just look at the top of your thing and they know exactly who are you talking to.

And if you want a closer relationship with God but you can hear His voice clearer, you are going to have to cut something, and hour and spend more time in prayer and reading your bible. It is going to take some sacrifice. You are going to have to sacrifice some TV time, you want to cut the idiot box off and you are going to have to get up earlier in the morning and sacrifice some sleep. If you want a better looking body I do not care what these infomercials tell you about all of these fantasies pills and machines, you are going to have to hit the jam and make some permanent changes to your diet.

If you want to have more money, you are going to have to do at least one or two things; either you are going to have to spend less or make more. If you want to spend less then you are going to have to have a budget and stick to it. And on a budget you just cannot buy everything that you see that you want. If you want to make more money, you are going to have to spend some physical energy working more hours; or spend some mental energy to figure out how to invest or demand more out of your current working situation.

If you just sacrifice a measly five dollars a day which is the price of a lunch, and if you earned on it 50% a year, in 30 years would that five dollars a day sacrifice you would be a millionaire? Just by consistent sacrifice? Sometimes you cannot see the sacrifice little by little but it will turn watch into million, overtime.

If you want a better relationship you are going to have to listen to your spouse sometimes when you do not feel like hearing anything, man you are going to have to take out depression, pick up your clothes when you do not feel like it. Women you are going to have to sacrifice your bodies sometimes when you do not feel liking it, says we got kids and all, I want to expound on that one.

Right after Solomon made a thousand sacrifices to the Lord that is when God asked him that question: "Solomon, what is the one thing that you want?" He chose wisdom. But I tell you that Solomon already had a certain amount of wisdom to make the sacrifices even before the course that to ask for wisdom. Abraham was willing to sacrifice his chosen child out of obedience to God and because of it all of the children of Israel through the years they changed, is chosen people of God out of the entire earth because Abraham stood in faith and was stood ready with the dagger; ready to make the sacrifice that what he loved the most.

And even though he may or was not the promised child, he still was blessed because of his father Abraham is in control much of the all and the world right now and you are all complaining about the prizes that they give right now. But I tell you because of the faith of Abraham, the more you pay and the richer they are getting and the more blessing they are getting because of the sacrifice of one man.

And TD Jakes, perhaps one of the greatest, most known ministers in the entire world today; we were at his pastor's conference and he was talking to the pastors and he said, that people hear and preach all over the world, and preachers come up to him all the time they said, "Man, if I could just preach like you, can you teach me to preach like you Bishop Jakes?" And Jakes tells them all he said, "Yes I can teach you to preach like me but there is only catch with it, you have got to go through what I have been through."

And he begins to [Pause] they go out on the list of all they had gone through where he is a little confident at that time and I lost my whole church and they were in the youth doing revolve in it pay them 30 dollars in the beacons mistreated them and talked about I had little Cadillac that he rode drove to church and he said, it was like the Flintstones they have a hole in the floor and you can look now and just see the light in a rose garden by. When he begin to go down and list to how he was abused and stabbed in the back. That is alright Vicks I just keep preaching like I am preaching right now. They are not willing to make the sacrifice to go through what he went through.

How many of you know or heard of Tiger Woods? Everyone in here is so let me tell you about his sacrifice. Tiger Woods' father when Tiger was born he went to his garage and he saw the destiny that was before his charm and he knew that it would require sacrifice and he put out a mud in his garage and put up a net in the garage and he knew that his child would become one of the greatest golfers in whole of history and he went to start his new-born child golfer when he was 9-months-old. He looked for a set of golf clubs for this child and he could not find a set smaller enough so he said, "I am not going to let that stop me and he took some of the other clubs and saw it off and made a clubs small enough for it."

Now Revelation hit me when I was reading about it. He saw the club, he stop denying that it does not exists but his father saw it and he brought it into existence. Something that no store has, that no country club, that no golf sharp hand, and he saw and brought it into existence and he gave his little man boy this club that he saw as a father and he put it in front of this net and at a 9-months-old he began letting this baby begin to hit balls into that net. There are no other 9-month old at the country club I have been thinking about playing golf. He put his boy in front of the net and by the time this boy turned a year and a half he went from having a few balls into that net to hit buckets of balls into that net.

