James Bronner: You can look at how you are designed and it'll give you some insight on what you are designed to do just by observing the way you were designed.

Female: You are listening to brothersoftheword.com. This is the message titled Working in the Anointing by James Bronner. This message is number 8244. That's 8244. Listen to over a thousand free messages on brothersoftheword.com.

(Music Playing 00:00:24 - 00:00:52)

And now for 8244, Working in the Anointing.

James Bronner: Welcome to brothers of the word, because brother you need the word. And stay tuned today whether you're watching on television or Facebook. I believe that God has a word for you today and I know that he does because of the way this message came about. And I have to start off repenting because to be honest I didn't want to do this message today. I have a very hectic week just two and three meetings a day and computers were breaking and I had to deal with after the meeting, stuff at home was going on and I was just tired. I was busy. I had a lot going on. And pastor, he said, will you be in town on Sunday? I need you to preach and I tell you, I came up with every excuse in the book. I said, you know I think I'll be out of town Sunday. I was almost glad. I think I'll be gone Sunday. He said, "Check your schedule." I looked my calendar, oh, that trip got cut short. Oh, my goodness. I'll be back. I said, well you must have forgotten. It hadn't been that long ago since I preached. It hadn't been that long, he said that's all right, and I just kept scrapping. I said, you know what I remember the Lord has given my wife even a powerful word. She's been tanning in her journal, and I said, it's time to release that word.

I was coming up with everything I could come up with and he just didn't seem to be budging and finally he said, "God set for you to preach on Sunday." And I had to guess at that point, I said, "I'll do it regardless of how our field in the business." So, at least I know this word is for at least one person today if God had me to preach and I repent for not being just willing to go forth by you today and people will often ask me how I juggle all of the things that I do in my life. The father of seven children and the husband of my wife Stephanie. I'm youth pastor of this ministry. I'm also vice president of a company. I run the IT

department of another company and then I manage the third-largest convention in the state of Georgia. So, I do a lot of things and they say, "I don't really see you stressed out and frazzled. How do you do it?" Well, the message today is one of the keys of how I'm able to juggle everything. And I speak today from a subject I've never thought on and own and it was in the midst of my going and doing all of these that God said, "I wanted you to speak from actually what you're walking in." And I speak today from the subject of working in the anointing. Working in the anointing.

And the anointing is not for us to shake and to shout in church. It's for us to glorify Him in church, yes, and to do ministerial work in church. Yes, to do healing and prophetic things in church, yes. But He wants it to go beyond these four walls. He wants us to go out with us into the workplace and the marketplace and to be used there, to change the world, and that's what this message is about today. And I actually, it was Thursday and I had to preach Sunday. I have been going every day just from morning and night and didn't really have time to prepare. I said, "Lord, you got to give me what to speak if you want me to speak on Sunday.

And it was on the way to the airport on Thursday because I was taking a business trip that He began to speak in to my spirit as I going to trying to close a business deal with a huge company worth four billion dollars. And I was flying out on Thursday and began to type in my phone on the little airport shuttle on the way to the airport. As I got off the shuttle, I have my business bag there and the driver of the little shuttle bus. He didn't know me from television or anywhere, but as I got ready to get off, he says, sir, he said, "Something about you, you have a Creflo Dollar anointing on you. He didn't know me if I was a minister or anything, but he saw an anointing even though I had a business bag. He didn't know I was typing on a message about working in the anointing in my phone at the time on his shuttle.

00:05:05

He didn't know what I was typing but he saw on anointing on me that I want to talk about today. Working in the anointing, it gives you many advantages over working without the anointing, and I'm going to list out four and keep in mind these are not dealing with the benefits and advantages of the ministerial work

of the anointing that you all are familiar with. With all of the nine gifts of the spirit. These are workplace advantages and benefits that I've personally seen in my life. Number one, the anointing gives you favor with people.

The Texas company that I went out to see that was worth four billion dollars, we had prepared this presentation on paper and had these diagrams and charts and all of this and we had done everything we could think of to prepare. And as I spoke, I felt the anointing come on me and I prayed that morning and meditated and worshipped God, and I carried the anointing with me. And then I said, "Lord, be with me in this meeting." And in the meeting, we had presented all of these proposals with different offers and we saw something unusual happen. They got off with a paper and they offered us to do three things that we didn't even ask for. And we'd never seen and then they said, "Well, we can do this for you."

