Amen, amen. Sometimes you can learn so much because first of all, some of you seek to choose and only some had it going through some. You said if only somebody got into problem, and sometimes even when you hear other people's problems and you realize the problem that you had wasn't quite as bad as you thought it was. Some of you are all arguing about the fact that your husband didn't take you out to dinner last week, and when he did take you out he did not order immediately what you wanted to eat, he got something that you quite did not want. I think some of you are arguing over heavy stuff and sometimes a testimony will inspire you and sometimes it will let you know that you are not quite doing as bad as you thought you were.

And it is all in a matter of perspective and it is a relative thing and God, the testimonies were all different and they run the full range but it never stood to many of you in many different ways? All I know is that what God told me to do and even upon this day, its going to be a deep message today, and I told you when I began this serious dealing with raising and getting rid of family curse and if its going to be kind of like going to the ditch,

I told you it was not going to be really emotional, it was not going to be some have you shot, it is going to be some drilling because anytime you have got the disease, the medicine is usually always there. And you said, 'well sure the Holy Spirit is not there to know.' It is not there but when it comes to take your will, it will cause you to expert some things and it is always unpleasant.

Anytime great change is required even when you live a life of sin it is better living a life of sin because you have to make some changes and you have to make some withdrawals of some sins that you were used to and that sin shakes you up. It is always unpleasant, the medicine that cures sickness,

Jesus when he gave his life on the cross for us, it was an unpleasant sin. And when we have to crucify our flesh, it is an unpleasant thing.

I was talking with my wife last night as we have yesterday gone through a service that dealt with the history of the Bronx and my father and his ten siblings and their parents and as they went over the history and I was showing and telling even my wife how I for once even saw and understood the history of our family. I saw blessings and cursing just in the family tree as I listened to the reverend of each one and I saw and heard blessing and cursing and I was explaining to my wife how it worked and I was explaining and showing her all of the things and I was showing her the blessings and I was showing her to the cursing and I have to show and make the people understand this thing and my wife says, so they want to hear really about cursing, all they want to know is how to get rid of this stuff? And she was just as right as she could be.

But in order sometimes for you to even get rid of it you've got to first of all recognize that it is. See a lot of times we don't even recognize that the curse really exists, people, if God blessing so as to obey it curse so as to obey. And you don't have to ask if they're still there, all you have to do is look around? And I told you as went from Deuteronomy and looked at all of those mini verses of curses there was over 3 times as many verses devoted for the curses as they were the blessings and they fell in those 7 categories the first and the biggest category that God outline was the arena of money. And do you know that the testimonies even the day of a struggle they involved money? A job, food, provisions, the involvement, most of the testimonies the majority of them involved money. That is the first curse that god outlined in Deuteronomy and as he devoted more verses to that than any other of the curse.

And even if our testimonies to they have more testimonies devoted to that area than any other area, it was not an accident. You see there are still there and all of those things called people, and I told you I was going to have them one by one and I had said the day I was going to begin on that curse of money, I may not have gone through it today. Do you know there are 7 individual area of the money cursing? 7 individual areas of money cursings, but it will say in the whole sermon but for some reason I am not quite less getting this, I am proud of getting to it next week.

But there are some things that you need to understand just about the curses and how to get them out of you world, then you need to know because they're still there because I saw them so much sin our family tree.

I said if they were in our family tree they are in everybody's family tree and God said for those that hate me he would carry the curse and down until the third and the fourth generations, and people when you look at it each of and first of all we have got 2 parents, then he got 4 grandparents, we have got 8 great grandparents, and 16 great – great grandparents, that is 30 people and those 3 or 4 generations and those you know someway in them 30 folks you have some folks that were some real messes? Some way if you go back 30 folks in your family line and most of us don't have to go 30 folks each.

But if you know you go back 30 people you have got some messes and we can see from those 7 areas of cursing that is still you know money was the first ones, lost or lack of children is the second one, confusion of fault, directions, spirit and death and it was the third one, disease was the fourth one, enemies were the fifth one, loss of honor and respect is the sixth one, and death, marriage is the seventh one. And do you know that I have held 7 you know most of those, every single one of them is in the church we were bitch. And every one of them is a curse; do you know disease is a curse? Bad marriage, do you know that--, do you all know that's a curse? You do not know that? You do not notice that is a curse? Do you know that lack of provision

whether you came from buy it from yourself, do you understand and know death is curse?

See, that is a first thing that you need to understand is it death is not what God wants his obedient people to have, that is the first will ovation that you must have. Sometimes you have the misconception that even poverty is a blessing and that is the way the children of God is supposed to be falling, never say of that! Now there are some things in the New Testament were Jesus took us away from material things, he did but he did not take us to poverty, he never took you away you were in latch. When he took you, in fact that you did not need all that extravagant stuff? That is where he took you!