As that boy grew his arms got stronger and he was able to hit balls farther than anybody else because he has been hit since 9-months-old and he begin to hit hundreds of balls a day. Someday if he hits a thousands and by now he is hitting millions of balls in his life if you have to meet him you scored and shake his hands, you will feel the callus on his hands form all of the years that millions of balls was sacrificed. You can feel the sacrifice even in his grip when you shake his hands you will see the scar there from all of the years of sacrificed and every ball that he hit he kept hitting because he said, "I got to it these balls I become the best golfers in the world." And he hit the ball and it would not be the best in the world but I got to keep practicing and he kept on till he saw the flight of that ball and that was the best ball anybody in this world can hit.

You heard of Serena and Venus we all know. Well let me tell you a little bit about the sacrifice you see the glory of them all in television but let me tell you about the non-glory days. Their father had a vision he was watching television one day and he saw this tennis match on this television and when they are now towards the price was on television he said, "That amount of money would get out the family out of this poverty" and he said, in his mind, he saw something and he told his wife even though you got some children who wants you to keep going because destiny would be born out of this family.

Seven years later his wife has those girls and that day took the girls and put them in front of a brick wall and he took his machine and he and his machine set up to hit ball after ball through it toward it, fast speed and he said, that he wanted it to be like golf ball to him he said, "You do not hit it because I want you to use your racket, you cannot get out of the way. You must dash this balls with your racket and they look it all of these balls coming out of me" and they had to start hitting these balls one after another and before you knew it he said, the game number even in this competition community would come by and says, "Why these girls hitting these balls coming at one after another" and he said, "They would have to stop selling drugs and look after them" and he said, "They were looking at perverse way" he said, they became even they are protectors, he said, I would not let anybody bully at these girls because they would not be more for the selling drugs because they could see the destiny in them because I can see the sacrifice in them they say, hit these balls and because they hit those balls. Every day they hit that wall, their arms grew and they were able to hit balls so hard. All of the tennis ladies take a hard to return their balls because they have so much power behind it.

You all might hear of Michael Jordan, the greatest basketball player. Some people are fans of him. Let me tell you just a little bit about this sacrifice when he was a sophomore in high school, he tryout for the varsity basketball team and he got cut from the team because he did not make it. He did not stop and let that discourage him and he saw a vision that he will become one of the greatest basketball player that he ever lay at and he said, that and just gave him the drive to practice more

harder than anybody else. In his physical education teacher said, that he would get there at 7 A.M. In the morning and Michael would already be in the gym.

He would here the basketball shooting and he said, after that you get there right into the gym and it was time for players and after school Michael close down the play shooting balls and he kept going and Michael said, that whenever he got tired and wanted to give up then he would just tenure that list that his name was it on and he said, "Never again, never again I am willing to make the sacrifice to become the best ever" and he kept shooting those balls and eventually got on that team and the coach saw the determination of this young man and he took them on to the championship and the key is aware of Ara Jones all over the world because of a sacrifice.

And I tell you as I close even your salvation and ticket to heaven had to be purchase through a sacrifice. And my time is gone and I thank you for tuning answer brothers of the world because brother you need the word.

If you want to hear this message in its entirety just go to [AirJesus.com](http://AirJesus.com) and put in message number 8204 and you can play this message free of charge on your computer and hear it and its entirety. You need to hear this entire message. Are you willing to make this sacrifice to go to the internet and put it 8204 to hear this message in its entirety and after you make that sacrifice click it and send it to a friend. Make a sacrifice for them and send it to a friend. And do you realize that your whole eternity hangs on the sacrifice me by just one man.

If you do not went through all that he went through being spit on and talked about betrayed and went through all of that but yet had not died on the cross for us. Even if he lit up the perfect spotless light to show us the way we still will have fallen short of the glory of God without the sacrifice. He even got weak in the garden of disembody and prayed for God to take the bitter crop away if it were possible but God knew the only way we can make it to be with Him was through the sacrifice.