And then, what about this. Introducing you to these people, and it was something that we didn't even ask for. Three things. The salesperson that I went there with and she said, I had to run to the car before you and I wanted to shout in the car, I didn't want you to see me, think I was going crazy because of how God worked it out in the meeting. And even my tradeshow manager who was watching me on the internet right now, a lot of times when she has to call people to get them to make deals. She will say, "I want to wait until you're in my office because it seems like they won't answer the phone when I try to call them, but little like when you're in there, little like they're just pick up and that's the anointing. They're not picking up for me, but they're picking up off of the favor the Lord."

The number two advantage that I see and witnessed, the anointing increases your wisdom, discernment, insight, and spiritual guidance. Pastor and I, we're a member of the CEO groups by 30 CEOs in the group and we have a speaker each month. And this last month, the speaker was teaching on how to use intuition in business decisions. We learned a lot about how to use data but he was teaching us how to couple that with intuition to help you make decisions. And pastor, he operates very strongly in this anointing and he had many business deals where God will give him the exact price to offer the person. Even this very church we're in, that was one of those deals. God

gave him a number and he knows not to go one dollar over that amount.

Both of our manufacturing facilities, God gave him the exact number and many of these deals when the other person here, they'll all just laugh in his face. They say, "There's no way I'm going to do that. That's a lot of them for the price of what they're asking but they end up coming back over time to that exact number. And if ever he's given a number and it doesn't go through, it's indicating to him that this is not a deal that God has ordained for you to have. So, it serves two purposes, it gives him the amount of the deal and then it verifies whether it is God's will or not.

Number three, advantage I see of the anointing in the workplace as the anointing increases innovative ideas. Increases innovative ideas. In our show, we partner with two software company. One to do the registration and another to do the exhibitor registration. And as I began to work with them, God just begin to give me ideas that help even improve their products. And that product he flowed so many things through me to them that the feature set that they released from us was more than all the other customers combined. And I talked with one of the CEOs. He said, "Because this product has become better than all of the others in the market," he said, "Microsoft saw it and they saw the innovation and they just invested this huge amount of money in my company to buy a part of it and he thanked me for helping him to innovate." And he said, "Because of that, your next show will have five times the service. Thanks to Microsoft that they put all of this huge amount of money."

He told me exactly how much it was, I'm not at liberty to say but it was huge. I tell you. So, I've seen God work even in the area of ideas and giving innovation. Number four advantage of the anointing in the workplace. The anointing enhances natural abilities and it helps you to enter something called the state of flow easier. And flow is something that's used in the world and the business and athletic world and it's defined by them as a state of optimal performance that has a heightened state of mind and a heightened enjoyment.

And our presenter even in our last CEO meeting, he talked about being in the state of flow and how ideas and decisions are made easier. And we're familiar within the church on how the anointing can help you enhance natural abilities. We just saw Tamika sing and saw the anointing on her and what difference it made. We're seeing prayer under the anointing. We hear preaching under the anointing and outside of the anointing you don't get the same impact, the same feel. And it is this fourth attribute that I want to teach mostly on today of walking in the state of flow, because it's the one that we've got the least teaching about in the church. But it's the one the world is teaching about the most out of this. All of your top athletes, all of your top CEOs, your top entertainers. They are being taught how to enter the state of flow to operate at something that simulates the anointing of the church. The world has termed it flow and it's a mimic of the Holy Ghost because even when you look in the Bible and look when he talks about the Holy Spirit, he describes it as flowing. He talks about the oil that ran down Abraham's beard and flowed onto the garments.

The other symbology of the spirit in the Bible is water and water flows. So, it's a very similar concept, but the world is able to take our principles and beat us at it using it which is a shame. And they have books written about it and seminars all on this one area of flow. But we're going to talk about it today. Here are some examples of even how operating in this flow affected my work and my life. One of the things that I was getting ready to do with our beauty show was we were setting up an advisory board of people who knew more than I did, who were more licensed, more experienced. In the midst of setting this up I began to talk with some of the advisors and listen to some of their ideas. When we tried some of them, I had to hold up on the advisory board because what I saw was the things that they had for me to try. They were performing less than what I was getting out of the state of flow myself.

Even though I didn't have the experience, I wasn't a licensed stylist. When I got in this state of flow, the spirit began to just give me ideas. And I saw the advisors put together a panel in the class and said, "Use their years of expertise and there was third (00:12:40), and I saw a flow come and put together a panel and it was a standing room only. So, I said, "Hold up on that panel, I've got an internal advisory panel that's outperforming the external." And even I had another business meeting last

weekend. It was three guys and one guy had asked me for the meeting. I didn't know he was bringing in two other business, actually there was four of them. They just bombarded with me all of this stuff. And they got through giving their different pitches and when they got through, the flow hit on me and I began to tell them about the vision that God has given me and they got through. They said, "We got to be honest. We came here to sell you." But they said, "It's the best part of me when you start talking and I end up selling them all three different things." And they came prepared but I just clicked into flow and it began. They felt the anointing and it struck something on the inside of them.