And one of the reasons are, cannot even pour upon us many of the blessings that he wants to pour upon us because most of us cannot handle what is left. You see when he pour some of the great material blessings on us right now, that is what happened to the children of evil every time they repented and god blessed them it was not long before they went away from god because they started worshipping stuff they should not be worshipping.

In Proverbs chapter 26 verse 2, I want you to turn there because this is critical for you to understand first of all the nature of the 2 sided coin of blessing and cursing. "You cannot have one without the other", and god is still blessing to David, do you all know that? He is a blessing, god is pouring out his mercy, his pouring out his abundance, his joy, his love, god is still blessing today so the blessings have not gone anywhere? I have got news for you neither have those 7 categories of cursing? But Proverbs in the 26 chapter, the second verse says this "As the bird by wandering, as the swallow by flying, so the curse causeless shall not come", let me read that NIB version of that same 26 chapter, second verse of Proverbs, "Like a fluttering sparrow, or a dorething swallow, and undeserved curse does not come to rest", what that verse is simply saying this, if in one of those 7 areas of your life there is a curse in your life, what that verse is saying this, there is a reason for it. Says that a curse does not causeless come there is a reason for it, and you see people you need to be able to first of all with all things be able to see, understand, and deal with the cause because if you never deal with the cause, and if you never get the cause of the thing out of your life. You will never get this thing out?

See, it is like if you are a gardener and you have got weeds growing up, and you see a weed and chase and sniff the weed there at ground level but you do not get rid of the cause? What is going to happen to the weed? Something like that, see you have got to get rid of the cause and of it, you have got to understand about curses what the bible says is that a curse does not causeless come, there is a reason for it. In every situation were I have ever known the situation and have been able to investigate the histories and the background the cause becomes evident.

There is a cause for all curses; the curse does not causeless come. Now there are some things that happen in life and they are not really curses? For all of us those who have some stuff, I mean in everyone of those areas you go through some stuff, you got through some situation I do not care how much money you have got, you got through some situation were your money is not light sometimes. You will go through that, you will go through some situations like even if you do have children, you will go through some situations when you will have some problems out of your children sometimes. Even if you all are obeying and following God, he would assist, you will go through some situation when you are slightly confused and you do not know what to do? You will go through that sometimes, you will go through I do not care how holy you are, you will go through some situations sometimes when you will get sick. So you will go through some things. I do not care how saintly of a marriage you have, you will go through some situations sometimes when you do not feel like speaking to her and she does not want to speak to you? You are going to go through that sometimes.

So it is not saying that just because you have a nakedly born at birth situation that happens in your life that a curse has operated. You see there is one thing that kind of distinguishes that the thing is a curse. And the thing that distinguishes that the thing is a curse can be summed up in one emotional word, curses are repetitious, and they seem to be never end. If you have been dealing with the same thing over and over and over and over and over and over again, it look like your daddy and your mama dealt with the same thing over and over and over and over and the emotional state that a curse always creates can be summed up in one word, frustration. You have been hiding that this thing, trying to fix it and it just would not get fixed. You have been working on it, you have been using all your mind power you have been doing everything know how to do, working with this thing and that just seems to be some shadowy spores that seem to be something that just wont let the thing get right and it causes your spirit's frustration.

You see there is not single one of this 7 thing that I have not going through; I have gone through every one of them? There is not a single one of them that I have not experienced and I doubt if there is anyone over 20 years old that had not experienced everyone of themselves, that you will experience everyone to a degree but I have never been frustrated because none of them had ever been apparent? I have gone through situations were I have had to deal with everything, every one of this things but they were always frenzy if they were temporary I would go in through it, I never got so in it. And that is the difference at what curse to distinguish when you know you have a curse working that then it just would not seem to go away.

You have been dealing with it for the last for as long as you can remember. For as long as you can remember you have always been short of money and you have never been able, you have always been waiting, worried about the first of the month, you

have never really had anything, well you can even be at ease with your money for some reason it looks like every time you get a little save up from raising it, eat it up, and it devours it and in a way, that is a curse folk.

And it's been that way for ages and matter of fact it has been that way so long you think it is normal. You see if you stay in that situation so long, you know if you are walking through a room and there is a horrible odor in the room? When you first walk in the room you said, whooo? What in the world is that terrible smell for staying in the room for couple of hours, your nose becomes acclimated to it. And you cannot smell it anymore? Sometimes we will be in a situation so long, what is that smell, well it is not my husband supposed to meet me? You have been in it so long that it feels normal. But I do not suppose to have all this aches and pains, I just froze to be sick every minute, this is normal for me to wake up every morning feeling like this, its normal you have been in it so long you become acclimated to it and you cannot even recognize that you have a curse operating within your life.