With head bows right now I want you to picture the sacrifice that Jesus made for you. On that cross it was a glory sing but he did it just or you he checked his eyes on the reward of having you living with him through eternity in heaven and he stayed there on that cross took those nails through his hands and through his feet. Pierce through the side took the crown thorns on his head just for you and even with all of there to sacrifice, all of the glory, and all of the pain they steal from that will not even come except the reward that is already paid all of that sacrifice for us all.

If you hear the day and if you have not made a firm decision in open confession to accept Jesus as your Lord and we ask you to come right now. Do not let the reward

of his sacrifice. Do not in vain for your right. He is already purchased your ticket all you got to do is pick it up at wheel cart. He is calling, will you come. Will you sacrifice for looking at you and wondering about you to join everlasting life such an easy thing for such a high reward? I will wait a few more minutes.

Amen, Amen. Let us give him another hand for that awesome message that he brought today and did something that all of us have things that we desire. But so few are really just willing to make to sacrifice for I see it. I was talking with James even about sometimes even with counseling and how even when you can see and tell people what to do to get their lives and word of praise so few will follow through because I just do not to make to sacrifice.

To do what is necessary to take them to the next level. This message today was a divinely unnoted and appointed message and then I just could feel in my spirit that it was not for me to preach the day that the message and you might not think since this is a special day. It is a special day because it is a day that represents birth and so many of us need something new born in our lives. We just ask why Jesus if we wanted to enter the Kingdom of Heaven you must be born again.

Nicodemus ask for how can a man come out of his mother's womb the second time, so you may need another mother's day because you need a different birth and everything in this universe is odd and you notice even when I prayed and I said, that there is a slogan that says, "Since God is everywhere" and see Elijah actually called it the correct slogan and actually go since God cannot be everywhere he made mothers. I knew when I see it but I also knew that God is everywhere. In everything every little details.

And sometimes people thinks when they happen we do not understand them but yet in the light of everything well you remember when you came outside to get a card this morning, what was daddy doing? Cleaning up the car, cleaning up the car what was that cleaning up? Wine, I was cleaning up wine. Now I drink wine every night before I go to sleep, I try to drink a glass and for all of you to frown enough on that just go listen to the sermon care the wine and let us do it and you will understand it. But I had purchased a couple of bottles of wine.

I had them in the car and I would get up this morning I was cleaning and all of a sudden the wedges hit the floor and just bang! It splattered all over the floor and it get all over my pants and shoes, so when he came out there were all over this blood ray of stuff all over the floor. And as James brought the message this morning I begin to understand wine is what we drink that represents the sacrifice of blood that Jesus made. And when that bottle shattered it made a loud just bang! And even though I knew it was natural there was something about it that felt spiritual as the stuff just got all over me.

If you ever going to go to another level if you ever going to bring some new and some better things into your life, first of all some old stuff I going to have shatter. Some all ways of thinking, some all habits that have been grained in us, some all messes in, some all stuff must shatter, and it always makes loud noises when it first happen we always say, "hmm." If you ever going to get something new and better in your life and then you are going to have clean up some mess, do you have to clean up some mess this is all it is.

You have to clean up some mess because all of us got some messy stuff in our lives that if we ever do not go to another level we will not clean this stuff up. It will stay in us and I was worried about all my goodness with this temper to leave in us. I do not want to people to think the past just been not drinking if they will smell the wine all over me but the fragrance. When you make a sacrifice people it would bring a fragrance unto you and even though sometimes me and woman understand that is why and I understand so clearly now. James he mentioned that not in the December but it was hiring someone and he said, that for some reason his discern many in his nose he just got a T like he just smell for his garden office because smell are coming out of the hall.

And that is why the Bible says some stuff that we do some time, it is a stinks and the nostrils of God he smell it and I am never will forget when I was out running in my old neighborhood and I run by houses, there was this horrible smell that hit anywhere cut off even with the property land and I would run my some house there was a smell with hidden discipline hidden into the essence and it was a horrible smell, "what in the world is that?" I say, it cannot be natural because it is cut off from the poverty line and if it was a macro smell it would just gradually disappear but it is coming and going sharply is I go by house. I am allowing you to be sensitive to the smell of the demonic as a mud demons on the whole houses around here.