Even at our show, I remember one year when I was walking in flow. An older lady stopped me and she said, "Mr. Bronner, you don't know me, I've never met you. But I just wanted to stop you and tell you that I wasn't coming to this show. It had changed and I didn't like some of the changes that I saw. But what made me be here today was not any advertisement you all made. Not any sales rep. I turned on my television this morning and looked at the news, there you were on that television. When I heard your voice, something struck the inside of me and I felt something and I said, I've got to go and support this legacy."

So, it was something that I didn't learn in a marketing book, but it was the flow of the Holy Ghost that connected with her and she wanted to come and be a part of it. I had other people to stop me at the show and ask to take a picture and as they take the picture, they said, "Excuse me, it's strange, but I want to ask, are you a minister?" And I said, "Actually yes, I am, why do you ask?" They say, "As I stood next to you and you held your arms around me, I felt an anointing on you that I didn't know how to explain." So, God will give you favor and he'll allow people to feel that anointing on you. So, I've seen it work in my life. Another thing that I saw with the show is one morning when I was in prayer and he showed me a vision of our exhibit floor.

00:15:03

And he showed me a prayer booth there and he gave me the words to put on the signs to make it where just wasn't in your face and offensive to some, but it basically said to come out of

the noise and come in this place of solitude. And he showed me how people, they go around and the phone loses charge. So, I bought charging stations to put in this prayer station and it has a picture on there, plugging in through the power of prayer. And it said, charge your spirit as you charge your phone. And they were able to bring in their phones and as they brought their phones in, they felt the presence and we keep worship music going in this part of the show.

And there were so many reports of people giving their lives to Christ right there in the midst of a trade show off of a vision out of this flow. And the very next show because we placed God's presence right there on the floor, we sold out of all of our exhibit space from there. Again, the anointing of God, the favor of God just following his leading in flow. We had our registration system and I used all of my education to try to get people registered and we wanted to get the information, and I put it together in the best way I could technically using my training and we put all that together and I laid out all of this fancy plans out and the folk got that, and had to wait in line two hours trying to get the information in there.

But when I got into a state of flow and one day woke up with a dream and I saw signs of how to line it up and came in, Oh man, as I say, "Do the signs like this." Change everything I said last time and let's try this. We tried at the next show and instead of a two hour wait, the average wait time, even though we have more people was five minutes. And we captured everybody's information and the people said it was the best process they've seen in 30 years on our registration.

Out of a state of flow, we took a brother's trip to Africa and even as we were there, we try not to deal with a lot of business on vacation. So, I was trying to get out of my business flow and just go into relaxation flow. But the anointing was still on me and as we walked through this third world villages, and I just began to see business ideas, even there in the midst of this poverty. When I got back home, we emailed the guide five different business ideas and plans that they could do with the resources they had right where they are, that would bless not only their lives but the lives of the entire village. And I just seen how operating in this flow, it even affects different areas of my life that you wouldn't think the anointing would even help you in.

Prophet Dexter, he can testify that even sometimes when we're playing pool, I'll get in the state of flow. And Prophet Hepti(ph), he'll talk about it. He says, "Oh, there you go walking fast." And I get out of my own calculating and I just walk and hit the balls. He'll tell you it's hard to do anything with me when I get in that state of flow. Even Brother Travis, he played with me not long ago and I was coming from work where I had been operating in this flow and I hadn't played pool in months. I was operating in this flow and we went to play a game of pool after I hadn't picked up a stick in months. And I have this flow anointing still on me and I told him to rack up the balls, let me see if I can still remember how to do this thing and I hit my first shot in the state of flow. The ball scattered and the eight ball went in and I won the game in one stroke in the state of flow. Am I telling the truth, Brother Travis?

So, you'll be surprised at how the state can cause ease to come in your life. I want to give you some mindset characteristics of operating in the state of flow. Some things that help it and then some things that inhibit it. The first, the primary thing is to complete focus in the moment and the task at hand. The business world, they have books and they have coined their term on this as deep work and it's where they really have uninterrupted focused time. And they cut the cellphones off and the social media and email and they don't let anything interrupt them during this time. And they have research to show that their productivity just goes up four and five-fold in this time of deep work off of this flow of focus and concentration.