But my purpose in what God told me to do, was to teach and to educate the people how they could wage the curses in their life. But you have to recognize it is from their break. Do you know one of the hardest things to do is try to ever get the alcoholic away from alcohol and they do not think they are an alcoholic? That is why the alcohol is anonymous that first thing is they will make an alcoholic due, when they get to him they make him stand up and say I such and such am an alcoholic. First thing you have to do is admit it because if you have not missed a little I am just a social drinker I really do not have a problem?

And if you do not think you have a problem you will never stick to it, if you do not recognize that there is a supernatural force working in your life and you see within this earth there is always visible and the invincible there is the seen and the unseen and curse is operating on that unseen things just as blessings do, have you ever noticed sometimes there will be two people they have got the same resources they come from their similar backgrounds the second gets one and looks like everything they do just work for them they have never noticed that.

It looks like some just work for them, and then the other person got the same thing but something like it just, just happens. One walk in the enormous of blessing and the other walks in the enormous curse-- well preacher I am beginning to see I can see some repetitious sins in my life that have been there all this long I am beginning to see. I understand and then I got rid of it that is what I want to know. I got your point. I am convinced now that curses do exist. I understand that. I see that the curses can be over anything from my money to my relationship. I understand that preacher how do I get the blessing instead of the curse? That is it! What I want to know next.

See with that first curse people can see and understand clearly when there is a problem with money, what they want to know is how they got them whole heap of money to get our mothers a problem. What you want to know right now. How do I get out from under this evil thing? I want you to open your bibles to the book of Mark 9th chapter, and as I begin to try to show you some things but what you have to need to do to get curses out of your life? You are going to need to accept Jesus into your life with most of you in this church have already done that? And you still got the curse, and you are wondering what's wrong?

You come down and you have fallen before the altar with tears streaming down your face and you see a case and you will be. You have come down and you praise the name of Jesus and you have given your heart and your heart is still not acting right, and your children still out in the street, and you still got pain and disease in your body and you do not understand, and you still do not know which direction to go with, you see I have done that crazy yet I am still in a mess! What is it? What are my misses why is my life not straightened out, how do I correct this thing. In Mark the 9th chapter I'm going to read the 14th through the 29th verse.

This a story in the bible that you have heard numerous times, Mark chapter 9 beginning at verse 14, "And when he came to his disciples, he saw a great multitude about them, and the scribes questioning with them. And straightway all the people, when they beheld him, were greatly amazed, and running to him, saluted him. And he asked the scribes, what question ye with them? And one of the multitude answered and said, Master, I have brought unto thee my son, which hath a dumb spirit; And wheresoever he taketh him, he teareth him: and he foameth, and gnasheth with his teeth, and pineth away: and I spake to thy disciples that they should cast him out; and they could not. He answereth him, and saith, O faithless generation, how long shall I be with you? How long shall I suffer you? Bring him unto me. And they brought him unto him: and when he saw him, straightway the spirit tare him: and he fell on the ground, and wallowed foaming. And he asked his father, How long is it ago since this came unto him? And he said, Of a child. And oftentimes it hath cast him into the fires, and into the waters, to destroy him: but if thou canst do any thing, have compassion on us, and help us.

Jesus said unto him, If thou canst believe, all things are possible to him that believeth. And straightway the father of the child cried out, and said with tears, Lord, I believe; help thou mine unbelief. When Jesus saw that the people came running together ; he rebuked the foul spirit, saying unto him, Thou dumb and deaf spirit, I charge thee, come out of him, and enter no more into him. And the spirit cried, and rent him soar, and came out of him: and he was as one dead; insomuch that many said, He is dead. But Jesus took him by the hand, and lifted him up; and he arose. And when he was come into the house, his disciples asked him privately, Why could not we cast him out? And he said unto, This kind can come forth by nothing, by prayer and fasting."

Jesus told the father if thou can just believe, you can do anything but the disciple could not cast the demon out. And you have to ask yourself a question, Jesus told the man if you just believe! But the disciples could not cast the demon out, did they believe? Why could not they can be without? And the disciples ask for help and they went unto Jesus privately because they did not want it to be public, they did not want to be embarrassed out in the public and say Lord, why women if were to do anything we just laugh. So they circle him around at Chronicles, they did not want a public embarrassment of, because they may not have know what Jesus was so said about it? So they say, took him away privately and they said lord, why could not we cast the demon out? And Jesus said this kind only come without by fasting and prayer.