If you want that next level, what are you willing to sacrifice? Some stuff is going to have to buzz and you will go to clean up some mess and then you will go to a little some stuff but that is what sacrifice is all about. And far too often we only see the pain of the sacrifice but we do not see the glory of the reward that is why most never get it because we only focus on the pain of the sacrifice and we have no vision to see the glory of the reward and because of that the key and take the thing in James pointed for us can you see it? Can you see it? Can you really see? My daddy always use to have us statement he use this to any food can see that. See any food can see the sacrifice but can you see the glory of the reward. So when that wag busted in my house today it was symbolic of the message that he has just delivered.

God is trying to take us to another level but what are you willing to sacrifice? Some of us say, "Hey we did it or I am not willing to sacrifice anymore that I have

already sacrificed. Then in that case you will never get beyond the level where you are already are. If you are not willing to sacrifice anymore than you have already sacrifice then you are not prepare to go any further than where you already are.

Even motherhood itself is about sacrifice because your time is no longer your own. But do you know even psychologically the greatest thing that makes the difference in whether a woman is condemned this not, this is not religious this is psychological. What did scientist say, the one thing that makes greatest differences in a woman's real fulfillment later in life is not Korea, is not money, in not physical condition, is not houses or land or cars or clothes, it is not even the man. You know the one thing, children.

Children are the one thing. That does not really necessarily mean that all women mature fulfilled and happy so just because psychology se that, I did not mean but as a general rule. As a general rule the thing that gives you the most pain in which we have to sacrifice we have the most that will bring you back to the greatest joy. So indeed we thank Pastor James for that message and all of us need t go back and listen, and listen, and listen to that message and ask ourselves a question, "What are we willing to sacrifice?" And your answer to that question will determine the level. I am not talking about [Pause] in God I am just talking mine into earth. Even in business when we win in business I have to sacrifice income and sweat for seven years before I ever got a payback but now it is 80% of my income but you have to be willing to sacrifice the seven years. Some do not go and do not pay out the first week they are out of it they are out of the first year.

What are you willing to sacrifice? Stand to your feet and come across the isles and I am going to ask my mother to come and dismiss and you can go back. I know she kind of did not like me but that is alright she is prepared I am not. I want to ask her just to come and dismiss us upon this day on this special occasion and indeed as James mentioned as I read that scripture about Proverbs when it talks about and that is true. See our truly good woman is worth more than any amount of gold and silver and money and stocks in company and all that stuff. A truly good woman is worth her way beyond gold and diamonds.

It is a rarity and if you read even Solomon he wrote Proverbs, Solomon had a thousand women and you know what all these thousand women you cannot find a good one. Really, it is in there he had a thousand women. It takes something divine and sometime for even you to be defined. Solomon did not do right with the women who are told that do not you get any sorrow in women and he did and as a result grew out the curse in it and all of the women in the kingdom he could not find a good one because he was not willing to make the sacrifice to do what God said, to do.

What are you willing to sacrifice? I just wanted you to just hear for this woman she has truly you even though she sacrificed she is never been sorry about it. Growing up in the house with all the kids and dealing with the husband who wants the easiest man in the world to deal with. My daddy was tough t deal with he is an awesome man that man was not mess to deal with. That man has all his sons that breed to deal with that man. That man was something else to deal with but he develop me so much and he made it so much out of you but you have to be willing to deal with the sacrifice of being under him and to honor that they were all the children.

My mother just sing around the house day and night she was full of joy. See often people who we have to go through this stuff even when it does sacrifice. The main thing about this is the mentality and whether you keep your man or which you got to go through whether you keep your man on the glory. The main thing is not even really the stuff that you have to go through is where you keep your focus and you can be in heaven or in hell same situation base on whether you are looking at the sacrifice or whether you are looking at the glorious thing that should come from it. So I just want you to hear from this special day a mother who has truly without a shadow of a doubt and my dad is saved.

He had to marry a thousand times often. He would marry the same woman all over again. See that is heavy duty along these are the duty all over again I would been okay no matter thousand time I do not even know I had a duty one more time so that is a serious statement when he had a woman that he said, he would marry all over again but you know one thing you see how my mother holds that every after message my mother will call her son. She goes everyday on church as she comes after every message my mother is going to call me and boost me up to the heave. She goes boy that mess is you just preach today and I do not know what that mess was. But my mother will call me every message as you said; boy that thing was some F!