A lot of times when I'm working on computers, if I get on the flow late at night, even though I try to get in the bed on time, sometimes when I'm working on a special project, I'll get involved in this flow state and I can't come out of it. I'll work all night long and I can be in this flow state sharper at 2:00 and 3:00 a.m. than a normal person would be at noon. And my wife, she'll see me up late and I remember about last week, it was about five in the morning or four in the morning.

00:20:05

She said, "You're up mighty early." I said, "I haven't been to bed yet." I was up all night just in this state of flow producing a new project. Now, that's not healthy to do but there are times when

God is birthing something in you that you have to continue with the flow that you cannot cut it off. It's like what a baby, you get a new baby, you can't sleep when that baby is waking you up at night. So that's how some things that God will give you will be.

Another state of mind that helps is the area of skill. Researchers have found that the lack of skill increases nervousness, which inhibits the flow state. So, when you can gather and increase your skill that allows you to flow better without thinking about it. Another inhibitor of flow is gossip and complaining. These inhibit flow and skill. If you look at a sport like golf, if you think about when you first start playing golf, you have to think about all of these things to keep you left arm straightened and keep your head down and you have to think. It makes you stiff and you're thinking about the techniques and the mechanics of it, but as you increase your skill and you get to a Tiger Woods level, then it's just a smooth flow when you're not even thinking about it.

You're just going in the motion, but yet when you're at the master level like Tiger and he has complete focus. When he ran into some marital problems then his flow state got interrupted and he wasn't hitting the ball. He wasn't winning tournaments like he was doing as the old Tiger. So, that flow state skill will help you to reduce nervousness. Even when you look at something like martial arts, when you first start taking it, you'll be real stiff trying to memorize the move. When they tell you to bend your knees and turn your arms like this, but when you get to a level of skill of mastery, you watch some Bruce Lee movies. He's not thinking about what he's doing, you'll see him come and it's a smooth flow.

It's something that you can tell that it's just a natural smooth flow that is. You know you're in trouble when you see this and he's not thinking about the techniques of it but it's a mastery that you can feel that he's reached a level of skill where he can be mindless on it and just move into this flow.

Another thing top athlete use is, especially Olympic athletes, they will use visualization and it helps them get into a state of flow. Before they'll go over the high jump, they will stand there still and imagine themselves and see the perfect jump over the bar. Runners will see themselves jumping perfect time over hurdles. So, it's something that they use. Some other things

that help with the state of flow mindset is the spirit of gratitude, gratitude, and if God is flowing things through you. How many of you like to continue to give folks stuff when they're not grateful for it?

The second thing is acknowledging him with it. So, again, if you get somebody and our DNA go and take it, I know almost all companies have that. You'll go get a boss idea and then you (00:23:22), this is the way we came up with here, and they don't even mention your name. After a while, if they keep on doing it, you say, "I'm going to keep this for myself here." So, we can acknowledge Him. The other thing is worship. When I worship and I meditate on His goodness, it begins to train my mind to be able to focus in on one thing and it draws in that presence of God that goes with me in His presence will be with you.

The other thing is just trusting Him. Trusting Him, it allows you to walk in a confidence when you can trust him. And then stillness in his presence. Once you feel his presence, just to be still and listen and wait in his presence, it allows you to enter this this state of flow in a much better and easier form. The Bible says in Deuteronomy 8:18, that He gives us the power to get wealth. Most of the time in the church, we want him to just give us straight wealth. We don't want to get into (00:24:22) and we get that confused a lot of time but 99 out of a 100 people that I know that have that wealth, God has given them the power. He has never just dropped it in their lap. It's a rare case on it, but even if you look and see those rare cases, there's other things you can usually see in their life but he gives you the power to get wealth, so you still have to go out and use this flow and this power that God has given you. And even though the Bible said the wealth of the wicked is stored up for the righteous, you still have to use that power to go get it from the wicked. They're not a lot a lot of times just going to give it to you, so it's stored up for you but you have to use that power and ingenuity that he gives you to go and get it from them and it is in diligent implementation that I see Christians drop the ball a lot of times.

00:25:08

God will give them something but it's in the implementation where they fall short and you still have to work it. You still have to work it. Even as much as He's blessed pastor and my

company, we still had to work all night long in the lab when he would give us a product idea. We would literally work all night long in the lab to get this thing perfected. When He's given me an anointing with computers, but my wife would tell you, it's many a night where I have to stay up all night long to bring the vision into manifestation with diligent implementation. The church should have more creative ideas for innovation than anyone in society, where I've seen in the world that they really beat us is in that implementation. And I've seen mediocre ideas with awesome implementation beat awesome ideas with mediocre implementation. So, that's something to keep in mind that you have to couple with when God gives you something, you got to couple it with hard work and with diligent careful implementation.