But there was another twist to this, Jesus did not fast? He did not fast? And that means stayed his way! So Jesus was saying something a little bit more than this kind just coming out by fasting and prayer, because he need to fast if not pray, but he cast the demon out? So what was the difference?

I will tell you what the difference was, Jesus said oh ye of little faith how long must I deal with you unto least. You see people if you have the belief, if you have the faith, if you have to walk with Jesus, all curses would be instantly dismissed from your work.

The problem is most people can very rarely get and maintain that level of faith, that is why the disciples have problems? And they have to put Jesus through that, you see some of you right now, you are in the church you have been there for a long time you have been friends, you have known all the things yet, pull God to the side of heaven, good Lord? Why cannot I cast this thing out of my life? Why is this shadow still over me? Why am I still wrestling with this thing? Why cannot I, cannot conquer this thing? Why do I still have this in my body? Why does my bank account look like that? Why is my family dysfunctional like this? Why when I been here? And you all say this publicly! But in your private pad you pull the lord to the side and you beg lord why can not I, you said if why cannot I do it?

Same is the disciples, Jesus this kind only comes out by fasting and prayer, but he neither fasted nor prayed? So there has to be something else Jesus was telling the disciples. What else was it? Since obviously he did it? What else was it? The fasting just wouldn't affect the demon? Because the fellow who had the demon in and was not going fast, and he definitely was not going to pray? So it was not the fact that affected the fellow that has the demon in it? For who was the fasting and the prayer for? It was for the disciples! Because what happens when you fast, and what happens when you pray, you will start getting revelation and you will start getting knowledge and you will start getting faith to start casting some things out of your life that you have not been able to move. But you have been in your quiet, private

times; wandering and pleaded with god, lord why? Have I not been able to move this thing out of my life?

And Jesus told the demon this, in verse 25 of that 9th chapter of Mark, "When Jesus saw that the people came running together ; he rebuked the foul spirit, saying unto him, Thou dumb and deaf spirit, I charge thee, come out of him, and enter no more into him." And my subject for to day is come out and do not go back! Come out, and don't go back you see that's what Jesus basically told the demon, he said come out! And do not go back, Jesus gave a parable of a when a man was cleansed from the demons, and the demon went forth to and fro into the earth and to dry places, and he came back and found the house clean and garnished, and entered back into them man, and he said he brought with him seven more spirits more wicked than himself.

And the latter stage of the man was worst that the first! Cares you nothing of demons not evil, dumb it is not evil, if some demons is worst than some other? Say he brought back some demons that were more wicked than he was! Its some big demons and some little, all of demons are evil, but all are not the same? So he brought back not only himself but he brought back the grand daddy of the demons. He brought back some big old demons with it, but the thing is when the house when the man was cleaning and garnished, that is why you learn from how Jesus, these things he told that demon 2 things. Get out, and do not come back, see when the old man when he cleaned the house but he told him get out, but, he did not tell him do not come back? Now that may seem like a simple thing but it is a big thing. You see some of you have gotten things out of your life but you do not let them come back.

Sometimes even in a relationship, they have the hardest times dealing with spoken and sometimes I count the people that I can see right away that the relationship is just as that for millions it can be is driving the folk crazy, I will tell him that I said that relationship was not of god, I said get out of the relationship and stay out of the relationship when there's a possible due and they put that and wrestle out but it moved out or whatever the case is and you come back 3 months later so what else, well I got it out! But! But! Late in the midnight hours, he called me up late in the midnight hour and I was there lonely, I have sinned, and if I need a long time, anything you must have to, you get going and staying and he say he has changed. He brought back a demon even worst than the one that you put out!

You have got to say get out and stay out! You see that is a problem that we have and so many of the things in our life we can open our eyes and we could see that we need to put some things out? The problem we can't keep them out, we own that door and they come back in. and you know its even that way with the physical body, and ill tell people when they come to me about things just of a natural health I say look, let me tell you something, I say if you even start to clean your body out, once you clean the body out it becomes more sensitive to poison than it was before, I say look if you wont clean it out and go back if that up and you will never to clean it out?

Because if you clean your body out and go back and put the poison in, your body will have a worst reaction than if you never had clean it out in the first place. So if that a, if you goanna go back? If that up and you will to even remain in peace, they just come out of things. Just fanatic in the glory if god and you did not go back and sin and you will never come back out again. You would better be off if you never even knew, that if you come out and learn about god and go back, that is really what he meant by blaspheming in the holy spirit? You know god! You have experienced it; there is no question in your mind and you go back, get out! And stay out!