I do not know whether that thing but you know what it is the wing but that is the same what she did to my father and that is why he was able to build business and accomplish things because he had truly good woman behind him. It makes a difference and just to understand that perks that you see some time to me it makes a difference and if you got my old proper stick of a man. If you start popping that sticker you start popping it but if you beat him down. So if you wrap him up and make him feel like a king you will be surprised, and you make him feel like a king he will start treating you like a queen. Somebody will complain my man does not treat me right, what you would treat him. If you make him feel like a king he will start treating you like a queen. So I just want you to let you all hear today from queen mother from [Pause].

To God be the Glory and as a mother to be fit in the audience and look up at the fruit. Is that your children shall bless you. Let us have a lesson. Lesson one, location and come to another but if because of God. I did not know how to be a wife. I did not know how to be a mother but I was taught by God but I have to be able and willing to listen to Him and to follow whatever he let me to do. He has sent many young women to my house to just see how did I treat my husband so watch her, control your mouth and watch her. A great key, God knows what he has placed in each and everyone of us and when God makes these connections he knows what the outcome should be but we got to follow him.

Now we listen to Proverbs 31 and as you read it he went to every land but that is a great responsibility upon a woman. It was one mother's day I spoke it they all went to church and I said, this woman of Proverbs has to be a robot woman if powered by the Holy Ghost. She has to do everything. The God knows what he has placed in her. He knows what he placed in a woman and we live to be there to live. To live with the man and live with him to be the wind beneath their wings, big things into existence begin to speak it and this very day I know what I am going to do when I get home. I am going to change my prayer play and as usually just as I exit my bed has been my altar nut I am going into another closet that bigger than that space and I am going to call that my altar where I would go and share from the other part of the house for the altar with God and we need it today. Not only do you need to be a mother for your children but you have to be the mother of the people.

As screen my day yesterday Dylan was someone else's children and that was the day that I said, that I am going to spend my Saturdays with God. But somebody needed God and I said, Lord give me the words that speak to the people that I had with me since yesterday and I can see the difference as I begun to get still with God and choose the day that God has set aside to be with God. And I have chosen Saturday the same the God chose.

I am not trying to run pass God but God say, I write the laws in your heart and no man needs to teach you and we begin to obey God a lot of this homes and think they are going right because we are so ripping and winning and we do not stop time to rest the body. The body needs rest God knew that when he made us that is why he hallowed a day He said, take a day and He hallow a day for us to rest the body. If you do not get to thank him yet get that you got to rest your body. So many sickness and the diseases are hitting us because we do not rest. We are too tired to be the wife and the mother we need to be we need rest. God knew that He built it in the prayer. That is why He said, you got to follow God and if you follow God, follow God everything will be alright if you keep on praying.

Father we just thank you so much God for this day that you have just declared as mother's day for these women God that you have made and we just want to say,

thank you. Thank you for giving us such a noble position. Oh Lord we thank you that we are too passion in our lives God are these your children. Thank you Father there are so many hurting women God so many hurting mother God with bleeding hearts God.

We ask for your help and power today, God we pray God that children God that do not even held mothers in mother who have transition displays God that the mothers of the people God will cover them hot. Even in prayer God we thank you for them Father we thank you for every mother with that loving heart God. To support their husband God to support those children and God in return you are going to under guard them because they are your very own and God I stand here as a living example that you will uphold us. You will keep us, you will heal us, and you will bind up our bruise and broken heart. For God you know I have at many, many times and shall all men needs a place of refuge when I need it a shoulder God to lay upon and I just want to thank you for being there.

Thank you God for strengthening relationships, strengthening positions that you go place in the homes God the home is what needs strengthening. Thank you Father we pray for our men God, we pray for them give them the strength God to be that priest and that came in the home and the woman to under guard God and to stand beside him God and to the children that they may be able to see the fruit of their labor. Dear Father we thank you all for mothers all over the world halleluia! This special day thank you for my mother who is 96 years old and yet went to church today such a blessing. Thank you for the prayers of mothers and the prayers for fathers. Thank you Father and we give you glory and honor and praise in Jesus name, Amen.