Joseph in the Bible, he's a great example of working under the anointing. Many of you, you know his life and how God used him even in the jail, even in (00:26:20) for his house and in pharaohs palace, where ever he was, he had favor and God would give him ideas. Another great example in scripture of a regular skilled worker, that somebody who just wasn't king or in a leadership role like that, that was a regular skilled worker is in Exodus 35:30 says from the NIV version, "Then Moses said to the Israelites, "See, the Lord has chosen Bezalel son of Uri, the son of Hur, of the tribe of Judah, and he has filled him with the Spirit of God, with wisdom, with understanding, with knowledge and with all kinds of skills to make artistic designs for work in gold, silver and bronze, to cut and set stones, to work in wood and to engage in all kinds of artistic crafts.

And he has given both him and Oholiab son of Ahisamak, of the tribe of Dan, the ability to teach others. He has filled them with skill to do all kinds of work as engravers, designers, embroiderers in blue, purple and scarlet yarn and fine linen, and weavers. All of them skilled workers and designers." God, he anointed Bezalel to use his craftsmanship to bless the entire nation of Israel. As a matter of fact, it would be good for you to read the next three chapters, all are dealing with the craftsmanship of this one man. For their four chapter, 35 through 39 of Exodus all are dealing with Bezalel's craftsmanship, even of the Arc and the holy seat. He crafted all of these things that God anointed the works of his hand. And I tell you, it was purposed in him this artistic design ability and you can look at how you are designed and it'll give you some

insight on what you were designed to do just by observing the way you were designed.

In the entertainment world, they use drugs and alcohol a lot of time to assimilate God's flow. Now, I'll admit that weed probably does increase your creativity a little bit. It will probably cause you to think outside of the box a little bit. I'm not denying that fact. Nobody amen on that now. You tell on yourself for that. And you can look at artists as they age on, you'll begin to see the effects of the drug use over the years on their body. But there is a flow that comes through our own creativity, then there is the flow that is a creative spirit and their creative thoughts that come out of the brain but then there are creative thoughts that flow out of the spirit.

And there is even a flow that comes from the devil that enhances natural abilities, but the price of operating in that flow, you'll pay for with your very soul and it doesn't make the world a better place in the end. Even Kanye West, he made a song called Eyes Closed and in it he says these words, "I sold my soul to the devil." That's a crappy deal, at least it came with a few toys like a happy meal. And if you'll notice even the words of the song, Jesus told you to have eyes that can see, ears that can hear that are not closed. The song is titled eyes closed. It's no accident with the words and lyrics like this that years later you see him in the news with a mental breakdown. And even though he sold out 21 shows, have had to cancel them because there's an anointing that come from God and then there's anointing that comes from the enemy. So, you have to be careful, they have two different paths on the end result.

00:30:05

It can look like it can make a lot of money and cause a lot of success in the short term. But I don't know about you, I want something that will last and operating in the flow of God, it improves the world and improves your health and it add riches not only just on earth but in your heavenly bank account. And even if you took a magnifying glass and you put it on a piece of paper and focused it, it will begin to even cause combustion right there on the paper. That same ability of focus with that will cause things that have stagnated to begin to catch a fire. And that was in 2004. It was a Ted talk speaker, Hungarian psychologist professor and he gave the research that the brain, it

can process 110 bits of information per second. And they found that listening to someone takes 60 bits of information per second. So, that's why if two people are talking at the same time, you cannot fully comprehend most of them. So they found that even listening to music that has lyrics will begin to take those bits per second to cause your concentration to be broken.

So, if you really need to do some deep work, some deep thinking, then you need silence or listen to music without lyrics and you don't need to be looking at social media switching back and forth. And the research has found that the ability of humans nowadays, they say we're better at multitasking now but our ability to focus has been reduced in these times since the cellphone has been created and social media. We have lost the ability to focus and the measured it. They said our ability to focus has dropped so low now that it's even less than a gold fish now. And even if it is one of the keys of even Jeff Bezos, who is the founder of amazon.com. They say when he was a boy and his parents had him in Montessori School, that his ability to focus was so great that they would place him here in front of a task and he would become so engrossed in it that they couldn't move him. They said they would have to pick up his chair and move it to the next activity because he would just tune everybody out, focus in on what has to be done. So, it's no accident that you see him creating this e-commerce better than everybody else as he hones in on providing the best customer service at the best price.