This is what Jesus commanded the demon to do that the disciples did not have the faith to do? And Jesus say look you all got to fast and you all have to pray, because there are some things that you will have to have supernatural revelations on how to get of your life. But even if you have the supernatural revelation of how to get it out you have got to have the discipline and you've got to have the will power to keep it out. Have not you ever gotten in good shape but you have let the old come back in. You have gotten in good shape but, and you know this stuff and you see that is the thing about it you knew it was a demon.

That is why if you know the story of Dracula it has a great amount of truth to it, a real great amount of truth. If Jesus was the one who gave blood, Dracula symbolizes Satan the one who taste the blood and do you know if there is a Dracula cannot enter your house unless you invite him in? It has a grate deal of truth to it, and you invited him in but Dracula was always a good looking, honey coat, suave, smooth, he looked good, and he came in the midnight hour, he could never come in daylight, the demon could never come in daylight, he had to wait till darkness crowded your mind and your vision and whether you were overtaken by the passions of the flesh and the spirit no longer reigning in? Dracula would know on your door, and he could not cross your threshold unless you invited him in. You cast him out, he comes back and bring with him 7 demons more wicked d9tahn himself. Get out, come out, and nothing else.

And what I really want to tell you in this message today some of you have some a cursed thing in your life and the thing, are physical. I am not even talking about spiritual, I am talking about you get some accursed things in your life and the things are physical so, what do you mean preacher? God has not gotten up this morning just start reading, jestings, and from testimonies from deliberating, and one of by a minister great world renowned minister and he was telling testimonies of how he had a curse transferred to him from his grandfather and the thing was on a thing?

The grandfather has been on the military and he would gone over in the orient and he has brought back an engraving that has dragons on the thing. And he passed down to his son and the son put the engraving up on his wall and it was from his grandfather and yet he always admire that it was so colorful, it was so beautiful,

but he could not understand that he went to serve god by his ministry with having so many problems and he was having so many problems in his life and it look like that shadow was over like nothing was going right, and he prayed and he asked suddenly the Lord, what is wrong? And God said, son up on your wall, what do you have? And he looked and there was just a picture and the image of the engraved dragon and nothing but dragons, he said what do dragons represent in my word?

And he cried about it, I think so well that dragon is Satan, was the dragon, the serpent. And he knew from that and he took the thing from his wall and got it out of his house and destroyed it and from that point on, everything in his life turns around, you seen he did understood late what the thing was it was a worshiped idol from another religion that carried with its spirit, you see folk is some spirit and some stuff and some physical things that's why even when god sends the children of Israel into conquer from land, and when they had the idol god told them destroy all of the idols and do not even take any of it not even any of the gold or the silver or the, let me to read that such you'll understand it, you see some of you have some actual accursed physical thing.

Turn to Deuteronomy chapter 7, you need to be able to see this and understand this, and I am going to bring it down a little bit clearer so you will see it. Some of you have got some actual accursed things that in your home that you need to get rid of, because they carry with them spirits! And you need to understand this, God knew when he said it forth in his word and the same thing that was then the whole testament there are no stuff that's here in the new. Deuteronomy chapter 7 verses 25 and 26, and the bible reads such thing, "The graven images of their gods shall ye burn with fire: thou shalt not desire the silver or gold that is on them, nor take it unto thee, lest thou be snared therein: for it is an abomination to the Lord thy God. Neither shalt thou bring an abomination into thine house, lest thou be a cursed thing like it: but thou shalt utterly detest it, and thou shalt utterly abhor it; for it is a cursed thing."

God said if you even bring the images of the idol of ungodly things into your house, the bible said, "Lest thou be a cursed thing like it". And you see some of us as we go home right now, we've got some cursed things in our houses that are images of some stuff that's not to God. And you see the bible says in the King James Version graven images, the NIB says simply, "The images of their god you are to burn in the fire". And see graven simply means carved, but do you know virtually everything that is printed comes from a graven or carved image, the original printing used to come from sight that were carved and they print it. Now they do not use sight anymore they use negative but it is the same principle. Graven simply means anything that is written and even now the thing is gone beyond that and technology you do not need an actual engraving you see even, do you know television? It is an engrave image and for those of you that understand physics and electronics then you know how a television works. Television work by using an electron beam that comes from

a red, blue, and a green tube that excites fast for element on the screen, and the beam shines and it engrave the picture on a rapidly scanning beams. Sometimes the graven images even enter into our homes. Through the images through television, through books, through pictures, some of us have got some African mask on our wall, where do you think that stuff came from? They came out of other religion, some of you got some voodoo ass right know on your wall!

And you see it is kind of, it is cheap, its contemporary, its kind a fashionable thief. I have gotten these masks on the wall with this spears and all it? It is showing some African heritage and all, and that is stuff coming out of voodoo and it is an image of another god and its bringer of curses in your home and you do not even understand it and you become a cursed thing because you have brought a cursed thing into the home.

And the devil is shrewd, and the devil is slick, and as I read the testimony of a minister who had to get the dragons out of his home through the image. I said to myself, oh my God. The devil is act of the children because that is what is generational curses are all about, but they can only get through the children by slipping past the parents. And we have allowed demonic images that enter into our home through graven images, do you know what the number one images among kids the cartoon right know? And as deep as the revelation was revealed to me, the number one image that kids watch is a purple dragon. And I said whooo? And do you know if you ever listen to powers, talk about touching innocent little things as little Barney's so nice, so sweet, but it's a dragon, a reptile, a dinosaur, it is the very thing that Satan was represented by.

I just got through going to a book dealing with satanic cults, and of the things the book talked about as it gave the stories of those who had escaped from satanic cults, and how the satanic cults, you see Satan's trying to imitate and counterfeit everything that god has. And the one thing that they always said of the satanic cults, they were thought that Satan loves them, they became bribe for Satan. Satan loves me, and as I thought about even the image of the little dinosaur, that so enchant our children, we begin to, "I love to, you love me," and it is a dinosaur that's telling the child he loves you. And do you know parent will say, they cannot understand, are we never that programs comes on? The child would to be.

Its like nothing else to hold my chapel whenever the program, the child gets as still, no matter how small, to just as still, and you're goanna watch it and you wont see a thing and they'll sit there almost as if they are ponder of bad. As hell have change figure it out? And do you know there's something on the inside of every parent that knows that something not quite right. You knew it? You noticed something not quite right about the image of a purple dinosaur that is captivating your child and keeps him there transfixed. You knew it something not quite right about it, but it convinced because it keeps child under control.

And sometimes even when we realized that we were dealing with demonic forces, we would rather leave our child to the demon, therefore it is above earth. And do you know we ever make just, just noted how much, just in children's cartoons. Do you ever made your big thing about this dragon tale? The very image of Satan himself and it is captivating our children through the image is just enough, we no longer bring in graven statues, the television itself becomes engraving. And we do not understand how suddenly it how Satan will creep in and start putting things into the mind of our child, that is why God said do not touch any of that stuff, he said take it out and burn it. Because he understood, he said even this, he said do not even take the gold and the silver that overlays the idol. See that even had a deeper meaning you see because generally everything that is satanic in nature, lost and entice man to the gold and the silver.

You know most of the mess in the world isn't gold and some silver behind it that is why it is done. The growth problem, did you know if it were not possible you would not have a growth problem. Some import drugs and sell drugs and get your child on drugs because of the gold and the silver. The first testimony that we had or rather the woman says she was tempted to keep the extra change that was given her; she needed the money, if a gold and silver overnight. And if had kept that money Satan would have a piece of her folk. Because those of money would have been, than that money would have disappeared so fast? And it would have left an emptiness, see the gold and the silver, Satan has the ability to deliver the gold and the silver it was on the idol.

But God told the children Israel, do not even touch it! Some of us have some CD and you know CD's are nothing but engrave that is all record work. We have got some music in our homes that is satanic music. And it is telling you to do stuff; I remember back when I was much younger one of the most popular songs is out, if loving you is wrong! You all can finish up the title and you know you can, you have finish up the title, you see that song has not been out for nearly 30 years, because that thing came out I believe in the 70's so its at least 25 years since that song is out but instantly you know the other half of it.

Insolent, the urgency, what about it? But you know you see that is how powerful, you see graven images they not only engrave on the sins, they engrave on your spirit. And when you start singing, that loving you is wrong I do not want to be right! There is something about a sin that gets down in your spirit and starts speaking to you conspiracy eve got some music that we need to get out, and keep out. Some of the graven sins that we do not understand is, there is an engraving in some of our houses under your rightness you've got hidden away some love letter from an old flaming numeric. This is hit somebody in this sanctuary real flown. Now I do not know who you are, but the spirit of God has just led me to that, just hit somebody real flown. You have got some love letters in your files that you know

about, you have got some love letters hidden away, some engravings, and every now and then you go back and pour all those love letters out and you read to those old letters and it brings a warm feeling about the way things used to be.

There are things in your life and in your house, there are some physical things. That you need to get out, and keep out. And you need to go through your homes, look at everything in your wall; you need to look at everything in your bookshelves, everything that is on your CD cases, and everything that is in your cassette box, even on the internet.