And I just saw that they have Amazon Go coming where you'll be to go in and do all of your shopping and walk out without any cash register. So, he has focused in on a customer experience that has caused him to have billions. Even in the state of flow and focus, there was a janitor that work for Frito-Lay and owned by Pepsi Cola. One day the machinery broke there making the Cheetos and a certain batch of it didn't get the cheese on it. So he bagged some up and took home and began to operate in flow and focus to say, "What can I do with this to add benefit to my company?" And he was a Hispanic guy, and he took some of his old spices and chili powder and put on it. And he tasted and then found that thing tasted pretty good. So, he came back and he called and tried to get the president and they didn't want to let them see him and he used flow to talk his way through the secretary to get a meeting with the president.

And he came in and he met with him. He let him taste it and he operated in flow just as a lowly janitor without even a college degree. I don't even know if he finished high school, but he was operating in a God given flow. And they took it and developed Flaming Hot Cheetos out of it. They made him a vice president and put him over all of the multicultural division. If you'll just operate in that flow and I can remember how flow it even helped me to even pay for school. I was a teenager, I was 17 years old and as I was about to graduate, I was going out, I had one scholarship and I was going out by myself as a 17-year-old high school student flying all the way to California to speak and get the acceptance award and there was about five national engineering scholars.

So, I was the last one and the four went before me and they would take out their paper and they read the acceptance speech. When I got up, an anointing came on me and I began to flow. I didn't take the paper out of my pocket but I began to flow in front of all of these businessman and scientists as a 17-year-old young man. And I told them, "I want to be an engineer not to just build bridges but to build bridges between races and bring people together." And I told them, "It wasn't a religious audience, but I had a spiritual upbringing," and I couldn't talk about Jesus up there, but I told them even your scientist Einstein, he understood through his math that there was a universal force that ran on through the universe, and if we can tap into this creators source (00:35:01).

00:35:02

And I just began to talk under the anointing as a 17-year-old young man and accepting the scholarship. And a gentleman came up at the end and he said, "I represent another scholarship." He hadn't seen my SAT score. Hadn't seen an essay, hadn't seen my GPA, and he said, "I want to give you a scholarship of another two years if you'll come and speak at my banquet. And the flow of that anointing, it got me half of my whole college paid for. Then when I want to speak at has banquet, the flow hit me again and I spoke to his audience. And another gentleman came up to me at the end of that. He said, "I hear you want to go to Georgia Tech." I said, "Yes, sir." He said, "When are you starting?" I said, "I'm starting in the fall and I would have gone in the summer but the summer program was booked up and I could get in." He said, "Young man, you've

struck something in me today.” He said, “I’m the vice president of Georgia Tech. Call me Monday morning.” And he got me into that program.

So, I’ve seen how flow can affect your life even from a young age. A young age. First Timothy 4:15 from the New Living translation says, “Do not neglect the spiritual gift you received through the prophecy spoken over you when the elders of the church laid their hands on you. Give your complete attention to these matters.” The King James version there says to meditate on them. Throw yourself in your task so that everyone will see your progress. The Bible uses this term meditate 20 times in His word. God wants us to get His word down on the inside of us, and He knows that we can’t get it on the inside with the divided mind.

So, the same principle of meditation of thinking on this one thing that the Bible talks about 20 times would allow you to get into the flow and it’s what they’re teaching the athletes, the CEOs, the entertainers, the same thing of our word talks about. Given us keys to get into this flow. And pastor, he operates in this state often and even he asked the office staff not to text him unless it is urgent but rather to email him because he recognizes that these interruptions can cause your attention to take you out of this state of flow.

I pray that this message has blessed your life today and I pray that you’ll take this message. That you’ll walk in the anointing of God. That you’ll spend time with Him, that you’ll begin to worship Him, to meditate on His word, to begin to still your mind to hear from your creator. That He’ll anoint you and He’ll walk with you in your workplace to give you favor among men. To open up your mind and give you creativity and strategy and plans that no book and no school can give you.

And we are going overtime today, but it takes time sometimes when God wants to impart something different onto you. And for the altar call today, I’m going to ask Previtaph place on them. And Brother Miguel, if you can get a mic, even as people come to the altar. I’m going to ask for those that you heard the word today and you feel that God has given you some talents, some skills, or you’re not walking in Him and flowing in Him like you know you could. This is not a salvation call today, but it’s for those that wanted anointing to help them get into an

increased state of flow. But not just wanted anointing but you're going to be willing to be diligent with what God flows through you. That you're going to be willing to submit onto Him, to listen and to trust Him with it.

And that's you today, and if you wanted just to be stirred out this flow anointing, that you take onto your business, onto your workplace, just come to the altar. I just want to touch you today as I walk in, and I want to impart that which He has placed upon my life.