Everything that is coming into your house that is not of god is a fake and you did not want it to do? It is either of God or it is a fake? And you see sometimes we cannot get curses off of our life, we come and we give our life to Jesus but we go home and we got all the idols still on the wall? And we cannot resist while we cannot get this stuff off, you have got to first of all just get rid of the physical stuff within you house. There is some empty, some people will say well there are no power in that subject is real? Yes it is! That is some spirit that resides in that, just like our divine blessings that just resided on us, that is like the ark in the covenant? Where and when is right it blesses, but if you touch it unauthorized it kills you in front of the, that was a divine power, there are some demonic infestations in some of the things that we have in our homes. Some of the music and you see you need to be real careful even with gospel music.

As my brother James prays this morning, he talked about anointing and even, there noises of whatever is on something of whatever you receive in your life even your gospel music you need to be careful about some things. And do you know in the gospel were one of the things I am so thankful, I am thankful that brother Ivan is a straight, normal, silent he may. I am just pretty straight, I am glad he is not gay. I am just so for the straight, and do you know even a lot of our gospel music it is produced and performed by me, and who wake up in the morning and look over at another man and then go sing the praises of god if you listen to it.

Now I do not know if I too, and I cannot speak for you. I do not know about you but when I hear the music of the lord I do not want to hear that music from a man that just woke up that morning lying next to another man. Because there is a spirit is over the thing. I even had to experience recently of where I went to purchase some clothes. And I was getting the thing custom made, and something happened between the tailor and the store owner. And as a result my clothes were not made and I have to make a decision of whether I was goanna get the store owner to find someone else to make them or whether I can get them straight from the tailor? And I decided based on a moral reason that it was proper for me to go through the store owner because that's where I first met the tailor.

And it was not until later that God kind a begin dealing with me with some things and my brother James was involved with it and started dealing with me some things and, my brother James asking me said that a tailor, he said is that tailor straight? I said well to tell you the truth I do not exactly know? I say I got to admit. I say I got to admit that he is a little bit off flamboyant I say I do not know? But I have to admit, that see in sometimes and so I just went frankly and I just ask the store owner just straight, I say look is he gay or not? And he answered me like this, and you see some folks may get mad when I talk about that, but that is the word of God and I would give all to there is to it? And that is just one little thing. That is not picking on anyone particular thing but saying things we fool it in ourselves, a liar, a thief, a murderer, a person puffed up in pride, the same is true with any spirit that is not in line but God's spirit.

God has asked to restore in us faith? And the store owner just told me this he said, 9 out of 10 times if you have got to ask, so I knew. But what happened before god would allow my clothes or even something for James to be made by a spirit that was not of him he revealed. And see the thing about it the clothes they were the most awesome clothes I have ever seen in my life. Beautiful, awesome, but it would have been the wrong spirit on that thing. And god did not want me putting on clothes and a cover created by the wrong spirit. There are some things within you home that are physical things that god wants you to say come out and do not go back, come out and do not go back. The curses and the blessings of God are real. And people there are no conflict between old and New Testament. We are under grace, we are no longer supposedly under the curse of the law yet the curses are still running around, you know why? Because the same thing applied in the Old is identically same thing that applies to the New. And in Deuteronomy when god, Deuteronomy 28, beginning with that 1st verse god says this is, "And it shall come to pass, if thou shalt hearken diligently unto the voice of the Lord thy God, to observe and to do all his commandment which I commanded thee this day, that the Lord thy God will set thee on high above all nations of the earth: And all these blessings shall come on thee, and overtake thee, if thou shalt hearken unto the voice of the Lord thy God."

Now I want you to see something in this verse as god, as he tells the people the requirement for the blessings. He said if they hearken diligently unto the voice of the gods. Now listen to this, he put a distinction between his voice and his commandments, I want you to notice that, "And it shall come to pass, if thou shalt hearken diligently unto the voice of the Lord thy God, to observe and to do all his commandment which I commanded," he separates them. Because if they were the same he could have just put them all together, he could have said, hey look if you all just obey my commandments and that should have done it if they were a saint? But he'd separate them.

And he mentioned the voice twice, "If thou shalt hearken diligently unto the voice of the Lord," and then the next verse said, "And these blessings shall come on thee,

and overtake thee, if thou shalt hearken unto the voice of the Lord thy God.” Now I want you to turn to John, Matthew, Mark, Luke, John. Turn to John chapter 10, and I want to show you the parallel in the New Testament, there is no conflict really between the Old and the New! God told the children of Israel, if you hearken unto my voice and do my commandments, if you listen to my voice all this blessings said that they’ll overtake it, meaning that the blessings will run faster than you can move and you have no choice but for them to overtake you.

John 10:27 reads, and this is Jesus talking, “My sheep hear my voice, and I know them, and they follow me: And I give unto them eternal life: and they shall never, neither shall any man pluck the out of my hand. My Father, which gave them me, is greater than all; and no man is able to pluck them out of my Father’s hand. I and my Father are one.” God said in the Old Testament, if you listen and hearken unto my voice, and obey my commandments all this blessings will overtake you. Jesus said in the New Testament, my sheep know my voice and they follow me, follow me simply means doing what he is doing. And that was god’s way. So Jesus said in a nutshell if you hear my voice?

My sheep know my voice, and if you follow into my ways this is what you get. And you see people the greatest blessing of all is eternal life, and the greatest curse of all is eternal damnation. You have got to learn how to hear and heart unto God’s voice, do you know even when the first sin was committed and if you read in Genesis, it says that, and that is in Genesis 3:8, “And they heard the voice of the Lord God walking in the garden sin the cool of the day.” Did not say they heard God? It say they heard a voice of the Lord God walking in the cool of the day, people need to learn to hear his voice and his voice will come through many different ways. Some of you have heard his voice through what I told you today, and it went straight into your spirit and you know without a shadow of a doubt is truth.

Hearing is the first thought, following is the second part. Jesus and my sheep hear my voice they know it and they fallow me, they hear and they obey, they hear and they obey. Old Testament says if you hearken unto my voice and obey my commandments. You hear and you obey, you hear and you obey, you hear and you obey, Old Testament, New Testament same thing, hear and obey! If you do not hear you do not know, and .if you do not know you cannot do it right. Hear and obey, some of you heard on this day sins that will get you a curse thing out of your home. Go back and go through your house and everything that is not of god, get rid of it. Some of you got Ouija boards, take your Ouija board out, and do you know god he even gave you the message for getting rid of it.

He did not say give it away, he did not even say put it in the trash? He said burned it up so that it is destroyed completely, there is a purifying power inside, some of you may guess either to go back and get you one them big metal trash can take all that stuff put it in that puck you choose of and be very careful of they all fire coals I

do not want to have anybody come in the house burning down the mark so, obey all you fire coals be real safe about it but some of you actually need to pull that stuff out of your house and then literally burn it up. Them old love letters, do not just take it and put it in a freighter you actually need to burn the thing up? If before god commanded the children of Israel to do it with all the cursed thing.

And see after this message you start going through your house, and you goanna see some things someone got a pack of taro cards are not that right? Must be burned up, some of you have got things that you know are not of gods, you need to burn them up. You have got images, you have got pictures, you have got books, you have got music, you have got some stuff, that you got other spirits on. Some of you got it even in clothes, from some of your old wicked days, you know people when you started to turn over new leaf, and you started dressing differently some of you all got some old dresses from the old days from where you were out there but you just do not want to get rid of it because its memorabilia, you need to get rid of that stuff. And tell that stuff come out, and never come back.

There is a physical part that even goes along with beginning to break the curse; they still have it, so many of our lines. God want blessed, curses were never his desire in Old nor New Testament, he wants you blessed, you have got to believe it. But you have got to hear and you have got to follow. When you do that you start cleaning the curses, lifted from life one by one. And I am going to continue this series until I finish, I did not think it would take me this long? I at least thought I could get in specifically the first curse by now, but it has not just dealing in foundations, first of all before you hear this stuff I do first curse if he wants you how to do that, he wants you how to do that? And some of you right now know you have got to stop it; you know you have got to. Some of you going on in system you just pick up chunk, you know that chunk was same, another spirit another religion should not be in your heart, you burn them up, all the stuff that is not of God, you get out of the house.

Bow your heads; Dear heavenly Father, we thank you upon this day, and dear Lord I pray now that you open the eyes of the people as they get home. That they are able to see the things that are not of you, that they are able to see the things that are, bring spirits into their homes. Let them have new vision that as they watched television they will be able to see the satanic forces that is trying to take their children. Let them see so that they may hear and that they may follow, open up every senses that they have to the world of the demonic, they will be able to see it, smell it, hear it, taste, it, when they touch it they will know that this is not of God. Give them discernment dear father that they shall know the unclean things and get it out of their homes. Dear Father I pray that no curses shall reside over this congregation, no curses in Jesus' name. Amen!

And I hear God even speaking then, said every curses broken, but a whole lot of doors not shut. Every curse is broken, but the door do not shut, and until you shut the doors the curse comes right back in. So we will be continuing to learn, but what you do in this day, no one goes to sleep tonight without doing it, go home, go through your house and everything, do not give it to anybody because you do not want to transfer the curse! Do not give it away, do not sell it, and do not take it down to good will, because you are going to transfer the curse to somebody else? And that brings the curse on you! Do not give, that is why he said burn it up? Do not give it to anyone, destroy it, do not even leave it out for the trash man because the trash man will get it. Destroy it, don't transfer the curse, get it out of you house when you go home on this day.