(Music Playing)

And He doesn't intend for His anointing to just be used in church. It's the world that needs saving. He didn't come for those who are already well, He came for the sick. He didn't come for the found, He came for the lost. So, we got to take it out to the world. Flow in His anointing.

For just to make room as I touch you, you can go back to your seats. And those in the audience, and those here, another thing that has flow is even the flow of the Holy Spirit, even in the gift of tongues(ph).

00:40:00

So, if you have that gift just begin to utter, receive right where you are, just to (00:40:07). We thank you.

(Voice Overlap/Music Playing: 00:40:10 - 00:48:34)

Male:

Let me tell share this with you before I take my sit. Pastor, James and Pastor C. Elijah, Pastor Nathaniel in his absence. I was supposed to be at another church this morning. And as many of you know, this time of year I traveled the country raising money for needy families, and that's what I do. I do it all year but especially September through January. This morning, was one of the churches that was supposed to give me the largest offering. And God said, "No." And let me tell you what God told me, Pastor James with your anointed self. I asked God, I said, "Lord, you know I'm too far away from the arc to get there in time. So, you going to have to let the traffic flow."

00:50:08

And so, I just flow right on in here. God said, it's not about the money that you were going to get for the ministry today. He said, it's about that blood that's flowing in your veins. It's called the anointing. Two months ago, today, I sent Stephanie and Pastor C. Elijah and Pastor James and Pastor Nathaniel, a message I was -- They had rushed me to the hospital. They lost me for five minutes. I told to my son, I said, when I woke up, I said, "What is going on? Why am I in this room again?" And the doctor came in and he said, "You were in the doctor's office. You brought your mother to the doctor and as I was explaining to you what to do for your mother, you fell into my arms. But you were in the right place at the right time." And he said, "This is why you're in this intensive care unit because the people that worked in my office needed to see a miracle. And so, God let you live here for five minutes just so He could save them for a lifetime."

And so, I'm in the process momma of getting my singing voice back. It's not all the way back yet but it's coming. And the more I sing, and the more I praise, and the more I flow in the anointing, the more God is going to give me. And Stephanie, I thank God that there is not one thing that anybody in this room is going through that God cannot handle. I've been in the hospice three times. They gave me up momma, three times. And I want you to know, listen, when God send you to a place, you better go. So, when God sent me to the arc this morning, it was so I could flow some more.

My mom's doctor said, "I thought you were about 30 years old." And I said, "Yeah, I was 30, 25 years ago." But look at God. He will renew you like the eagles, and there's one thing that God is asking me to tell you. Don't let Christmas be about giving gifts. Not the gifts that you've got on layaway that is. Let it be about you sowing into the light of someone who's not saint. Let it be about you telling someone about the love of Jesus Christ. That's a gift. I want you to know that if you flow in the Holy Ghost, if you flow in the anointing, and if you learn how to give and forgive, God will let you live.

00:55:00

So, if you give and don't learn how to forgive, it will still kill you. I was praying and asking God. I said, "Lord, I need you to not

let me be in a hurry to try to find a wife. I was married 20 years and then when God saw fit to dissolve that marriage, notice I said, God saw fit. Don't get it twisted. Don't go home and break up. Sometimes, we can jump in stuff that God didn't design for us to be in. (00:56:05). And so, it's been seven years now I think, and after that second year, I was trying to get in a hurry and find somebody myself. And when Pastor James was preaching, I remember even those five years ago when I was in a hurry. God said, "The anointing is too strong on you for you to grab anybody." And so, he has taught me how to love on Him until she gets there.

Yeah. There's an anointing that God will give you that will make you comfortable by yourself. I mean, there's nothing like peace in your house and peace in your mind. Even if you're alone, there's a difference between alone and lonely. Yeah, I might be in the house by myself but I'm not lonely. Mother Bronner taught me that because she has taught me so much over the years and she probably doesn't even remember saying this to me. But she said, "I want you to let that go." Because I was holding onto some unforgiveness and my healing wasn't taking place. And this man of God right here laid his hands on me when I came up here one Friday night. And he doesn't even probably remember himself. One of the words he said was forgiveness.

The reason I'm here this morning is because many of the miracles that have happened in my life have happened at the arc. And I'm so grateful to God that this Bronner family, by the way which I'm mistaken for a lot of times, one of the Bronner brothers. Yeah. I said, "Yeah, those are my brothers. Mother Bronner is my mother." I'm just so grateful that between this church, word of faith and word of maybe love central. Those three churches are responsible for a lot of what I do for Christ, because those three churches believed in me when other Pastors did. And many of those Pastors now are angry because when I come to Atlanta, I go to the Bronner's and they're angry because I don't come to their church.

01:00:00

But I want you all to know that I love you and I appreciate you. And that young man back there in the back with the ponytail, yeah, what's his name? Gerald(ph)? God's got some good things

in store for you. He's got some things in store for you that you hadn't even prayed for yet. As long as you walk in the anointing, God said closer, I want you closer to me. I want you closer. I want you to go to bed praying and I want you to get up praying. I want you to get up talking to God and I want you to go to bed talking to God.

When you walk in your house, there's going to be a new anointing in there today. There's something fresh that God wants to do in you. But there are two people that you're going to have to get rid of to get it, and you know exactly who they are. God said, "I'm going to give it to you as soon as you get rid of those two people." I can't wait to see what God's going to do for you. I can't wait.

The lady right here, wave your hand up and (01:01:49) behind you. God wants you, the family member. There's one in particular that's not saved, that you have not ministered to but you need to, and God's going to use you to bring them to Christ. You know who it is? God's going to use you, I don't know if the reason is distance because you haven't spoken to them or talked to them. But whatever that reason is, move it out of the way and tell them about the Lord. Tell them about how He's moved into your life, how He's perched into your life.

God's about to do new things into your life when you pass that word on. I can't wait to hear the testimony. Halleluiah. I'm sorry to take so much time. I love you all so much and I can't wait to get back here again.

James Bronner: Amen. Amen. We thank Minister Miguel so much for that awesome flowing, that he flowed this morning. And the same message, make sure that you take it into your home as well. That same anointing that works in the church, same anointing that I preached about that works in the workplace, works in your home. My wife will tell you to that the state of flow that I'll operate in. Sometimes her phone is acting up and she will just hold it over to me and I'll say, "What are you doing?" She says, "I wanted to just text you." And she said it just started acting right when you just touch it.

And one day she was coming out of the shower and I had taken my shower earlier in. She went to go and grab a new towel and God said, "No." He said, "I want you to dry off with the towel

that your husband used so the anointing that is on his life will rub onto your life.”

So, as we equip ourselves with a stronger anointing, we ought to go anoint our children’s pillowcases with all in, place the anointing where they sleep. Our spouses ought to be anointed just from us embracing them and holding them with that anointing. It ought to be contagious for those that are close to us. So be sure the same word that was for your workplace, apply those same principles of focus and all of those right mindsets to your home, your spouse, your children.

01:05:07

And you can walk in that flow even with your children. There’s been cases even with our children when we were thinking we needed some professional help in some areas but the flow just causes us to see what they were going through and minister a word that changed their lives. If you’ll just flow even in your own home, God will show you what to do. Amen, amen, amen.

I’m going to ask Pastor Dexter(ph) if you’ll close this arc.

Pastor Dexter:

Amen, amen, amen. You were so much in the spirit and it was almost like I was listening to a radio. I have a radio piece in my ear, but as you were speaking before you could even get worse, God was giving it to me. Your life has been extended. And God told me to tell you, “Let it flow.” Because everybody that you touch and every life that you touch is going to change their destiny for the good. Amen. Come on and give God some praise. Halleluiah. Amen.

Encourage your neighbor on this week. Amen and some of you don’t even know your next-door neighbor. Amen. Go to your next-door neighbor’s house and encourage them. Amen. Give them a smile instead of a frown. Amen. And watch God change some situations even around your subdivision. Amen. And even around your children. Amen. Just be obedient.

Father God, we thank you right now for your presence here today, oh God. God, we thank you right now, God, even for just allowing my mother, oh God, to be here today. Oh God, strengthen her, oh God. Oh God, and thank you God for placing a hedge around her, oh God, for the mothers in the house, oh

God, protect them right now. Bless them right now, God. Deliver them whatever they stand and need of God, grant it to them in Jesus' name.

Oh God, for our fathers, oh God, who are in the house. Oh God, we pray that you give them another anointing, another level, oh God, mental, oh God, above and not beneath, oh God. To lead their home, oh God, and to direct their wife and their children to a better place, oh God. We thank you right now for each and everyone here represented in this place and, oh God, we ask that you just touch right now as we leave here but never from your presence, oh God, as we go to and fro upon this earth.

Be with us, keep us, guide us, and lead us, oh God, not to our own understanding but to you in wisdom and knowledge. In Jesus' name we pray. Amen.

James Bronner: I thank you today for joining us at Brothers of The Word because brother you need the Word.

Automated Voice: You are listening to BrothersofTheWord.com. This was the message titled "Working in the Anointing" by James Bronner. This message is number 8244. That's 8244. To listen to over a thousand free messages or to send this message number 8244 to a friend, go to BrothersofTheWord.com.
